NUMBER 89

ART STUDENTS TO TOUR EUROPE

Professor Schroff Will Conduct Two Month Trip Abroad in the Summer

PARTY TO SAIL IN JULY

France, Italy, England and Switzerland Included in Itinerary as Planned

A two month's tour of Europe, England, Holland, Switzerland, Italy, Belgium and France, will be conducted this summer by Alfred H. Schroff, head of the fine arts of the University.

The trip which will cost about \$800 has been planned especially for art students, but others have signified their interest also. Mrs. Schroff, herself a painter of miniatures, will accompany her husband. The complete itinerary, planned by Charles Egon Bell, Pacific Coast manager of the intercollegiate tours, is just off the press.

Many Prizes Won

Mr. Schroff lived for some time in Europe earlier in his career. He studied antique stained glass in England and France, and visited old cathedrals and museums. He has won a medal for stained glass at Kingston, Jamaica in an international competition, and since taking up painting instead of glass designs and execution, he has become known as a painter of brilliant landscapes. Last year he won two first prizes given in the west—one awarded by the Seattle Fine Arts society, and one in competition with artists from all over the United States at an exhibit in Springfield, Utah. Lectures by Mr. Schroff will be given on board ship and at each place visited.

The party will sail from Montreal, Canada, on the S. S. "Doric" of the White-Star Dominion line, July 5. Two days will be spent on the St. Lawrence river, and the ocean will be crossed by the shortest route. Arrival in Liverpool will be July 13. From Liverpool, England, the train will be taken to Chester, that quaint medieval town which still keeps its atmosphere of the past.

Complete Plans Made

Five days, from July 15 to 19, inclusive, will be spent in London, and July 20, 21 and 22 in Amsterdam, Holland. While in Amsterdam they will see, along with other art treasures, the famous "Night Watch" by Rembrandt.

Antwerp and Brussels, Belgium, will be visited on July 23 and 24, and the train will be taken through Luxembourg and Lorraine on July 25. Notable stone-carving and the great cathedral at Strasbourg will be seen on July 26. Lucerne, the loveliest city in Switzerland, with its panorama of the Alps and its stone lion, will be reached on July 27. A train will be taken to St. Gothard and on to Milan in the following two days. Leonardo's "Last Supper" can be seen at Milan.

Many Stops in Italy

Venice, with its Bridge of Sighs, its palaces, the bronze horses above St. Mark's—a city still showing

(Continued on page four)

Audience Is Charmed by First of Stuart Walker Plays

Amid a wonderfully artistic setting, which seemed but a natural background for the ease and finished acting of the players, the first performance of the Stuart Walker Portmanteau plays was given before a large house last evening at the Hellig theater.

A thoroughly artistic production, with all of the studied effects, which seemed but natural to the uneducated eye, but each of which had perhaps caused the artist days or months of concentrated effort to produce.

A finished characterization in every sense of the word hardly expresses the performance of George Sommes,

Law Dean Decides Canes Are Correct for Campus Use

"They want to know why you don't carry one."

This statement brought forth an amused laugh from William G. Hale, dean of the school of law, as he leaned back in the swivel chair at his desk.

"Well, I'll tell you why I haven't carried a cane. When I graduated from high school, really an academy, at Forrest Grove, our class adopted that symbol and I invested in a cane.

"Among the treasures that my mother put away to keep is that cane. If I can locate and retrieve that cane, which is at my mother's home in Portland, I shall appear fully decked out with it.

"When I first saw the law students equipped with these I inquired whether it was sinister or not. No injury has come thus far, and I believe the members of the law faculty should arm themselves. I'm glad to cooperate and expect in the near future to appear on the campus with a cane."

WILLAMETTE GLEE TO SING HERE SOON

Club To Make Extensive Tour This Season

The Willamette University men's glee club will be heard in concert Friday evening, February 15, in the Methodist Episcopal church of Eugene. The club is reported to be one of the outstanding musical groups of the northwest, offering an extensive repertoire of both heavy and light numbers.

The club is making an extensive trip this year, including many towns in Southern Oregon and Western Washington as far as Vancouver, British Columbia. The tour sponsored by the club last year, which proved very successful, covered some two thousand miles, and included concerts in thirty of the more important cities.

Among the features which are highly commended this year is the Willamette Yell King, Poe Nee, in Scottish Highlander costume, singing his famous Scotch melodies. Lloyd Thompson, prominent on the Willamette campus, will carry the solo part. Byron Arnold, a piano soloist of excellent technique, is the accompanist.

The University of Oregon glee club will support the concert in every way possible, said John Stark Evans, the director. The success of the Oregon glee club concert in Salem last year was a great part due to the wholehearted support extended by the members of the Willamette glee club and student body.

