College Cannot Create Brains

Thomas A. Edison's statements that a college education does not always fit a man for success in life and that many regard education as a means of lifting them beyond the necessity for work, has caused a great deal of comment among educators and public men.

Perhaps it would be better to find out how many college men fail, and why, than to cite the 73 per cent of the people of "Who's Who in America," who are college trained.

What of Edison's contention that a large proportion of college men's failures is because they are too proud to work? What of the charge that many are educated above their intelligence, and have acquired an academic equipment for professions for which they had no natural equipment?

There are probably many students in an institution of higher learning who would fit better in trades where no higher education is thought to be required.

But, as far as success is concerned, Mr. Ford's paper is right when it says, "That a college education is a great advantage is very true, but it is also true that the man himself must have the mental equipment essential to success, the absence of which no college education can replace.

The warning of the fire marshal is well-timed. Better to think of such things before they happen than after.

Why not provide milk and crackers for the men between classes?

SCORE OF 99 IS MADE IN RIFLE COMPETITION

Myrtle Pelker Ties Record for Girls on Coast

Scoring 99 out of a possible 100, Myrtle Pelker, a member of Alpha Xi Delta, this week tied the Pacific coast record for girls.

Intramural rifle competition will start at the barracks Monday, February 12, according to an announcement made yesterday by Lieutenant M. E. Knowles.

Assurance has been given that the rifle competition for girls will be made a minor sport at the University, according to Lieutenant Knowles.

All matches will be fired on National Rifle association targets, and will consist of 12 shots prone, 2 sighting and ten for record.

WOMEN'S BASKETBALL SCORES ARE LOPSIDED

Sophomore Firsts Defeat Frosh Seconds But Lose to Senior Team; Junior-Senior Clash Today

The girls' sophomore first team won from the freshman second last night by a score of 39 to 9.

The senior firsts were victorious over the soph seconds, winning by the large score of 36 to 4.

The lineup for last night's soph first and frosh second was as follows: Soph First Frosh Second

Utah Seismograph Records Quake—The earth tremor felt in many parts of the world a few days ago was recorded by the seismograph at the University of Utah just as Dr. Kingsbury had changed the record.

LAB RATS HAVE NEW HOME A new habitation for the chickens, rats, and other victims of the research classes in medicine will be ready for its occupants within a few days.

JOHN BOETTER SICK

John Boetter, janitor of the men's gymnasium, is confined to his home with a severe case of influenza.

CAST WORKS HARD ON MASK AND BUSKIN PLAY

"Come Out of the Kitchen" to Be Presented Thursday

Two young women and two young men, attractive, cultured sons and daughters of the sunny, aristocratic old South, through an uncommon chain of circumstances are thrown into the role of servants in their own mansion which has been rented by an attractive northern and his party.

This very briefly epitomizes the plot around which A. E. Thomas wove "Come Out of the Kitchen," that funny three-act comedy which a select cast of campus dramatic luminaries will present at the Heilig next Thursday night.

From the beginning of the first act until the final lowering of the curtain the play is clever. With rollicking lines, humorous situations, and tense climaxes, with several love threads in the warp and woof, the play, in campus technology, is a "knockout."

Lorna Coolidge, who took the title role in "Swanwhite," and leading parts in half a dozen other campus productions, takes the lead in this play. She is Olivia Jane Dangerfield, who finds herself changed overnight from a luxury-loving daughter of the idle rich into a cook, in her own kitchen.

The play is under the direction of Claire Keeney, well-known campus actor, who does particularly good work in the production of plays of this type. Keeney is enthusiastic over the progress of the cast in rehearsing for "Come Out of the Kitchen."

An advance seat sale will get under way Monday morning.

MEDICAL SCHOOL DOES

(Continued from page one)

tenance of an orthopedic clinic in Portland under the direction of the Oregon medical school.

To them, for their efforts and interest the University owes and tenders a very sincere vote of thanks. There are 1000 children in Oregon who are to some extent crippled, deformed or disabled, and who may be cured or improved through the use of braces, plaster casts, corrective exercises, massage, heat and light treatments, and therapeutic work, all of which will be provided at the clinic.

Too much praise cannot be given the group that made up the twelve colorful, animated acts of clever take-offs on prominent popular authors. The whole show, under the direction of Miss Grace Henry of New York, was put on in professional style making the performance a great social and financial success.

The National Board of Examiners has conferred a great honor on the University by rating the Oregon medical school as fourth among such institutions in the United States, Harvard and Johns Hopkins being placed ahead of Oregon.

National board examinations, the passing of which privileges the individual to practice medicine in practically all states, will be given to seven students of the medical school starting February 12. Three of this number are ex-Oregon students, Irwin Barendrick, '20, Joseph Wilson, '18, and Albert Morrison, '17.

DIMM, '16, VISITS CAMPUS

Alumnus First to Use University Press Now Portland Publisher

Walter Dimm, '16, now a member of the Dimm and Sons publishing company of Portland, was on the campus yesterday and dropped into the journalism "shack" to see how the Emerald was being published in the modern day.

The Dimm and Sons Publishing company, started in Portland four years ago, now ranks with the largest in that city. During the war, Mr. Dimm was in the service and was detailed to government printing works.
