DARLING LITTLE CO-EDS THRILL GRIDIRON MEN

(Continued from page 1)

That famous chicken call of Moe Sax, "cut, cut, cut," brought shrieks of delight. The stand rocked on its foundation, the rafters shook with glee and the bleachers echoed as the fanettes cheered every crash of mole-skis.

It was a great success and the campus beauty was given an invitation to scamper out to the stand every day and watch the growling gladiators grind one another into the gritty saw-dust.

Last night's scrimmage will probably wind up the most vicious part of this week's conditioning, giving the men an opportunity to shape up for the Pacific game next Saturday.

Capping the Climax

To The Editor: Last night the Oregon Knights came home from their meeting with a huge supply of new style, student body authorized rooster's caps; bringing also the startling information that our old ones were completely out of date.

If the student body authorized them, who is the student body? Eddie Tapfer and Hal Chapman said that the executive council knew nothing about them. The student council was in session at the time and did not consider them. Claude Robinson, when interviewed, disclaimed any knowledge of their authorization.

First Pen made for Students only

Designed by Geo. S. Parker for their special needs

and made by Duofold craftsmen—and yet offered at only \$3

JUST as the Parker Duofold and Lady Duofold are recognized as the aristocrats of pens priced at \$5 and higher, so this new Parker D. Q. is the blue-blood of pens in the medium-priced class. Indeed the same crafts-guild that produces Parker Duofold makes this Parker D. Q. that we announce at only \$3.

Parker designed this pen based on a study of the students' requirements and desires. Hence it's a pen that is practically made to the students' order. We know of no other with this special ring to link to note-book, and no other this size under \$5 with a special metal girdle to reinforce the cap. Yet no extra charge is made for these features, or for the super-smooth point of 14k gold tipped with Native Iridium.

Insist on seeing this new creation. Any good pen counter can supply you, but look carefully for the stamp of the genuine, "Geo. S. Parker—Lucky Curve."
