

## ART CLASSES TO ADD DECORATION

Tiles and Paintings to be Students' Work

COLOR HARMONY SOUGHT

Murals to be Submitted On Competitive Basis

Tiles for the floor of the arts building entrance vestibule are being prepared by classes in the normal arts department. The plans are not yet definitely made, but a design class under the direction of Miss Maude Kerns is working on possible motifs, which will be carried out in cement tiles by a class of Miss Victoria Avakian's.

The present problem is what single design or combination of designs can be used. The color combinations will have to be worked out to harmonize with the ceiling decoration, which will probably be a mural. Professor Alfred H. Schreff, head of the fine arts department, has a class in mural decoration at work on cartoons for the ceiling. The work of the students will be competitive, the one chosen to be the one best suited to the particular problem.

### Work Demands Study

Abstract designs, for spacing, others more naturalistic, with birds and animals, have been drawn by the design class, first tried out in complementary colors, then in relative color combinations for study. The third problem was to do the study in dark and light. The work necessitated some historic study of Byzantine and medieval design. Now metal paints in silver, gold, bronze and copper are being used in combination with the colors. Interesting grotesques are included in the designs.

The tile class is gaining experience in handling the materials by making round and square tea-tiles in various finishes, both dull and glazed as to surface. The tiles are made of cement in place of the regular clay which requires a more extensive equipment for firing. Those made last year to go around the doorway in a mosaic-like pattern have withstood the exposure to light, air and heat of one summer.

### Cement Craft New

The chief difficulty, according to Miss Avakian, is to get a tile made whose colors are not evanescent and change with exposure. Cement work as a craft is new, although the Romans used a sort of "cast stone" which is found among ancient ruins.

After the tiles are tried out with the other decorative details in the vestibule, plans will go forward for the actual making. It may be, however, that the work will wait until the new kiln is installed where the old power plant is being dismantled on the north of the architecture court.

## FIJIS SECURE TITLE OVER BETA QUINTET

(Continued from page one)

baskets by smothering numerous rallies on the part of the losers.

### Westergren Stars

Westergren was the decided shining light for the losers and he twisted, dribbled and worked the ball down time after time only to lose it in the Fiji defense. Callaway played a nice floor game and

caged two baskets, and Gunther also scored 4 points. The Beta defense could have been better, however, the two guards, Sox and Socolofsky were in there fighting every minute. This marks the end of the doughnut basketball season and from now on the athletes will turn their interest to other lines of activity. The Fijis had a very well rounded, evenly balanced aggregation and well deserved to annex the title, although the Betas made them fight to the last ditch to do so.

### S. A. E. Wins Place

Sigma Alpha Epsilon captured the runnerup honors in league "B" by defeating the Kappa Delta Phi quintet, 21 to 12. The winners held a decisive lead and only once in the second half did the losers threaten to tie the score. The teamwork and shooting on both sides was fair, with neither side playing with its entire speed. Anderson and Kiminki starred for the winners and Tetz and Hermance played a fast game for the losers. This is the last game in this league. The A. T. O. quintet won the championship, with the S. A. E., Kappa Delta Phi, Kappa Sigma, Bachelordon, Sigma Nu, Phi Sigma Pi, Chi Psi, Alpha Beta Chi and Sigma Pi Tau teams finishing in the order named.

## LESLIE WINS LAURELS AS FOOTBALL COACH

Former Varsity Tackle Is Eugene Hi Director

"Spike" Leslie is one of the many Oregon football men who have gone out into the state and won laurels as football coaches. "Spike" has just completed his first year as head coach at Eugene high school and during the year he lost but one major game, and that to the heavy Corvallis aggregation that was runner up for state interscholastic title.

After leaving the University, where he played for three years as a tackle, Leslie went to Eastern Oregon where he coached Milton high school athletes. Considering the material with which he had to work, "Spike" made a good showing and turned out strong teams.

Last fall "Spike" took over the reins of the Eugene athletics and finished up his season by handing a 29-0 walloping to the Grants Pass

aggregation. Among teams which fell before Leslie's offensive, was the strong Salem high team which, incidentally, is coached by another Oregon man, Hollis Huntington. Leslie developed a line from the purple sweated youths of the local high school that was practically impregnable and fell only before the onslaughts of the heavy Corvallis backs.

## DELTA GAMMA TO RUN MOVIE BENEFIT FOR DAY

Proceeds of Benefit Performance to Go Toward National Scholarship Fund

During Christmas vacation, Delta Gamma is taking over a motion picture house in Portland for one day. The proceeds from this will be devoted to the fraternity's national scholarship fund.

The date for the benefit performance is December 26. The theatre is the Jefferson Street Theatre at 13th and Jefferson in Portland. The program will include Gloria Swanson in "Prodigal Daughters," a comedy, and a special feature yet to be announced. Tickets will sell for 30

cents each for both afternoon and evening performances.

The patronesses for the affair are Mrs. J. C. Elliott King, Mrs. James B. Kerr, Mrs. Ross Giger, Mrs. Charles Loeding, Mrs. Frank Beach, Dr. Anne Mumby, Mrs. Katherine Yerex and Mrs. G. H. Marsh.

## MODERN EDUCATION NOT UP TO HIGHEST POINT

University of California — The student's time is coming. Professor J. V. Breitweiser of the University of California has created quite a stir by advocating a new and radical program of higher education. He says that students should select, dismiss and promote their professors; degrees should be abolished and diplomas awarded solely upon accomplishment. Until such methods are adopted, he said, modern education cannot fulfill its highest destiny.

## "Homo In The Land Of Paradoxes"

Sermon-theme of the Rev. Frank Fay Eddy at the  
UNITARIAN CHURCH SUNDAY MORNING

Does the pursuit of philosophical truth always lead us  
finally to a paradox?

Does our choice lie between bowing to a religion of supernaturally imparted authority and a natural religion which leaves us bewildered in a universe as meaningless as an idiot's dream?

The soloist at this service will be Robert McKnight.

Services begin at 10:45 o'clock. The church school follows the morning service. There are classes for University men and women.

We stress freedom of opinion for each and tolerance of opinion for all in our "Little Church of the Human Spirit."

# 40,000 Steady Customers Are Back Of This Investment

THE DEMAND FOR MODERN NECESSITIES, progressively supplied, provides steady employment for the permanent properties of Mountain States Power Company 365 days in the year.

THE VOLUME OF USEFUL SERVICE and the number of people and industries served increase steadily. New plants, extensions, additions and improvements must be constructed each year to keep pace with community growth.

THE BUSINESS DOES NOT FLUCTUATE. It is solid and dependable, and therefore, makes possible an investment of great strength and stability.

OUR SEVEN PER CENT GOLD NOTES have become a favorite form of investment among our customers. A large construction program for 1924 provides new opportunity for investment that pays a good return with safety. The investment may be made by Cash Purchase or on the Monthly Payment Plan.

LET US SEND YOU OUR ATTRACTIVE ILLUSTRATED BOOKLET SHOWING THE PROPERTIES OF THE COMPANY.
