UNIVERSITY OF OREGON, EUGENE, WEDNESDAY, JANUARY 30, 1924

NUMBER 83

## FRESHMEN WIN IN SPEEDY GAME

Eugene High Five Defeated  
by Score of 41 to 27 in  
Hard Fought Struggle

## FROSH PROSPECTS GOOD

University High School Will  
Meet Yearlings Today  
in the Men's Gymnasium

Dave Evans crew of rollicking freshmen hoopers defeated the Eugene high school team yesterday afternoon, 41 to 27. The Eugene five was by far the best team that the freshman have played this year and they put up a fast, aggressive brand of ball.

The game was fast and both teams showed signs of snappy teamwork. The Eugene five, in actual floorwork and passing, looked equally as well as the yearlings at certain stages of the contest. While the greater experience of the freshman five enabled them to maintain a safe lead, they were forced to extend themselves to keep out in front.

### "Spike" Has Fast Team

"Spike" Leslie, former Oregon star athlete, is coaching the Eugene squad and he has assembled a fast, well-rounded team. They play a speedy short-passing game and work the ball well down the floor and under the basket for the majority of their points. Landrum and Murray, at forwards, played a very good floor game and seemed to find the hoop fairly regularly. The whole team seems well coached and will stand watching in their contests in the state interscholastic league.

The yearlings are showing signs of being one of the best freshman teams to be turned out by Oregon for some years. However, they do not seem to have hit their maximum game yet. Their play is somewhat ragged in spots and they have not yet gotten over their natural tendency to dribble too much and play too individually. As soon as they break away from some of their high school tricks and get to playing together Oregon will have a freshman team that will bear watching.

### Regular Combination Used

At present Evans is using his forward combination of Westergren and Westerman to good advantage, and both of these men have been finding the basket with fair regularity. Chiles has proven his ability to work in smoothly in either forward position. Both Okerberg and Flynn have been ranging the floor in great style from the pivot position and both because of their height have been converting a large number of shots from underneath the basket.

Kiminki, Reinhart and Hughes form a combination of guards that promise considerable difficulty to opposing forwards this year. All three have been getting down the floor fast also and have been making their share of the scores. Also in Schmeer, Shulte, Carter, Dallas, Adams, Carl Johnson and J. Johnson, the coach has a number of substitutes who can be depended upon if necessary.

### Murray Converts Fouls

Murray made seven points for

(Continued on page three)

## DELTA ZETA WINS MEET

Tri Delt Loses by 35-33 Score in  
Close-run Contest

In one of the closest meets held this season, Delta Zeta beat Delta Delta with a score of 35 to 33. Marguarite McCabe, for the losers, was high point winner with 13 points. Betty Lewis and Gertrude Honk, on the Delta Zeta team, came second with eight points each.

Gamma Phi Beta beat Hendricks (2) in the other meet held last night. The final score was 41 to 26. The high point winner was Virginia Wilson, for Gamma Phi, who secured 13 points. Yvonne Smith for Hendricks was second with nine.

## INTRAMURAL SPORTS REGARDED AS ESSENTIAL FOR GIVING MEN ATHLETIC TRAINING

Harry Scott, Physical Education Instructor  
Cites Advantage Gained by Student After  
Leaving University; Time Spent Not Wasted

By Ben Maxwell  
"Intramural sports are offered at the University of Oregon for the purpose of giving the student of non-varsity calibre an opportunity to gain athletic experience by representing his organization in one or more events in the athletic program," said Harry Scott, professor of physical education, when interviewed on the desirability of intramural activities on the campus.

"And the intramural activities are the best means that we have of offering athletic training to the student—training that he can continue and profit by after he leaves college," Scott continued. "If in the course of intramural training, material for varsity athletes is discovered, and developed, so much the better, but the primary purpose of the intramural activities is not to develop varsity athletes. If such a man does come from this source he is a by-product of the training offered rather than an end result."

Scott then explained the necessity of the intramural activities as a

means of giving the non-varsity student an opportunity to participate in some form of athletics.

