## FROSH ASSEMBLE BONFIRE MATERIAL

Clifford Zehrung Directs Work of Class; Townspeople Are Generous in Donating Fuel

## WORKERS TO HAVE HOLIDAY

Women of '27 Will Serve Lunch to All Men on Field Friday; Meals Will be Sole Delay

The frosh bonfire, which will be the first big event of Homecoming, is progressing rapidly. Much material for the big blaze is already on the grounds and work will be started by the whole class on Thursday afternoon.

Friday has been designated a holiday for the entire class of '27, in order to facilitate the work for the fire. All freshmen, men and women will be excused from Friday's classes. Those who are not actually engaged upon the work at the time will be expected to attend the assembly. This will include probably all the freshman girls and possibly part of the men.

### Work Starts Thursday

Thursday at 1 o'clock is the hour when the work begins, but men are not expected to miss class on Thursday afternoon, and will not be asked to report until after their last class Thursday. The building of the pyre will continue through all of Thursday night and all day Friday.

At 1 a. m. Friday, the girls of '27 will serve coffee and hot-dog sandwiches to the workers on the field. Frances Morgan is in charge of the feeding program. Except for meals there will be no intermissions in the construction work.

### New Plan for Fire

The fire this year is to be spectacular and swift. Larger than ever, it is to be fired swiftly and burn brilliantly for a short time, that there may be no delay in the start of the noise parade. The problem of building this sort of fire was solved by the physics department of the University. The structure is to be composed almost entirely of boxes, and 1,000 gallons of waste oil will be used upon it.

### Frosh Have Tasks

Clifford Zehrung, chairman of the frosh bonfire committee is confident that all freshmen men will do their part in making this year's fire a success. A particular job is to be assigned every freshman before he reports for work on Thursday afternoon. The vigilance committee will take the attendance at times during the building of the fire.

"The chairman of the bonfire committee is a live wire and the boys are working hard and harmoniously," says Jack High, assistant Homecoming chairman. "As usual it will be a very laborious and trying job, but it will be valuable experience for the freshmen."

Freshmen who are taking charge of the various branches of bonfire work are: materials, Ted Waugenblast; transportation, Irving Brown; construction, Harold Harden; touch-off, Ralph Staley; vigilance, Earl Chiles; guard, Frank Reinhart.

### FORMER EMERALD STAFF MEMBERS ON BAKER PAPERS

George Stewart and Eddie Smith, both staff members of last year's Emerald, are employed on Baker newspapers. Stewart is on the Herald, an afternoon paper, and Smith is an employee of the Morning Democrat. The word received indicates that Stewart may return to the campus later in the year.

## "Dover Road" Has Surprise Ending; Pleases Audience

(By Leon K. Byrne.)

Despite certain insufficiencies, the three-act comedy, "Dover Road," presented last night at the Heilig, by Mask and Buskin, honorary dramatic fraternity, was well produced and was generally approved by the audience. The play deals with one Latimer, wealthy Englishman, and his house on the road to Dover, where he entices young romantic couples who seek to flee from the banalities of life, showing them that although they may succeed in eluding the harsh realities of English life, they cannot get away from themselves.

The play has an unconventional ending—the errant lovers are not cast in a final clench, and as the curtain is rung down the various threads of the plot are not nicely collected and tied—a voice from without announces a new

## Player Who Starred Last Night in Comedy

Darrell Larson

## FRIENDLY TAKES GAME FROM PHI PSI QUINTET

Both Teams Now Tied for First Place in League; Betas Win

The 18 to 15 defeat of the Phi Kappa Psi quintet by the Friendly Hall five yesterday afternoon reversed all previous "doping" of the two teams, and brought them into a tie for first place in league A, each having two wins and one defeat. The game was close and hotly contested throughout, with neither team holding a commanding lead at any time during the contest. Both teams checked closely and worked the ball down well with clever passing and fast dribbling. The shooting of both squads was also good, with each making an average number of shots in the pinch.

The Phi Psis led at the end of the first half by a one point margin, 6 to 5. They also piled up a fair lead at the beginning of the second period, but were passed by a brilliant spurt of the Friendly Hall basketballers just before the finish of the game. The issue was in doubt until the final fifteen seconds of play, when Reed dropped the ball in the basket which cinched the game for Friendly. Benson and Reed starred for the winners and Harding and Peterson for the losers.

There was another radical upset in the do-nut basketball dope when the Beta Theta Pi team defeated the strong Sigma Chi quintet by the score of 18 to 13 in the game last night. The Sigma Chi's showed up well in the first round of the do-nut tournament and were doped to give the other teams in the league a hard run for the cup.

The game was fast, with both teams playing good ball. Westgren looked good for the winners. Stoddard for the losers played his usual brand of fast basketball and scored six points, while Reinhart followed second with three. Westgren scored six points. Gunter and Terrill both looped four.

