

REGISTRATION FIGURES SHOW HEAVY INCREASE

**Men Outnumber Girls by 276
With Total of 1344**

Registration this year has exceeded that of last fall term by 223 students, latest statistics from the Registrar's office show. Last year there were 2,189 students, and this year 2,412. Of this number 1344 are men and 1068 women. These numbers do not include those registered in the Portland law and medical schools, however.

There has been a noted increase of majors in some departments, and a drop in others. Registration in the school of business administration decreased only four, while there are 10 less in music, and 20 less in mathematics. A decided increase in the language department is shown in the enrollment of 15 in Greek, where there were only two last year, and several more in Latin and German. The number of majors in a department does in no wise include the number of students taking the courses. A student may take courses in any department, no matter what his major, upon payment of the departmental fee.

The schools of journalism, physical education, English and history show an enrollment almost entirely of women students, while in the school of business administration, law, medicine, geology and zoology, the men far outnumber the women. There are 123 men in the department of economics, and 11 women. Geology boasts three women students, law three, and architecture three. One man is majoring in military science.

It is difficult to determine the exact number registered in law, for these are classified according to first year, second year, and third year students, and while really a senior in the department of law on the campus, a student would be only a freshman in the Portland branch. The same applies to medicine, which course also covers six years before a degree can be obtained. As usual, the freshman class is by far the largest, numbering 890, with 263 men and 328 women. There are 459 in the junior class and 317 in the senior class. Graduate students, specialists, veterans' bureau and those registered from the Eugene Bible university are not included in this number. This group numbers 170 students in all.

PHI MU ALPHA IS OPEN TO MEMBERS OF BAND

Honorary Fraternity Instrumental in Bringing Many World-Famous Musicians to Campus

Frank Dorman, president of Phi Mu Alpha, men's national music fraternity, Wednesday made the announcement that beginning this year members of the band will be considered for membership in the fraternity. Heretofore, band members have not been considered, but owing to the creditable work they have been doing they will be chosen as well as glee club and orchestra members.

The object of the fraternity is to promote musical interest and activity, and the members are especially interested in American music and its development. It has been largely through Phi Mu Alpha that renowned musicians have been brought to the campus.

Sometime during the middle of the winter term, the members will conduct their annual music assembly, and there is a possibility of other concerts during the year.

Eighteen men including Dr. Landsbury, Rex Underwood, John Stark Evans, and John Siefert of the school of music comprise the local chapter. Student members of the fraternity are: Frank Dorman, president; Myrl Deming, Charlie Dawson, Darrel Larson, Roy Bryson, Russel Brown, James Purcell, Elmer Clarke, Gerald Lawler, Vince Engeldinger, Ronald Reid, Wilson Gaily, Donald Johnson and Frank Jue.

"BIG SISTER" MOVEMENT CONDUCTED BY LEAGUE

Upperclass Women and Protoges Will Meet Each Month; Names to Be Posted in Library

Tuesday, November 6, is the date of the first tea to be given under the auspices of Women's league in the interest of the "big sister" movement this year. From 4 until 6 o'clock the sun porch of the Woman's building will be the scene of a gathering of all upperclass women with their freshmen "sisters" in tow. "The list of freshmen and their sponsors will be posted in the library today," said Luella Hausler, who has charge of this part of Women's league activity and all freshmen and upperclass women

are asked to consult it as early as possible and make their "dates" accordingly for the affair on Tuesday. Lists will also be given to each house.

Tea talking and dancing will be on the program for the afternoon since this method of entertainment is considered more satisfactory than the regular sponsor-sponsee dance which has been held in previous years. The tea will be a monthly custom and will be one of the regular Women's league teas each month.

The list has been compiled with especial care this year and girls were paired off with more consideration than was possible under the former alphabetical system. The committee which has been working with Luella Hausler on this is composed of Genevieve Phelps, Margaret Fitzsimmons and Mary Hathaway. One girl in each house will have charge of the list for her group and these will be distributed today.

MULTIGRAPH OFFICE HANDLES MUCH WORK

Graphotype and Addressograph Used to Simplify Heavy Task of Mailing Division

The vast amount of work put out by the multigraph department is scarcely realized by the average student; nor was its importance upon the campus fully recognized until two years ago, according to Miss Susie Vojdajnsky, manager of the department. Since then the work has been steadily increasing.

With a mimeograph and two multigraph machines, Miss Vojdajnsky puts out work for all the departments and offices on the campus. "It keeps one full time assistant and occasionally part time helpers, beside myself, to supply the offices and departments," stated the manager.