It is the opinion of many on the campus that the Willamette University glee club deserves the support of the entire University of Oregon student body, and it is the wish of every student to make the concert a success.

SENIOR WOMEN WIN FROM SOPHOMORES 40 to 16

The senior women were victors over the sophomores, team 2, in a basketball game played last night. The score was 40 to 16. The Quinlan twins, for the seniors, showed up well with their usual good teamwork and basket shooting. Betty Alexander, for the sophomores, made almost all of the points annexed by the losers.

CROSLAND WILL TALK TO EDITORS

Scientific Cause of Errors in Proofreading Topic at Newspaper Conference

RESEARCH WORK DONE

Trade Journalists To Meet With Newsmen During Friday Morning Session

The annual state newspaper conference to be held here February 15 and 16, given a special feature at the opening session in an address by Professor H. R. Crosland of the psychology department, on the subject, "The Results of a Two Year Scientific Investigation of the Causes of Errors in Proofreading."

So far as can be discovered this is the first scientific research ever held upon the subject of proofreading.

"It is a distinct contribution both to journalism and psychology," says Professor Ralph D. Casey of the school of journalism. The results of the investigation will be published by the University in one of a series of research publications. The speech at the conference will be accompanied by a demonstration of methods used in the research.

Short Course Offered

Another feature of the Friday morning session is to be a short course in journalism English, conducted by a group of editors under the leadership of Dean Colin V. Dymont.

For these two Friday morning subjects, not only will the editors and writers on daily and weekly newspapers gather, but also the publishers of trade and class journals. This is the only session in which both groups of journalistic workers meet together.

Program is Given

The trade and class journalism section of the conference have their separate program which is announced as follows,

Friday Afternoon

"Subscription Getting," Stephen Hart, manager of the Commercial Review and president of the Section.

"Essentials of Trade Journal Editing," George F. Cornwall, associate editor of the Timberman.

"Humanizing the Trade Paper," Jerrold Owen, editor of the Pacific Legion.

"The Federal Trade Commission and Printing Costs," K. Louise Sondheim, publisher of the Northwest Insurance News.

Friday evening the trade paper men will join with the other conference delegates. All will be guests at the annual conference banquet in the hotel Osburn.

Saturday Morning

"Constructive Aims for the Trade and Class Journals Section," A. C. Gage, publisher of the Angora Journal.

"Foreign Advertising," Fred S. Young, advertising manager, the Oregon Farmer.

"Postal Service for Trade Publications," Curtis Beach, assistant editor, Pacific Northwest Hotel News.

The annual business meeting and election of officers is scheduled for 11:30 Saturday morning.

All sessions will be of informal nature. There will be plenty of time for discussions after each paper is read, the aim of the conference being to give opportunity for every delegate to join in talking over trade paper problems.

ARTICLE BY VIRGIL EARL APPEARS IN MAGAZINE

The March number of Intercollegiate Athletics will contain an article about Virgil Earl, director of athletics at the University of Oregon. This story deals with his work and plans for the athletic season.

The article was written by W. J. Dryden, Portland, Oregon, correspondent of the magazine, from material furnished by Prof. Ralph D. Casey, of the school of journalism.

The article features the fact that Mr. Earl is completing a tour of the country looking for a football coach, one of the most important assignments since he came to the campus in the fall.

SIGMA CHI LEADS IN PENTATHLON

Woodward Makes Record in Bar Vault; Fast Time is Chalked up in Swim

MCCABE HIGH POINT MAN

Lyle Palmer and Lamont Stone Tie in Tank Event; Delt Team Takes Second

The intramural pentathlon opened last night in the men's gymnasium with the bar vault and swimming as the first two events to be run off. The Sigma Chi are leading in the first two events of the pentathlon with a total of 173 points. Delta Tau Delta is the runner-up so far with 154 points, while Phi Sigma Pi is third with 147.

Some very good marks have been set in the events listed so far and in both the average points scored were higher than ever before. Don Woodward now holds the record in the bar vault by boosting himself over the bar at 6' 10". A majority of the contestants did better than 6 feet. Very good time was chalked up in the swim, with nearly all of the entrants navigating the five lengths in the 60 foot tank, taking four laps any fashion and one on the back, in considerably less than two minutes. Lyle Palmer and Lamont Stone tied for the best time in the event with 1:11 2-5.

Good Records Made

Bob McCabe held the high point honors for the two events with 55 points, and he was followed in order by Lamont Stone and Lyle Palmer with 54 apiece, Price with 47, and Don Woodward with 46.