Only about eight percent of the men on the campus have an opportunity to participate in athletics on varsity teams—the remainder, the 92 percent, unless it were for intramural activities would have to get their athletic training in the bleachers, rooting for the eight percent on the University teams. This would manifestly be an unjust discrimination, because many of the men on the bleachers, while they would not make the varsity, would, nevertheless, profit and enjoy participation in some form of athletics.

For this reason intramural activities were established at the University. Scott expressed the opinion that the days at the University were past when every student who wished was a shining light in the student body to be a varsity athlete.

Instead of having only a comparatively few men enjoying the benefits

## DR. WINSHIP HAS LONG CAREER AS EDUCATOR

Political Matters Interest  
Assembly Speaker

Dr. Albert Edward Winship, who will speak at assembly Thursday, has had a long career as an educator and teacher before becoming editor of the Journal of Education, published in Boston. He began his teaching career when he was twenty.

Principal of the grammar school at Newton, Massachusetts from 1865 to 1868 was the position that Dr. Winship held at twenty. Until 1872 he was a teacher at the Bridgewater state normal school. He has been connected with educational instruction in Massachusetts, having been a member of the Massachusetts state board of education during the years from 1903 to 1909.

Dr. Winship received his doctor of letters degree in 1898 from the University of Nashville. Before this he had attended, as a student, the Andover Theological Seminary. Dr. Winship also has the degree of doctor of laws, received in 1911 from the University of Vermont.

Besides his interest in education, Dr. Winship has an interest in politics. He was a delegate to the Republican national convention in 1896. He is also interested in civic improvement, being a charter member of the Boston Chamber of Commerce, the Twentieth Century club, and the Boston City club.

Karl Onthank, secretary to the president, in speaking of Dr. Winship, says that he is well qualified to interest an audience because of his many wide and varied experiences. Dr. Winship has travelled all over the United States, crossing the continent over forty times, several times before the means of travel were perfected.

Dr. Winship has not yet announced his subject, but it is said by those who know, that whatever he chooses will be interesting. The assembly will be held in Villard hall and Gwladys Keeney will give a vocal solo.

## ARCHITECTURE PROFESSOR HAS ARTICLE PUBLISHED

An article on "Make Your Town Beautiful," by W. R. B. Willcox, professor in the school of architecture and allied arts, was accepted by "Oregon Business," the official publication of the Oregon State Chamber of Commerce, and appeared in the January 10 issue. The article takes up the question of city planning, and the service that a city planning commission can do in improving the appearance of a city.

## FAIRBANKS WILL MAKE DOUGHBOY

Oregon Professor to Give  
Sculpturing Exhibition at  
Villard Hall This Evening

AFFAIR STARTS AT EIGHT

Artist Says He has Put on  
Demonstrations Before;  
Animal Heads Done First

Tonight in Villard hall Avarad Fairbanks, professor of sculpture, models a replica of "The Doughboy," his masterpiece of the American soldier, which was done here on commission for the state of Idaho. The benefit, under the auspices of the Sculpture club, is being held in the interest of bringing to Oregon W. Frank Purdy, director of the American school of sculpture. The affair opens promptly at 8 p. m. A number of prominent townspeople are a sponsoring committee for the event.

### First Lecture Recalled

This is not the first time that Mr. Fairbanks has given a demonstration lecture, although it is the first time that one has been held in Eugene. The artist recounts his first humorous experience as a very young boy, just before he left for Europe to study. It was when he was 16, and he was asked to give a lecture by the New York city board of education. Accordingly he gave the demonstration at Washington Irving high school in New York city before an audience of 500, empaneled solely of girls. He was so embarrassed that he was that when they saluted the flag in the opening exercises he did so with his left hand.

### Worked with Proctor

On the first occasion he modeled the head of a lion. He had given much time to the study of animals in the New York zoo, where he often worked beside A. Phimister Proctor, since famous also as a western sculptor, the designer of "The Circuit Rider," and the Roosevelt memorial statue.