The work naturally falls into three divisions; multigraph, mimeograph and mailing. Letterheads, envelopes and all the job work, except that handled by the University press, is run on the multigraph machines. The mimeograph machine is used for final examinations, faculty and news bulletins, questionnaires, outlines and form letters.

There are approximately 1200 names on the mailing list, including the alumni, the Oregon daily and weekly newspapers and the libraries in the state. A permanent file of names is made on a graphotype machine and each time a list is needed, the addressograph is used to run off the names. This method makes the list ready for immediate use, easily changed and a valuable time saver.

When the department was in Burleson hall, it was hardly known. Now the multigraph office, alone, occupies room 5 in the basement of the Administration building.

PHI PSI SQUAD DEFEATS A. T. O. TEAM 35 TO 13

**Betas Win From Phi Sigma Pi
With Large Score**

Fighting every moment of play the basketball game between the Phi Kappa Psi's and the A. T. O.'s ended with the Phi Psi's on the large end of the 35 to 13 score. It was easily the most exciting and hard fought game of the past week. Both had excellent team work and both went at top speed the entire game. The score might not indicate the closeness of the game. For the A. T. O.'s started on at the beginning of the first half with a good lead but when the Phi Psi combination got under way it was overcome and the winners gained steadily up to the last moment. The stellar playing of Jimmie Harding for the winners was a large factor in the winners score. He made 17 points alone. Fuzzy Carson for the A. T. O.'s was off last night and only scored 7 points. The clever passing of the Phi Psi's worked the ball thru the A. T. O.'s guards for points time after time. Their game was strictly passing. The losers could rarely get the ball around the basket for a decent shot.

In the first game of yesterday's schedule the Beta Theta Pi team took

the Phi Sigma Pi's into camp with the lop sided score of 43 to 12. Although the game was one sided the teams were playing fast ball every moment of play. The Beta has a real combination of players and with the tip off almost every time they scored almost at will during the last half when the speed and team work of the losers seemed to weaken. Starting out at first with only a small lead it looked as if the Phi Sigma Pi's were going to give their opponents a hard fight. Terril for the winners was shooting wonderfully and looped a total of 14 points while Gunther came in with 11 and Westegren with 10. Hoar and Ruch were the high oint men on the losers team. Each man scored 4 points.

SHORT NAMED HEAD OF UNIVERSITY AD CLUB

Alpha Delta Sigma, Advertising Fraternity, May Extend Charter to Campus Group

At a reorganization luncheon yesterday of the Ad club Frank Short was elected president, and plans were made for the year. Fifteen men were present and keen interest was shown in the suggestions of Prof. W. F. G. Thacher, head of the advertising department, and faculty adviser of the club. Rex Lambert is the vice-president and Jack Burleson the secretary-treasurer.

The Ad club was organized four years ago by the men taking advertising in the University, and invitation to membership was extended to any other men students actively engaged in

preparing to enter the field of professional advertising. A charter was granted the club by the Associated Advertising clubs of the world. During the year past the organization was hampered by a lack of men interested in the work and the club was merely kept alive. Membership in the club will hereafter be elective.

Negotiations are under way, for possible installation here of a chapter of Alpha Delta Sigma, honorary national advertising fraternity, a chapter of

which has recently been installed at the University of Washington.

The men present at yesterday's luncheon were: Lawrence Cook, Lyle Janz, Paul Sletton, Warren Small, Frank Short, Art Rudd, James Leake, Leo Munly, Leonard Lerwill, Claude Reavis, Rex Lambert, H. C. Clifton, Al Trachman, Jack Burleson, and H. A. Kirk. Faculty members are Prof. W. F. G. Thacher and Prof. Robert C. Hall.

Style

FROM raw silk to cravat, this tie is a "Cheney" throughout, in quality, pattern and style. This means that the silk is Cheney made; that the pattern is wrought by Cheney's master designers; that the colors are rich and popular—that the style is the last word in up-to-date men's fashions.

The name CHENEY on the neckband guarantees quality of material and workmanship and "correctness" in every detail.

Now Playing Today and Saturday

The CASTLE

A Drama of Hearts and Swords

THE romance of an intrepid youth and an impetuous maid who are drawn by chance into the dramatic events leading to the overthrow of a tyrant in an epochal revolution.

A story of love and life and death, brilliantly depicted in one of the season's most magnificent productions.

All the resources of an ambitious producer lavished with enthusiasm into the creation of a picture destined to be remembered everlastingly.
