

HAYWARD WANTS MORE TRACK MEN

Aspirants Doing Good Work But Others Needed

LAST YEAR FROSH DESIRED

Interclass Meet is Scheduled for November 17

Bill Hayward is far from satisfied with the showing of fall track aspirants. Not that the men that are out there circling the old cinder path every night are not doing their stuff in a business-like manner, but there are just a few of the boys out and they get kind of lonesome. Thus far about 15 or 20 are all that are taking the circuit trots as a steady diet.

"The men whom I would like to see out on that field are the men from last year's freshman team, especially the distance men," said Bill yesterday when interviewed on the subject, "and the turnout has been very unsatisfactory." He further let it be understood by the reporter that, all things being equal, the man who was turning out for track this fall would have a much better chance next spring when the squad is formed than the fellow who waits until the spring term to turn out.

A month from tomorrow there will be a big interclass meet that will include all of the regular events of a regulation conference track meet and, according to Bill Hayward, there should be about 180 more men out on the field. This meet is intended to be an indication of the available material from which Bill can pick his squad in the spring, but if the present modesty about donning a track suit prevails among the Knights of the Cinder Circle, the meet will indicate nothing and won't be half as interesting as the Frosh mix.

Another event that should tempt the distance men to get out and start punching the cinders is the do-nut cross-country meet which is to be held about a week before the Homecoming game with the Aggies. The men who show up well in the do-nut marathon will compose the crew from which the varsity cross country team will be picked. The chosen ones will represent the varsity in the Oregon-O. A. C. cross country meet which is to be held immediately preceding the big game with the Aggies.

Hayward has his hands pretty full at the present time keeping the football players in shape but he is never too busy to give a word of advice or encouragement to a track aspirant.

TEMPORARY ADDITION TO LIBRARY AUTHORIZED

Stacks and New Wing will Help Congested Condition During Rush Hours

The erection of two more floors of book stacks in the University library and the preparation of plans for an addition to the present building during the coming year was authorized by the board of regents of the University at their meeting held on the campus on Saturday afternoon. The details of these two additions were left to the building committee of the board. This group will have charge of adding the stacks, selecting the position and arrangement of the new wing of the building and will have the responsibility of letting the contracts, after the plans have been approved by the board. The members of this committee are Charles H. Fisher of Eugene, chairman, Mrs. George T. Gerlinger of Portland and Fred Fisk of Eugene.

In making this authorization, the board acted under the pressure of the necessity of providing for the increasing congestion which exists in the library at present and makes study there so great an effort. With the addition of two floors of stacks for books those periodicals which now occupy space on the main floor of the library may be removed and more study room allowed there. Likewise, on the second floor the room used now for graduate study hall may be turned

over to the reserve department and some of the congestion there be temporarily relieved as there will be room in the new stacks for graduate students to study.

Although these stacks may be erected immediately and the addition to the building may be ready for use a year hence, both of these will be but temporary measures in providing for the large number of students who are using the library with increasing regularity this year and the additions will in no way remove the necessity of a new library building as soon as sufficient funds for one are obtainable. Since immediate relief for the present condition is necessary, these changes are authorized in order to improve the facilities for study as much as possible until proper accommodation for the student body and faculty can be made.

DONALD SMYTHE '19 TO TEACH IN CHINESE CITY

Graduate Gets Appointment as Head of Geology Department of Peiyang University

Donald DeCou Smythe, graduate of Oregon in '19, sailed from Seattle, October 5, to take up his duties as head of the geology department of Peiyang university at Tientsin, China. His appointment, with orders to leave at once for his post, came but a short time ago, according to a letter received by his mother-in-law, Mrs. J. W. Zimmerman, of this city. Peiyang university has the largest school of engineering in China.

After his graduation, Donald DeCou Smythe received an appointment as instructor in the department of geology at Cornell university and took his masters degree while serving in that capacity. While there he was elected to Sigma Xi, national honorary scientific society. From there he went to Morococha, Peru, as geologist for the Sierra De Pasco Copper Corporation, but was forced to return after one year because of the effect of the high altitude on his health. For the past year he has been engineering geologist of the Silver Dyke Mining company of Nelheart, Montana.

His wife, who was Miss Erma Zimmerman, of Eugene, was graduated from the University of Oregon in 1919. She is now visiting relatives in Colorado, and after a short visit here will join her husband.

WOMEN BEGIN PRACTICE FOR DO-NUT BASKETBALL

Tryout for Laraway Cup Will Take Place Next Month

Many of the women have earnestly begun to practice basketball for the Do-nut league. Teams from the various houses and halls on the campus are working in order to make the team, which will tryout next month for the Laraway cup. Do-nut basketball practice began October 9 and will continue until October 24. Games will be played between the teams until November.

Florence Baker, head of basketball activities, and Emma Waterman, coach for the teams, are very enthusiastic over the large turnouts from the houses and halls. Almost every house on the campus has chosen a representative for its league and had been out for practice three times a week. There are over twenty teams this year, this being the largest turnout for basketball for several years. Thacher cottage has an individual team of girls this year, having been in previous years, a part of the Hendricks hall team. Both Hendricks hall and Susan Campbell hall have a first and second team, and other houses have one team.