## DELTA ZETA WINS LAST GAME FROM KAPPA KAPPA GAMMA

In one of the cleanest, fastest games played so far this season, Delta Zeta beat Kappa Kappa Gamma last night with a score of 11 to 5. The teams were fairly well matched, the Delta Zetas surpassing their rivals in teamwork. Ellean Fargher, forward; Pat Gregory and Easter Craddock, guards, were the stellar players for the winners. Dorothy McKee starred for the Kappas. Hilda Chase referred the game.

case for the investigation of Mr. Latimer, and the fair ones in the audience gasp, "Oh, why didn't he marry her?" Of Darrell Larsen, who took the part of Latimer, let it be said that he was not Darrell Larsen acting the part of Latimer, he was Latimer himself. This consistency of interpretation could hardly be applied to any of the other actors. However, were it not for the fact that the audience was so intent on Larsen's interpretation, it might not have been so willing to strain its ears at intervals to catch his not always so perfect enunciation. We would place Katherine Pinneo next on the list of approbation, for she, more than any of the others, imparted to her work the lightness and

## WARNER EXHIBIT GIVEN NEW ROOMS

Women's League Gives Space as Mark of Appreciation to Donor of Art Collection

## DEDICATION COMES FRIDAY

Reception Planned to be Held in New Museum's Quarters; Homecoming Guests Invited

The Women's league rooms on the third floor of the Woman's building have been turned over to the use of the Murray Warner Oriental art collection by the action of the women of the University at their last league meeting.

In giving up their quarters in the building, members of the woman's league feel that they are expressing their gratitude to Mrs. Warner for her priceless gifts to the University, and it is universally felt that these rooms could serve no better purpose than the housing of so many of the new treasures which have come to the campus recently.

### Opening Friday

After the formal dedication of the newly arranged collection on Friday morning at 11 o'clock the University community will have the privilege of viewing the gifts in the new quarters which have been enlarged by the additional space in the two club rooms and by a room over the original museum which was discovered by Mrs. Warner herself recently, and has been adapted to the use of the art gallery.

Although the existence of this space in the building was known it was not generally realized as possible space for the collection until Mrs. Warner investigated this summer and found that with a little reconstruction it could be used to house a number of her treasures in connection with the original room.

### New Rooms Arranged

The ingenious method which has been taken under her direction to convert this space into a harmonious part of the quarters of the museum will be revealed only when the collection is formally opened on Friday. Until then the work of those who are re-arranging the Chinese collection progresses in strictest privacy and no one will be allowed to trespass in the vicinity of the museum until the task is completed.

The effectiveness of the display of Manchu costumes which form an important part of the Chinese exhibit will be increased by the new arrangement of statuettes which have been especially made for the purpose and will stand in realistic form in a separate room set aside in one corner of the display-space.

### Suitable Museum Needed

The statue "The God of Mercy," for which a suitable place is not possible on the museum floor, will be temporarily placed in the lobby of the first floor, and bespeaks the immediate necessity of a proper museum on the campus, as does the fact that only a part of the collection at a time can be displayed in the limited space it now occupies.

A reception in the museum rooms will be held at the time of the reopening of the collection to which all Homecoming guests are invited. This affair will be sponsored by the Woman's league, and Gwadows Keeney has been appointed to take charge of it. This tea will be a special feature of Homecoming and all week-end guests are invited to attend, as well as townspeople who come to the opening of the museum. Tea will be served between the hours of 3 and 5.

## HELEN PRICE TO BE HERE

National Officer of Girls' Reserve Corps Will Instruct in Work.

Helen Price, national officer of the Y. W. C. A. in the girls' reserve corps, will be on the campus from December 7 to December 10, to give instructional courses in reserve work to all University women who might be interested.

Miss Price will make a preliminary visit on Monday, November 26, but will not hold any meetings until December 7. She is traveling secretary for the northwest division of the girls' reserve corps. During her stay on the Oregon campus, it is planned to hold seven or eight meetings in order that as many as possible of the University women who are interested or who plan to take up such work may hear Miss Price's lectures.

MASK AND BUSKIN ELECTS Betty Belle Wise, James Leake, Bernard McPhillips, Paul Krause.

## BASKETBALL MEN TO BEGIN TRAINING

Coach Reinhart Has First Workout in Gym, Although Many are Still in Football

## TO USE BOHLER SYSTEM

Prospects for a Winning Team Very Good, With Seven Lettermen Back and Eligible

Coach Reinhart officially opened Oregon's basketball training season last night when he had a crew of aspirants working out in the men's gym. The period of intensive training will not open until after the Thanksgiving holidays, by which time several lettermen in the hoop sport will be able to doff their moleskins, and don the trunks of the indoor sport.

