

## LEAGUE WILL GIVE PRIZES FOR ESSAYS

Industrial Democracy Club Holds Contest

RANGE OF TOPICS MADE

Labor and Naturalization Problems Included

Announcement of a prize essay contest was received at the University recently in the form of a bulletin from the League for Industrial Democracy, with headquarters in New York. Prizes of \$200 and \$100 will be given in the contest which is open to all undergraduate students in American universities. The contest closes June 1, 1924.

There is a wide range of topics, including labor problems, such as "Company Unions in the United States," and "Causes of Fluctuations in Trade Union Membership Since 1914"; nationalization problems, such as "Financial Questions Involved in Nationalization"; and "A Plan for Unification"; and "Collective Bargaining Under Nationalization"; other problems to be considered are: "The Effect of Business Cycles on Radical Movements in the United States"; and "A Remedy for the Housing Shortage, Based on Recent Experience."

The members of the committee to judge the essays are: Professor William F. Ogburn, Columbia university, editor of the American Statistical Review, chairman; Professor Arthur N. Holcombe, Harvard university; Professor Alvin Johnson, New School for Social Research, an editor of the New Republic; Fredrick Hewitt, editor of the Machinists Monthly Journal, and Nicholas Kelley, Lawyer, formerly assistant secretary of the United States treasury.

The contestant is allowed to pick his own topic, subject to recommendation by the committee of judges. No prizes will be awarded if the essays are not of sufficient merit. Competitors are advised by the committee to study their subject thoroughly, to express it in good English, and not to needlessly expand it.

The contest is conducted in memory of the late Dr. Charles P. Steinmetz, who was vice-president of the League for Industrial Democracy.

## OREGON CLUB DEFEATS HENDRICKS HALL TEAM

Second League Game Fast; Thetas are Victorious

By far the fastest, most interesting game played so far this season in the women's basketball series was played last night between Oregon club and Hendricks hall (2), resulting in a 19 to 17 victory for Oregon club. The contest was close at every point and crowds of interested spectators filled the gym with excited rooting.

Both teams showed their best playing on the floor last night, with speedy passing and accurate shots features of the game on both sides. For the winners, the Overmire sisters, as centers, did star playing. The Quinlan twins, forwards for Oregon club, stood out for their excellent teamwork. Mildred Onslow, forward, was the stellar player for the losers.

Up to this game, Hendricks (2), had been the only undefeated team in league B. Susan Campbell (1), Hendricks and Oregon club now stand at the top, each having suffered one defeat. The choice of the two teams which will play for the championship of their league, rests upon the results of the game to be played between Hendricks and Susan Campbell, Friday afternoon. Hendricks (1), in League A, is so far the only undefeated squad in its group.

Kappa Alpha Theta beat Delta

Delta Delta in the other game played last night, with a score of 12 to 6. It was a well-played game, and fairly well-matched. The outcome appeared to be a toss-up all through the game, until the Theta forwards raised the score by several accurate shots.

Edna Murphy, center; Corinne Hill and Margaret Spencer, forwards, were the stars for the winners. Josephine Ulrich, center, and Alberta McMonies, guard, played their positions well on the Tri Delt team.

## NO STEP ARE TAKEN TO REPLACE COACH

(Continued from page one)

going to get the best coach in the United States. Did they? It is safe to say they never saw any of those thousands. These big alumni funds are fairly good. They look all right in the moonshine, but they pay no bills.

**Alumni Control Undesirable**  
But if the alumni should raise, not ten thousand only, but ten thousand a year, and if the ethics of amateur sport permitted us to pay an extravagant salary to the football coach, twice what any dean gets, or maybe twice what the president gets, still it is worth thinking about that any coach at Oregon must be hired and controlled by the University and student body. If a group of Portland alumni raised the money and paid his salary, the coach would not be under the control of the University and student body. It is not worth it. The control of athletics at Oregon must rest in hands responsible to the state, and cannot be turned over to anyone else.

**Penn State Wealthy**  
And lastly, Bezdek does not wish to come back. He himself says it is not worth further consideration. Penn State handles so much more money that they not only pay him more than we could or would, but that they could advance his pay as much as would be necessary to keep him. He has a freer hand there than here. And lastly, he can play Harvard every year, he can play in Philadelphia and in New York city, and he can read his name in the metropolitan papers every week. To use his favorite phrase, "When you're in the big leagues, who wants to go back to the bush leagues?"