McCabe and Ringle tied for second place in the bar vault with 6' 8". Stone and Palmer tied for first in the swim in the fast time of 1:11 2-5, and Alderman took third with 1:13.

The remaining three events will be held Thursday evening at the same time in the men's gymnasium. The events to be contested then are the rope climb, high jump, and 200 yard dash on the indoor track. The points for the five events will be totaled and the order in which the teams finished credited to their score for the intramural plaque.

Phi Gamma Delta is leading in the intramural race totals at present with 4 points, and is followed by the Sigma Chi with 6 and Friendly Hall with 8.

Complete Scores Given

The scores for the pentathlon to date are:

Sigma Chi	173
Delta Tau Delta	154
Phi Sigma Pi	147
Sigma Pi Tau	146
Phi Gamma Delta	127
Sigma Alpha Epsilon	124
Phi Kappa Psi	120
Bachelor	104
Friendly Hall	86
Beta Theta Pi	82
Kappa Delta Phi	76

FROSH WRESTLE FRIDAY

First Meet is with Reed Preceding Basketball Contest

The frosh wrestling team will swing into action for the first time when they meet Reed College next Friday afternoon at 2:00 in the men's gymnasium. The meet will precede the O. A. C. Rook-Frosh basketball game.

This is the first meet for the freshmen and is more to furnish experience for the future varsity grapplers. The definite weights are unknown but it is probable that either five or six bouts will be staged. Coach Widmer has been pitting the babes against the varsity grapplers and they have been showing real stuff in the workouts.

Jim Cossman has been chosen to referee the meet. A meet with O. A. C. rooks is being arranged but as yet the date is indefinite.

CLIQUE SPIRIT LIMITS STUDENT LIFE MENTALLY AND SPIRITUALLY, SAID WOODROW WILSON

All University Will Pay Respect to Man as Educator, President and Leader; Regular Assembly Address for Thursday Changed

By C. N. H.

In memory of the war president of America, Woodrow Wilson, the topic regularly scheduled for discussion at the University assembly next Thursday has been hurriedly postponed and a review and estimate of Mr. Wilson by Dean Henry D. Sheldon substituted. The University administration felt this the proper thing to do in view of the very apparent concentration of campus thought upon the passing of the ex-president.

Thursday, the University faculty and students alike will pay respect not only to Mr. Wilson, president of the United States during the World War, but to Woodrow Wilson, educator and leader in time of peace. As leader of the American nation, President Wilson expressed his goal and ideal in that much banded speech, "To make the world safe for democracy."

As a college president, Mr. Wilson

stood no less for democratic student life and organization. He struck hard at the "clique" system in vogue at Princeton during the days of his administration.

A former Princetonian reminisces: "While standing informally in the smoking room in our junior and senior clubs after dinner, he would tell the men that the whole club system was undemocratic and wrong. 'You men are limiting your own mental and spiritual growth by moving off in these little cliques' he would say."

The clubs mentioned by the former student of Princeton quoted above, were simply eating and loafing clubs and provided no sleeping quarters, inasmuch as the dormitory system was enforced by the university administration, said W. F. G. Thacher of our own campus. These

(Continued on page three)

VARSIITY SWIMMERS TO MEET REED HERE

Portland Team Has Several Multnomah Stars

The varsity swimming team will meet the Reed college team, of Portland, Friday afternoon at 3:15, in the tank at the Woman's building. Reed college has several Multnomah club stars on the team which indicates that the visitors will have a "fast bunch of swimmers."

In the meet with the freshmen, the varsity showed that a little more training will put them in line for a top berth in meets with other teams. Lyle Palmer, who took first in the 40-yard event during the frosh meet, was showing his old time form. He also ran Lombard a close second in the 80 yard dash. McCabe has been coming to the front and tied Palmer in the 40-yard dash. Yoran seems to have the edge over the other men in the backstroke. Although Lombard and Stone of the frosh finished ahead of him, with a little more training Yoran should be in line to carry off a first place.

Horsfall has been going strong in the dives and in the 200. He gave an exhibition of high-class diving in the frosh meet. Al Sinclair is the strong man in the breast stroke. The relay team composed of McCabe, Yoran, Horsfall, and Palmer, won the event by a close margin. In the Reed meet it is likely that the varsity will cop the event as the frosh were as strong opponents as any team that the varsity can expect to meet.

Herron, who specialized in the sprints, will probably be seen in action against the Reed aquatic aggregation. He has been out with a strained back but is rapidly rounding into condition.