The prospects of shaping a winning combination out of the available material, look the best since 1920 when the Lemor-Yellow was nosed out of the coast championship by California.

### Seven Lettermen Back

In all, the services of seven lettermen are available, when Billy gets his crew assembled. Add to this several of last year's freshman squad and the men who graduate from the ranks of the doughnut league and you have an estimate of the basketball material on the campus.

First of all, there are four of the combination that played such a classy brand of basketball last year until sickness hit the ranks of the squad. Hal Chapman and Earl Shafer did guard duty under the Lemor-Yellow basket and it was a well executed play indeed that broke through the pair for a score. Shafer is already out in a suit and Chappy will be as soon as football season is over.

### Latham Rates High

Hugh Latham worked at the pivot position in 1920, but due to the fact that he made a football trip to the Hawaiian islands in 1921, he was unable to play that season. The big fellow broke back into the game last year, however, and was rated as one of the best centers in the conference. He was a mighty cog in the Oregon scoring combination.

Gowans is the survivor of the Gowans-Zimmerman combination, the latter being ineligible due to his having played in parts of several games during his sophomore year. Gowans was the "find" of last year. His chief fault last year was that he did not have sufficient stamina to bear up under a heavy schedule, but with a year's experience, Russ should be a big worry to any opposing guard.

### To Use Bohler System

Of the remaining three basketball lettermen, Haddon Rockney is the fastest of the trio but both Edlunds and Alstock will be on hand to battle for positions. Chappie King from the frosh squad of two seasons ago is on hand battling for a varsity berth. Mautz, Farley, Hobson and Stoddard, the remnants of last year's frosh aggregation have signified their intentions of joining the squad.

According to his own statement, Reinhart will not attempt to change the style of play, but will continue with Bohler basketball in which the veterans are so well schooled. Plans are now on foot to arrange a barnstorming trip for the basketball squad during the Christmas holidays. In case this trip is arranged, the games will be played after Christmas day.

## WOMEN PRACTICE FOR SWIMMING CONTESTS

Each Girl on Team Must Get in Eight Practices Before Season Opens; Rules are Announced.

Practices for women's do-nut swimming are now going on in preparation for the season which will open with the beginning of the winter term. General rules for the sport were announced last week at a meeting called by Marian Nicolai, head of swimming, at which all the women's organizations were represented.

Each girl to be on a team must get in eight practices before the season starts. There must be at least four members on each team, no member to take part in more than three events.

After the do-nut season is over, class teams will be chosen from those who participated in the do-nut contests. A new springboard has been placed in the pool, and will add to the convenience of the girls during the swimming season. Hours for voluntary swimming are four to six o'clock on Monday, Tuesday, Wednesday, Thursday and Friday of every week.

## Green Pennants Will Be Sold to Homecoming Crowd

The small green pennants with the yellow O on them will be sold as usual this year to the Homecoming crowds, by the Y. W. C. A.

Every University woman who can spare a little time to go down to the Y. W. C. A. bungalow this week and help make the pennants, is urged to do so, and all freshmen women are especially requested to turn out for the work. All the pennants that the women need to bring is a pair of scissors.

The pennants must be finished by Thursday night, as the sale begins Friday.

The pennants will be sold for five cents each, and will be sold at a booth on the campus and at various houses and halls of residence, but not at a booth at the depot and down-town places as has been done in previous years. Phyllis Coplan has charge of the work this year.

## ADDITIONS TO BUSINESS STAFF MADE BY MUNLY

James Leake Made Manager of Foreign Advertising

Additions to the business staff of the Emerald include James Leake, foreign advertising manager; Chester Coon, Edgar Wrightman and Lester Wade, advertising assistants, it is announced by Leo Munly, manager of the Emerald. The position of foreign advertising manager is new on the business staff, and has been created in line with the general policy of the manager to branch out in the field.

"The creation of the new office will give the Emerald a chance to get out-of-town ads," Mr. Munly said. "A number of accounts can be obtained by keeping in touch with advertising agencies."

Besides his new work, Mr. Leake will continue in his present capacity of down-town advertiser. He is a sophomore in the school of journalism, and last year worked on the Emerald as advertising assistant.

Lester Wade has been added to the staff, having served last year in the same capacity. He is a senior in the school of business administration, and is editor of pictures and engraving of the 1924 Oregonian. Coon and Wrightman are both freshmen, majoring in business administration and economics, respectively. They have worked faithfully since the first of the year, according to Mr. Munly.

"There are still openings for men who want to try out for the business staff," Mr. Munly said. "The work gives an opportunity for one to learn a business while going to school, from advertising to management of the circulation of a newspaper." He stated that the general policy will be to enlarge the staff where it is advisable and to spread the work over a larger working force.

