

SCIENTISTS HOLD ANNUAL MEETING

Mathematicians to Have Next Assembly Here

CHANGE IN NAME ASKED

Oregon is Represented by Four of Faculty

Of interest to University mathematicians should be the announcement that the annual meeting of the San Francisco section of the American Mathematical society, will be held for the first time at the University of Oregon this year. During the holidays Professor E. E. DeCou, L. L. Smail and W. E. Milne of the department of mathematics at Oregon, accompanied by Professor E. H. McAllister of the department of mechanics and astronomy, attended the meeting of mathematicians held at the University of Washington in Seattle, at which time Professor DeCou extended the invitation on behalf of the University of Oregon, which was unanimously accepted.

"It was an excellent meeting," says Professor DeCou. "Many new ideas were brought up and many old ones discussed and commented on." Among other things, a motion was proposed by Professor DeCou, asking the national officers of the organization, to have the name of this section changed from "San Francisco Section" to "Pacific Coast Section." The old name was given the section at a time when the Western coast was represented in the conference only by University of California and Stanford. Later the University of Washington, University of British Columbia and University of Oregon were added, and it was thought that the new name would be more fitting.

A committee consisting of Professor DeCou, Professor Daniel Buchanan, head of the mathematics department of the University of British Columbia, and Dr. Smail of Oregon, will take up the matter at once with the national officers and hope to have a decision made by next spring.

The evening following the meeting was spent at the home of Professor Roy M. Winger, in Seattle. Professor Winger was for several years associate professor of mathematics at the University of Oregon and was succeeded by Prof. Milne. Dr. and Mrs. L. L. Smail, who formerly lived in Seattle, extended their visit there in order to join the party of "Mountaineers," who were making their annual Christmas climb of Mt. Rainier. They returned to Eugene on Monday.

MID-NITE SONS MAKE HIT

Oregonian Station Broadcasts Music of Campus Group

The University received considerable publicity, especially among the younger set in Portland during the recent holidays through the activities of the Mid-Nite Sons, who featured at the Christmas college ball sponsored by Woman's league and the college prom besides at several private dances. The Oregonian radio station, K. G. W., sent the strains of their melody out over the nation and the frolickers at the

midnight matinee of the Majestic theatre also enjoyed the music of Jack Myers melody makers. The orchestra also played at the Portland hotel grill New Year's night. The orchestra opened last night on the campus at the student body dance and tonight they hold forth at the College Side Inn. The floor at the Inn ballroom has been refinished over the vacation and is in better shape than before.

STUDENT LOAN FUND INCREASED BY \$200

92 Men and 52 Women Have Taken Out Loans; Average Loan \$95.14 a Student

The scholarship loan fund of the University was increased \$200 by a gift of that amount announced yesterday by Dean Walker, student advisor. The name of the person making this contribution to the fund was not given out. The loan fund amounted to \$13,765.89 on January 1 of this year and the money was practically all loaned out to students at that time.

During the fall term 144 students took advantage of the loan fund, taking out loans amounting to \$13,700.50, making an average of \$95.14 for each loan. There were 92 men who took out loans and 52 women.

The length of time for which the money is given out varies from two months to two years, according to the needs of the individual. There are no restrictions placed on the length of time money may be loaned except that it shall be used to assist students in obtaining their education.

In order for a student to secure a loan it is necessary for him to obtain the backing of two property holders, who will sign his note with him. Interest is charged at the rate of six per cent.

GREGORY WILL GO EAST

Education Professor Will Teach at Cornell Summer School

Dr. C. A. Gregory, professor of education, will teach at the summer session of Cornell university at Ithaca, New York, next summer. He will hold two classes in tests and measurements of intelligence. Dr. Gregory plans to leave immediately after the close of the spring term for Washington, D. C., where he will attend the meeting of the National Educational association. From there he will go on to Ithaca for the opening of the summer session on July 5. In all probability he will return for the opening of the fall term here.