The distances of the events may be lowered as both teams are not in the best of condition, for so early in the season. Eight events have been listed on the program, consisting of 50 yard dash, 100 yard backstroke, 100 yard dash, diving, 220 yard dash, plunge, and 160 yard relay. Four men will represent each team in the relay and each man will swim two laps, or 40 yards.

There is probability that Reed college will bring a frosh team to meet the local yearling team. The frosh under the tutelage of Don Park have developed a strong squad of swimmers.

DR. HODGE PRESENTS PLAN TO DRAIN CITY'S AMAZON

Professor Edwin T. Hodge of the geology department talked on the drainage of the Amazon, at the Fairmount Christian church to the East Side Community club last night. Mr. Thompson, an engineer from Seattle, had proposed a plan for the reclamation of these low lands and Dr. Hodge presented this plan last night after having studied it carefully in relation to the immediate situation.

EARL RETURNS FROM TRIP EAST

Athletic Director's Choice For Football Mentor to be Announced Soon

MONTH'S TOUR IS MADE

Executive Council to Pass On Decision Reached in Journey Through Country

By Monte Byers

In a very short while we ought to know who will direct the destiny of Oregon's gridiron machine for the coming year. Virgil Earl, athletic director of the University, arrived home yesterday ready to make his recommendation to the athletic committee.

Earl has just completed a month's tour which took him through California, up through the middle states, and over into the eastern section of the country. What information he has concerning the coach who will handle the reins next year he is withholding until the proper time comes to let it out.

Earl's Mind Made up

His mind is definitely made up and it will remain for the athletic committee of the executive council and the executive council itself to decide upon the mentor he has in mind for the position.

Should everything go smoothly through the different channels and the president's approval secured, all that will be left to do is notify the mentor of Earl's choice and tell him to check his baggage to Eugene in time for spring practice.

News To Break Soon

Campus followers of the situation are anxious to hear who the future football chief is and the news ought to break within the immediate future. Without doubt Claude Robinson, president of the A. S. U. O., will call a meeting today or tonight, and the question will be settled.

In the month's tour Earl has combed the field for the best coaches available. Some he found tied up to contracts, others in positions they did not care to leave. He has seen over two dozens mentors and with the knowledge of football and coaches which he possesses it is certain that the man he has in mind for recommendation will be able to deliver the goods.

Whoever the new coach is, he will have something to sail with when he takes the tiller of the Oregon football ship.

Good Men Developed

Shy Huntington has left some good men. He has recently developed others, and these men ought to be ripe for next year. A promising array is coming up from the freshmen ranks, providing they keep away from "Old Man flunk."

Oregon will now have to sit back and wait again for action from the council committee. Earl is ready and all those in the know are anxious to get the deal over and be sure of a competent coach for next year's campaign. If the choice is made, and we have every reason to believe that it will be, Oregon can settle back and wait for the new mentor to take the reins.

TRIANGULAR DEBATE TO BE FEBRUARY 14

Franco - German Problem Will Be Discussed

Members of the women's debate squad are hard at work on the question for the Willamette-O. A. C. Oregon debate which is to be held a week from tomorrow, February 14. The four Oregon girls who will participate in this contest are Dorothy Abbott, Margaret Woodson, Mildred Whitcomb, and Mildred Bateman.

The Oregon affirmative, composed of Mildred Bateman and Mildred Whitcomb, will meet Willamette at Salem. Margaret Woodson and Dorothy Abbott will remain here and face the O. A. C. team.

The names of the O. A. C. girls have not yet been received, but Willamette has announced its team as consisting of Elaine Oberg, Lila Geyer, Esther Moyer, Nadie Strayer, Elaine Clower, and Caroline Tallman. Two of these girls have probably been selected as alternates to the regular team. Miss Oberg is the only member of the squad who has had previous experience on a Willamette team.

The Franco-German problem is the question at issue for this debate. The proposition is, "Resolved; that France should immediately evacuate the Ruhr."

Gerrit Demmink, of the written and spoken English department, is coaching the Oregon girls. He meets with them daily for practice in both constructive and rebuttal speech work.

BICHLER IS RECOVERING FROM SURGICAL OPERATION

Edward Biegler, sophomore in the romance language department, was operated on for appendicitis Saturday. He was reported as recovering nicely today though he is still at the Eugene hospital.

Professor Recalls Wilson as President of Princeton

Merton K. Cameron, assistant professor of economics, is one of the Oregon faculty who happens to have been an undergraduate at Princeton University during the administration of the late Woodrow Wilson. His reminiscences of the great personality who directed the affairs of that institution bear out in the main the general opinion held of him as a statesman. Professor W. F. Thacher, of the school of journalism was also a former pupil of Wilson.

"Woodrow Wilson as university

(Continued on page four.)