The business staff as organized for the seven-column Emerald will be: Leo Munly, manager; Lot Beatie, associate manager; James Leake, foreign advertising manager and advertising manager; Maurice Warnock, advertising manager; Kenneth Stephenson, circulation manager; Alan Woolley, assistant circulation manager; Frank Loggan, Chester Coon, Edgar Wrightman and Lester Wade, advertising assistants.

## WINNAGEN MAILED TO ALL PARTS OF WORLD

Homecoming Alumni Magazine Contains Advance on Game, Cartoons and Stories of Alumni

Copies of Winnagen, the annual Homecoming paper put out for the alumni, have been started on their long journeys to all parts of the world to take a little of the spirit of Homecoming to the old Oregon grads.

One paper is destined to cheer an alum way off in Congo, another, to take a breath of Oregon to Sidon in Asia Minor. Several copies have been sent to China, Japan, Hawaii, Mexico, Paris, London and Oxford. One was addressed to Point Barrow, the most northern post office in North America. About 5,000 copies have been sent out in all.

The Winnagen, "a newsy sheet for noisy people," contains advance stuff on the game with O. A. C., prophecying a victory for Oregon, a welcome extended to the alumni by Haddon Rockney, Homecoming chairman, and cartoons and jokes of the alumni and faculty.

This year's paper was put out by Velma Farnham, head coach, and Taylor Hulston, manager.

## VARSITY WORKING LATE FOR AGGIES

Arc Light and Ghost Ball Figure in Overtime Practices on Hayward Field Nightly

## BACKS WORKING NICELY

O. A. C. Fast Becoming Strong Team as Evidenced by 3-3 Game With W. S. C. Squad

Arc lights and the ghost ball are the favorite playthings of the varsity squad in the final drive for the state classic with the Oregon Aggies, Saturday. In an effort to get his men in the best of shape, Huntington is working them long after dark. The linemen have been reporting early for special sessions of tackling and the overtime work is producing results.

If the gridsters don't know anything else, they will know something about tackling. Spellman put them through their paces last week, and they are tackling fiercely now. At the present time the team is getting in the best shape of the season and with the possible exception of Vonder Ahe, the regulars will be ready for the yearly battle with the aggregation from Corvallis. The big tackle may not be in shape for the fray, but will likely see service against the Huskies December 1.

### Chapman to Kick

With Terjesen back, the backfield is working smoothly once more. Anderson has been working at half and there is a big chance that he will get in at some stage of the battle. It is also probable that Chapman will do the kicking in the Homecoming go. His boots are higher than those of Latham and give the ends more time to get down the field.

Zimmerman, letterman in basketball and baseball, is taking a hack at the pigskin game and looks good. He is fast and a demon at snaring passes. He will make the regulars hurry to hold the assignment for the state championship game.

### Vonder Ahe Absent

Besides Zimmermann, the Oregon mentor has Risley, Mautz, Williamson, Kinney and Reed to select his ends from. Vonder Ahe's absence means that Reed will be at a tackle berth with Campbell at the other. Kinney has been used some at tackle and may get a chance to show from that position. Gooding and Warren are two other likely candidates for reserve berths in case the regulars are taken out.

Spellman will select his guards from Shields, Mills, Bailey and Akers. Shields has come from behind this year and is playing a whale of a game. Spellman's selection will come from Mills and Bailey, although Akers is coming up fast and will have to be considered when the selection is made.

### Aggies Are Strong

Kirtley, French and Poulsen, with Anderson, form Huntington's second line of backs, and all stand a good chance of seeing service.

In going against the Aggies, the varsity is meeting a team that has found itself and may prove a dangerous outfit. The Aggies battled the Cougars to a 3-3 draw. They will enter the game somewhat heavier than the locals. In this case it is likely that Fat Wilson will be seen at center with his 207 pounds. Sinclair is much lighter, but should see service.

Both teams are headed for the cellar and a defeat for one will almost insure it of the lowest niche, although Idaho and W. S. C. are also contenders for the lower rung in the championship ladder.

Scrimmage will constitute part of the next two day's workouts and then the squad will taper off until the whistle sends them on their way against the Aggies in the twenty-sixth battle between the two schools.

## "DOINGS OF THE DOLLAR" WILL BE SHOWN THIS AFTERNOON

Due to a misunderstanding over the use of Villard hall, the Y. W. C. A. was unable to show the movie, "Doings of the Dollar," yesterday afternoon. However, the picture will be presented this afternoon at 4:45 o'clock in Villard hall, as the association has been assured the use of the building.

## PRES. CAMPBELL MAKES EDUCATIONAL ADDRESS

In the interests of Education Week, President P. L. Campbell of the University, addressed the members of the Portland Chamber of Commerce at their weekly luncheon held yesterday. Today he will speak to students of the Corvallis high school on the same subject.