Dr. Gregory lectured in Roseburg Friday, to the teachers, on the subject of tests and measurements of intelligence.

MANY NEW HOUSES TO BE OCCUPIED IN SPRING

Two Homes Now Going Up; Four More to Build

They say the birds always start building in the spring, but the sororities and fraternities are ahead of their feathery neighbors. Two of the new houses will be occupied during the spring term and next fall a large crop of new homes will be in working order. The Sigma Nu house is making rapid strides towards its completion. Workmen are putting window casings in now and are putting on many inside finishing touches. The Sigma Nus expect to move in the first of the spring term. The house, which is of a colonial type, is situated on Eleventh street between Alder and Hilyard.

The Alpha Phi house expects its occupants about May first. It is to be on the old English style and will be of stucco and clapboards. The frame work of the third floor is being made now. The house faces Hilyard at Eleventh.

Kappa Alpha Theta, Kappa Kappa Gamma, Phi Gamma Delta and Gamma Phi Beta have all bought lots and are making plans for their new homes. The Theta house will face 14th street at Alder and will probably be occupied next fall. The Phi house will be a two-story stucco house and will also be occupied at that time, when the Phi Sigma Pi's will move into the present Phi house on Twelfth street. The new house is to be on Nineteenth and Emerald. The Kappa's have bought a lot on Fifteenth and Alder. Their house plans have not been made but they hope to start building next fall.

Alpha Xi Delta has bought the present Gamma Phi Beta house and they expect to move in next fall. Lester G. Hullin, former owner of the house, made the sale. The Gamma Phis have bought a lot by the mill-race on Hilyard and hope to start building next August. It will not be finished by the next fall term and the plans for housing the girls until they can occupy their new home are not completed. Several houses for this purpose are under consideration.

Work on the Beta Theta Pi house is completed. Several other organi-

zations are buying lots in preparation for future building.

SECOND ORCHESTRA TO REHEARSE WEDNESDAY

More Wind Instruments Wanted by Director; Organization Limited to Twenty

The Second Orchestra will have its first regular meeting of this term next Wednesday at 4:30 p. m. in Villard hall. The time of the rehearsals heretofore has been at 4:45 p. m., and because of this change, Mr. Walstrum, the director, requests that all members take notice and report at the new hour.

The Second Orchestra has to be limited to twenty members, and on account of this, thirty names have been chosen of students most suitable for orchestral work, and the director will immediately begin to choose the twenty permanent members of the orchestra.

At the rehearsal on Wednesday, roll call will be taken to include those who will want to be considered regular members. Mr. Walstrum says that any who do not appear it is quite doubtful whether they will be eligible for membership, because of the limited number in the orchestra. The director is extremely anxious for the turnout of more brass and good wind instruments.

Sometime during this term, the orchestra will play in assembly. Entirely new work is being taken up, and it is proving much more interesting than the earlier work.

GIRLS APPOINTED FOR JACQUES RECEPTION

Exhibit in Museum of Art Building to be Open to Students and Townspeople

The reception for Emil Jacques, Belgian artist, who is to hold an exhibition on the campus January 9, will be in charge of committees of students appointed by Mabs Breckon, president of the Allied Arts league. Miss Breckon made arrangements with Kathryn Nicholson, president of the Normal Arts club, to use the standing committees from that organization to plan the entertainment, decorations and exhibit. Two or three additional appointees will be named later.

The reception is to be informal, and all faulty members and students interested in art are invited, as well as any townspeople who desire to come. The paintings will

be hung in the little museum of the arts building.

The committees are as follows: Entertainment, Constance Cleaver, chairman; Helen Gripper, Margaret Smith. Decorations, Hazel Borders, chairman; Beulah Belcher, Elizabeth Edwards. Exhibit: Jo Ann Warwick, chairman; Betty Hunzicker, Nellie Jarcher, Audrey Harer, Letha Jenks, Ruth Brauti and Lois La Roche.

Members of the exhibit committee are to report on Monday to Miss Maude Kerns, head of the normal arts department, to receive directions.
