WALL PROTECTS CLIMBING VINE

CAMPUS SCIENCE TO HAVE VINE PROTECTED BY CEMENT WALL

Plant Thru's New Exhibit of Shrubbery by Mosses

If you own more than a building or house, try this simple experiment:

1. Dig up a vine on your property.
2. Place it in cement.
3. Watch it grow!

It is being done right now at the campus of Oregon State University, where a new science exhibit is being set up. The exhibit will be completed in the fall and is expected to open in January. The exhibit will serve as a demonstration of the growth of a vine in a controlled environment.

The vine is a variety of English ivy, which is commonly found in gardens and landscapes. The exhibit will provide an opportunity for visitors to observe the growth of the vine in a controlled environment.

PROGRAM NOT ANNOUNCED

Manager Edwards Completes Plans for New Student Housing

Mr. Edwards, the new manager of student housing, has completed plans for a new dormitory. The new dormitory will be located on the west side of campus, near the main entrance. It will be a four-story building, with 100 bedrooms.

Sewing Students Stand Firmly Against Proposals to Return to Semester System

General Belief Is That Three-terms Plan Aids Self-Members and Men; Change Would Involve Much Trouble

The continued support of student opinions against the proposal to return to the semester system is evident at a faculty meeting regarding the issue. The proposal was to change from a three-terms system to a semester system, and the students were strongly opposed to the change.

The students believe that the three-terms system is better for self-members and men because it provides more time for independent study and research. They also believe that the semester system would involve much trouble and would not be as effective for their needs.

Most Students Cared in Astoria Relief Work

English Next: Men's Courses Heavier Than Women's

A survey made in the registrar's office of the university revealed that men's coursework is heavier than women's in many departments. The survey was conducted over a period of two weeks and included data from 200 students.

Student View Wastewater

Wastewater at the university is产生的oncampusonly. The issue of wastewater management is of great concern to both students and faculty. The university is examining solutions to reduce the amount of wastewater produced and to recycle it.

Doctor's Orders

The doctor's orders were to limit the patient's activity for the next two weeks. The patient was advised to rest and avoid strenuous activities. The doctor also recommended a follow-up appointment for further evaluation.

Persons of Various Vocations Enrolled in Extension Division

Grandparents, schoolteachers, and other individuals interested in education have enrolled in the Extension Division of Oregon State University. The courses offered in the division include a variety of subjects, such as English, mathematics, and science.

The Extension Division offers classes in various locations throughout the state, including Portland, Salem, and Eugene. The courses are designed to meet the needs of adults who cannot attend regular college classes. The courses are taught by experienced instructors and are offered at a reasonable cost.

HUT IS BEING REMODELED

Electric Lighting System Undergoing Remodeling

A new electric lighting system is being installed in the campus spent.

The old system was outdated and did not provide sufficient light for the campus. The new system will provide more efficient and reliable lighting.

Intramural Standings

The intramural sports season has ended, and the standings have been determined. The standouts of the season were the basketball team, which won all of its games, and the volleyball team, which came in second place.

Cross-Country Put Off

Success of Last Year's Season Results in Increase in Number of Activities

The cross-country season has been put off due to the success of last year's season. The team's performance has increased, and as a result, there has been an increase in the number of activities.

Do-Nut Standings Show Kappa Sigma Leading Thus Far

Two of Ten Intramural Sports Have Been Completed and Three Near Finishes

The intramural sports season has been ongoing, and the results of two sports have been announced so far. The sports are basketball and volleyball, and the standings show Kappa Sigma leading in both.

In a matter of seconds, a small object was thrown at the university, causing a temporary disruption in the activities. The object was quickly removed, and the activities resumed as usual.

Kappa Sigma ranks first in present, followed by the following organizations: Alpha Kappa Pi, Delta Tau Delta, and Sigma Chi. Kappa Sigma has shown great enthusiasm and dedication throughout the season.

Although the object was small and lightweight, it caused a temporary distraction. The incident was handled swiftly, and the activities resumed without further incident.

The university community is grateful for the dedication and hard work of all the participants in the intramural sports season. The positive attitude and sportsmanship exhibited by all have contributed to the success of the season.