Shortly after the demonstration at New York, Mr. Fairbanks was invited to give another at Richmond high school in Richmond, New Jersey, where he modeled another animal's head. Since that time those who headed Mr. Fairbanks as a boy prodigy have watched his progress with interest, so the present demonstration will be different, inasmuch as it is the work of a mature artist.

Recently Mr. Fairbanks modeled under the auspices of the Association of American University women, and other women's clubs in Portland.

## WATER MEET IS TONIGHT

Varsity and Frosh Swimmers Will  
Hold Contest

Tonight at 7:30, Varsity Coach Fahl will send his aquatic proteges against the yearling swimmers in the tank at the Woman's building.

Both teams have been working hard in order to cop the fray, but at present it looks like a toss-up. Although neither team is in mid-season form the events will probably be made in fast time. The distances of the events have been reduced in order that the men will not over exert themselves.

## JUNIOR GIRLS WIN GAME

Sophomore Basketball Team Loses  
Uneven Contest

In the second of the series of class basketball games, the Juniors, team 1, defeated the Sophomores, team 2, with a score of 38 to 2. It was an unevenly matched game from the start, and the juniors walked away with the contest with little difficulty.

For the winners, Grace Sullivan and Melba Byrom, forwards, were the stars. Edna Murphy and Lillian Vulgamore, sophomore centers, showed up well.

## JUNIOR WEEK-END BALLOT UP TODAY

CLASS AWAITS  
STUDENT VOTES

Committees Delay Plans  
Until University Opinion  
is Expressed on Subject

CHOICE TO DECIDE WORK

### By Don Woodward

The vote to be held today on Junior week-end, should be an expression of the will of the student body of the University. The junior class, and particularly the committee, is entrusted with responsibility for the affair and for forming and carrying out the plans to a successful end.

It does not feel, however, that these plans would be formed for a successful Junior Week-end, if they did not meet with the approval of the majority of the students of all classes.

### Three Plans Submitted

Doubt that the event as staged in the past has not been entirely satisfactory is felt from the expression by many that a change, or modification should be made, a number advocating complete abolishment. Following are the plans submitted for ballot: (1) To keep Junior Week-end in the present form; (2) complete elimination of the event from the calendar; (3) to eliminate the high school guests and make the affair a strictly University playtime. The modification plan would probably also mean confining the program to the three main events: (1) the track meet; (2) the canoe fete, and (3) the junior prom. The vod-vil, which is given at some other time, would probably be held in any case.

This sentiment of disapproval of the existing form became so strong that official action was taken at the last meeting of the student council when a committee was appointed to investigate the situation and report at the next gathering, scheduled for tonight. A number of conferences have been held, with the plan for holding a ballot among the students being finally evolved.

### Vote to Show Sentiment

While this voting is not official, it will serve as a true mirror of the wishes of the Associated Students, and will undoubtedly cause the committee to turn in a similar report to the council.

Junior Week-end is the job of the junior class. The class stands ready to "put the affair over" to the best of its ability with earnest effort and good will. The committee, appointed last term to gain an early start, has been forced to mark time, awaiting the will of the students. It is urged that every student of the University consider the matter carefully, and vote at the polls in the library today, so that the result of the ballot may enable the investigating body to make a truly representative report to the student council, and the class may be instructed as to further action.

## JUNIOR WEEK-END REFERENDUM WEDNESDAY, JANUARY 30, 1924

MARK (X)

- 1. Shall Junior Week-End be continued?
- 2. Shall Junior Week-End be abolished?
- 3. Shall Junior Week-End be solely a campus affair without guests?

REMARKS: .....

Signature .....

Class .....

Junior Week-end  
Case Summarized

1. Junior Week-end advertised the University.

2. Advertiser University in wrong way. Only social side, greatly exaggerated, is seen. Picture thus gained is not true to real atmosphere of University. Bad impression is therefore taken back to parents. High school officials strongly opposed to affair.

1. Draws students to University.

2. Only small percentage of week-enders really return in fall. Many are professional "spongers," some having been known to have attended three week-ends without entering the University.