The following are the organizations and the representatives who have turned out to take part in the do-nut basketball practice:

Alpha Chi Omega, representative, Wava Brown; Alpha Delta Pi, representative, Lillian Vulgamore; Alpha Phi, representative, Maysan Vurpillat; Alpha Sigma, representative, Laverna Spitzberger; Alpha Xi Delta, representative, Virginia Broughton; Chi Omega, representative, Melba Byrom; Delta Delta Delta, representative, Alberta McMonies; Delta Gamma, rep-

resentative, Mary Cleria; Delta Zeta, representative, Maude Graham; Gamma Phi Beta, representative, Wenona Dyer; Kappa Alpha Theta, representative, Marion Playtor; Kappa Kappa Gamma, representative, Neva Service; Pi Beta Phi, representative, Janet Wood; Tau Nu, representative, Pauline Boston; Hendricks hall, representative, Grace Sullivan; Susan Campbell, representative, Golda Boone; Thacher cottage representative, Beatrice Fish.

CAMPUS PROFESSORS TEACH IN PORTLAND

Extension Center Gets 14 Eugene Instructors in Addition to 61 Resident Faculty

Fourteen instructors of the University have classes in the Portland center of the extension division this term. In addition to the 14 who go from Eugene to Portland each week, 61 instructors of the division reside in Portland.

The professors having Wednesday classes in Portland are F. L. Stetson of the school of education, teaching social aspects, and educational problems; Peter Crockett, economics, with classes in history and economics of transportation, and American railroad problems.

Those who are in Portland Thursday are Donald G. Barnes, history, with classes in European statesmen and Pacific problems; Andrew Fish, also of the history department, conducting classes in great historians of the last century, and European statesmen; and Franklin E. Folts, business administration, teaching standard banking and A. I. B. credit.

Friday professors are R. C. Clark, history, with classes in American life and institutions, and Oregon history seminar; Philip W. Janney, business administration, income tax procedure and C. P. A. problems; Alfred L. Lomax, business administration, who specializes

VENUS PENCILS

The largest selling Quality pencil in the world

FOR the student or prof., the superb VENUS out-rivals all for perfect pencil work. 17 black degrees—3 copying.

THE first Eversharp sentence
You stroke will convince you that here is a pencil which makes writing easy. You will experience, too, a genuine pleasure in the artistic appearance of Eversharp. For, like a well made watch, it is built with jeweler skill. And—it is designed to last a lifetime. You can buy Eversharp right here at our store in the very size and style you want. We sell the genuine. The name is on the pencil.

EVERSHARP
WAHL PRODUCTS

The new size Eversharp with a small pen to match has just arrived.
This small pen holds as much ink as most pens twice the size.

Luckey's Jewelry Store
One Price to All

Through SCHOOL—Through COLLEGE—In BUSINESS

Eversharp and Wahl Pen are America's finest-working and best-liked pencil and pen. When you buy these two you acquire writing companions for life.

Eversharp was the first successful mechanical pencil—and its features can't be copied. Eversharp lead never wobbles—the exclusive rifled tip holds it absolutely firm. The automatic index always tells how much lead is in the barrel. And Eversharp craftsmanship gives a balance to the pencil that suits your hand perfectly.

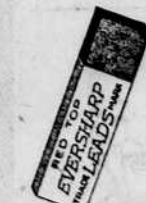

Wahl Pen in all-metal is the outstanding fountain pen achievement. The all-metal barrel cannot crack or split. You fill it less often because it holds more ink. And it will last a lifetime.

Eversharp and Wahl Pen are essential in school, in college and in business. Buy both, in gold or silver. Eversharp, \$1 to \$10; Wahl Pen, \$4 to \$10. Solid gold at higher prices.

The New Wahl Pen, engine-turned in jet-black rubber, is the best looking and most practical rubber fountain pen you have ever seen. Price \$2.50 up.

Made in U. S. A. by THE WAHL CO., Chicago

EVERSHARP

WAHL PEN

IMPORTANT. A pencil is no better than its lead. Don't use a poor quality lead in your Eversharp. Use Eversharp leads, which are recognized as the finest that can be made—a fact proved by over 200,000,000 which are sold every year. They are made to fit the pencil. Get them. Seven grades, from very soft to very hard. Ask for the new small-diameter colored leads, too! In the red top box.

Lemon O Shoe Shine Parlor

Peter Sarcos, Prop.

After working the Rex Shoe Shine for seven years I moved here. Hats cleaned and blocked. Shoes dyed any color, red, green, blue, white, and suede. Shoes cleaned while you wait. Service that will bring you back. Cut price for different colored shoes. Come in and save money.

Meet the Honolulu Belle

One of the most popular at the Peter Pan is the Honolulu Belle—a tantalizing creation you should know.

Honolulu Belle is a delicacy of orange sherbet and vanilla ice cream, smothered under a marshmallow and orange syrup, garnished with pineapple and generously sprinkled with nuts.
