OHIO OFFERS COLLEGE GRADUATES POSITIONS

Opportunity Given to Take Advanced Studies

In order to encourage graduates of Ohio State university and of other similar and approved institutions to continue their studies, and to pursue advanced work leading to the higher degrees, the Ohio State university has established a number of scholarships and fellowships, according to a recent announcement given by Professor O. F. Stafford of the chemistry department. In addition to these University endowed fellowships and scholarships there are three privately endowed fellowships. All of these are available for students of the University of Oregon.

The scholarships are open to students having a baccalaureate degree from an approved institution, and have a value of \$300 with exemption from all fixed fees except a matriculation fee (\$10.00) for all students who enter the University for the first time and a diploma fee (\$10.00) for those students who receive degrees. The fellowships on the other hand are open only to students who have at least the master's degree or its equivalent, and have a value of \$500 with like exemption from all fixed fees.

Scholars and fellows are selected on a basis of merit irrespective of the departments in which they wish to work and must devote all their time to graduate work including research. Candidates for these positions should file their applications with the Dean of the Graduate School of Ohio State university at Columbus, Ohio, not later than March 1, 1924.

Dr. Stafford is hoping to find an Oregon student to send back to the Ohio State university. He believes that at least one candidate for one of the assistantships will be available. There are several of these assistantships available which will give the graduate student the opportunity to carry on research work in his major subject. The pay for graduate assistant is \$500 a year. All of the assistantships and fellowships mentioned above are for the school year 1924-25.

VISITOR CLAIMS WE ARE SOCIAL PROBLEM

(Continued from page one)

divine answer to all sin is found at the cross. Forgiveness must mean the restoration of a broken relationship, it is not a goal, but a threshold.

"The kingdom of God is here, but we fail to make it concrete as Jesus did," he declared in his third morning address. "We fail to make use of God's promises, to take him at his word. The people in England are yearning passionately for peace," he said. He continued by pleading for something definite on the part of the United States toward bringing about this world

peace which is essential to the establishment of the kingdom of God on earth. The students were urged to "make some adventure into claiming the kingdom of God" in their own lives.

In his lecture on "What Are the Sources of Power?" he defined power as that which enables a man to follow Jesus, that enables him to put his ideals into everyday practice.

"Some people carry around their religion as so much luggage," Canon Woods declared, "when as a matter of fact if permitted it will carry them. Jesus was the first and only one to discover and use the resources of God. He translated the ideals he had showed his followers into concrete facts. These same resources of power may be used by his disciples. Most of us are living far below our possibilities."

"You must come to realize that God is a person with whom you can enter into personal relationship," he continued. Then he explained the above by saying that "If God is personal and free, and if you are personal and free, then it is only rational you should enter into personal relationship with him."

The rector closed his series of addresses with these three statements:

"To put yourself as the center of the universe is misery; to put God there is a peace that passeth all understanding. Blessed are you when you can begin to forget self and lose self in the service of God; then will this power come. The best thing you can get out of this convention is that you can come to know God and use his blessings."

SENATORS APPROVE PARTY ORGANIZATION

Students Form Republican Club to Stimulate Discussion of Public Issues.

The stamp of approval of Oregon's two Republican senators has been placed upon the newly formed Students' Republican club here. Telegrams from Senator Charles L. McNary and Senator Robert N. Stanfield have been received by Arthur Rosebraugh, chairman of the executive committee of the organization.

In his message, Senator Stanfield sets forth some of the objects of such student organizations, a large number of which are being organized in the colleges of the country in connection with the work of the national Republican committee. "Permit me to congratulate you on the organization of this club," his

telegram says. "I trust that you have in mind that our government is essentially one of parties and that the only way the majority opinion of the people can be determined is through party organization. Our government represents the most