## PATRICIA BYRNE, SENIOR, WITHDRAWS FROM QUARTER

Patricia Novlan Byrne, senior in dramatic art, has withdrawn from school for the quarter, due to an attack of typhoid fever from which she is convalescing. Mrs. Byrne, who is known on the campus both for her literary and dramatic work, will probably return to school at the beginning of the winter term.

## A. T. O. WINS VICTORY FROM S. A. E. QUINTET

League "B" Game Results in Score of 24 to 20

The A. T. O.'s copped a fast and roughly played contest from the S. A. E. quintet last evening in the league "B" elimination, 24 to 20. The game was exceptionally close, being tied a number of times both in the first and last periods.

The score was tied at 20 all with two minutes to play when the winners, with a sudden spurt, looped two goals and cinched the game. The passing and shooting on both sides was good and the ball was worked down fast into position to score. Both sides roughed it up considerably, especially in the second period, when the closeness of the play caused it to be very hotly contested. Carson caged a total of 14 points for the winners and played an exceptional floor game. Harrison and Farley each chalked up eight markers for the losers and were aided considerably by the passing and floor work of King.

This win places the A. T. O. five in a position to play the Kappa Delta Phi team today for the championship of league "B." Both teams are undefeated and are capable of putting up a fast brand of ball, which insures the championship battle to be a hotly contested one.

The A. T. O.'s have Carson, their lightning forward as the main cog in their offense, with Schroeder, his team-mate, a consistent player. Carter, the big center, and Gillenwaters and Mays, the guards, fill out a very evenly balanced aggregation and one which will be found hard to beat.

The Kappa Delta Phis have some fast men in Tetz and Anderson, forwards; Martin, center, and Hermunz and Saari, guards. The squad hasn't played many sensational games of late and hasn't been in the limelight, but it is scrappy and may surprise the fans by annexing

a victory from the strong A. T. O. aggregation.

This is the last game in league "B" and with the "Big Tilt" tomorrow between the Betas and Fijis will act as a grand windup for the donought basketball season this year.

## MU-PHI EPSILON GIVES BENEFIT BRIDGE TEA

Two Music Scholarships Maintained Every Year by Members of Honorary Group

About forty dollars was made at the bridge tea given last Friday by the pledges of Mu Phi Epsilon for their two scholarships. This is the third year that the sorority has maintained the two music scholarships, one for an upperclassman, and one for an underclassman.

Bernice Yeo, who is taking piano lessons from Mr. Evans, is holder of the upperclassman scholarship this year, and Mary Burton, who is studying violin with Mr. Underwood, is holder of the other.

The fund amounts to about \$180 to be used for lessons in either piano, violin, or voice. The money has been made through donations, silver teas, various programs, and concerts given out of town.

At the tea last week there were 18 tables of bridge and two of Mah-Jong. A short program was given by several of the pledges. The patronesses, Mrs. P. L. Campbell, and Mrs. W. F. Jewett, poured. The other patronesses of Mu Phi Epsilon, are: Mrs. L. C. Church, Mrs. L. J. Johnson, Mrs. W. G. Hale, and Mrs. Alfred Schreff.

## INTEREST IS SHOWN IN U. H. S. BASKETBALL

Juniors Defeat Sophomores by Big Score in Interclass Series For Activities Cup

The junior class of the University high school won the first interclass

game of the season from the sophomores with a score of 21 to 6 on Tuesday. The seniors and sophomores played yesterday and the seniors and juniors will play today.

The classes take special interest in the games this year as the interclass activities cup, which was given to the school last spring by the class of '23, is to be awarded this year for the first time. The cup goes to the class having the most points in basketball, baseball and debate. It is awarded each year, the numerals of the winning class being engraved upon it.

The class of '23 also gave a scholarship cup which is to be given in a similar way to the class with the highest scholastic standing for the year. The standing is determined every six weeks and in the last two times the senior class has been in the lead with the sophomores running second.

## Demonstration of the Coleman Lamp

In our west window you can see a lighted Coleman Gasoline Lamp, revolving over and over. First it is right side up and then up side down.

The lamp is fastened on a shaft that is driven by an electric motor. It will be running every day this week and Saturday night. The demonstrating device then, according to schedule, goes to Central Oregon. We invite you to see it.

The Coleman Quicklite is a 300-candlepower gasoline lamp. It will make an excellent Christmas gift in any home not having electricity.

We carry a good stock of the Lamps and Lanterns, and all repair parts.