1. Is festive time for student body and proves pleasant break in spring term.

2. Time which might be used in enjoying event taken in entertaining guests. Result is great financial and physical strain.

1. Junior Week-end is traditional.

2. No reason to keep a tradition, when it has become top-heavy. By adoption of modification plan, tradition would be kept but in different form, and with elimination of undesirable features.

1. Many traditional features are desirable, as canoe fete, prom, and athletics.

2. Under modification plan, these features would be kept, and as only major numbers on program would remain, time would be left for students to enjoy these events themselves.

## SPEAKERS IN DEMAND

University Professors to Address  
Various Organizations

Several persons connected with the University have been scheduled recently as speakers for various organizations within the state. Dean W. G. Hale, of the University law school, will address the Kiwanis club at Oregon City, Thursday noon, January 31. Tuesday, January 29, Mozelle Hair, of the extension division, spoke before the Women's Civic club, at Creswell, Oregon, on "Higher Standards of Education."

R. W. Tavenner, of the extension division, addressed the Parent Teachers' association at Falls City, on "The Advantages of the University and normal school."

## Y. W. NATIONAL SECRETARY TO VISIT CAMPUS THURSDAY

Miss Elsie Heller, national student secretary of the Y. W. C. A. for the northwest district, will be a visitor on the campus February 1. Miss Heller was on the campus last spring and attended the annual Y. W. C. A. banquet given at that time. Her work includes regular visits to all colleges having Y. W. C. A. student associations.

## SPRING EVENT FATE UNCERTAIN

Entire Student Body to Vote  
On One of Three Plans  
Offered by Committee

BOOTH OPEN IN LIBRARY

Proposals Are to Abolish  
Affair, Retain in Present  
Status, or Make Revision

From 9:00 o'clock this morning until 4:30 tonight, a booth will be open in the lobby of the library for balloting on the Junior Week-end question.

There are three alternatives on the ballot: 1. To continue Junior Week-end as it is at present without any changes. 2. To abolish Junior Week-end altogether. 3. To make Junior Week-end solely a campus affair without guests. There is a space left on the ballot for remarks and it is hoped by student body officials that enough suggestions will be made to build up a constructive program in regard to the event.

### Many Views Held

The agitation over the event has brought the student council to start an investigation. So many different views were expressed that the real opinion of the student body could not be obtained easily. This referendum plan was hit upon in order to find out what the students really do want.

"There has been a good deal of agitation for a moderation in regard to Junior Week-end," says Claude Robinson, A. S. U. O. president, "but opinions have varied so widely that it has been impossible for the student administration to know exactly what the students want. The referendum on the question was decided upon as a means to ascertain student sentiment in the matter and provide the student council with definite material to work upon, should revision of the week-end seem desirable."

It has been found that a great deal of the antagonism was on account of the practice of inviting guests from the high schools at that time. This is the reason that the ballot bears the alternative plan of keeping Junior Week-end as a campus playtime and eliminating the guests.

### Evils to be Rectified

The general feeling seems to be that there are evils to be rectified but whether the student body wishes to do away with Junior Week-end entirely, keep it as it is, or adopt a compromise, will be shown only through this referendum. The student council which is to hear the committee's report tonight, is the final authority in the matter.

They desire to feel and act by the student sentiment in the matter. It would be impossible to suggest any other compromise plan on the ballot for a wide diversity of results would defeat the purpose of the balloting. Doing away with the entertaining of guests seemed to be the most feasible and most popular compromise.

Each ballot bears a space for the voter's name and class in the University. Student officials urge as large a vote as possible in order to obtain a really fair representation of campus opinion.

## REHEARSALS OF SECOND ORCHESTRA PLANNED

No rehearsals of the second orchestra, directed by Theodore Walstrom, will be held until Wednesday, February 13, because of "The Hour Hand" rehearsals and presentation.

## ELECTION ANNOUNCED

G and M society announces the election of John Garner, Astoria, to associate membership.
