

WOMEN'S TRACK TO START SOON

Class Meets to Begin When Teams Are Chosen

NO SINGLE POINTS GIVEN

Alden Cup to be Awarded to Winning Team

Girls' indoor track practices are to start next week in preparation for the class meets which will begin as soon as the teams are chosen. No points are awarded to individuals in indoor track, the averages made by the classes counting toward the standings for the Alden cup awarded each year to the class taking the lead in the greatest number of sports.

Points will be granted to individuals in outdoor track, which is to start at the beginning of the spring term.

Complete Schedule Given

The schedule for the tryouts is: Freshmen and sophomores, Monday, March 3. Juniors and seniors, Wednesday, March 5.

Anyone who isn't in a regular gymnasium class, should see Miss Waterman, sign up with her, and enter one of the classes in preparation for the tryouts.

Students who have finished their efficiency tests and who are interested in trying out for the inter-class apparatus meet:

1. Form a separate squad.
2. Report in indoor gym to instructor in charge.
3. Decide on four events for tryouts, to be held March 3 and 5.

Freshmen and Sophomores

1. Rope climbing.
2. Rotary tr. forwd. horiz. ladder.
3. Running high jump.
4. Swing jump.
5. Window ladder climbing.

Juniors and Seniors

1. Rope travelling.
2. Rotary tr. bk.w. hn. ladder.
3. Running high jump.
4. Swing jump.
5. Window ladder—return hd. first.

STUDENT UNION PLAN PICTURED IN LETTER

(Continued from page one)

drawing into a common fellowship the members of the several colleges and faculties and by gathering into a true society the teacher and the student, the graduate and the undergraduate. Further, that the members of the Hart house may discover within its walls the true education that is to be found in good fellowship, in friendly disputations and debate, in the conversation of wise and earnest men, in music, pictures and the play, in the casual book, in sports and games and the mastery of the body. And lastly that just as in the days of war this house was devoted to the training in arms of the young soldier, so in times of peace, its walls shall be dedicated to the task of arming them with strength and suppleness of limb, with quality of mind and depth of understanding, and with the spirit of true religion and high endeavor!"

ARTISTRY DISPLAYED BY RENEE CHEMET

(Continued from page one)

which she played Beethoven's "Romdino" was inimitable.

Lalo's "Concerto in F minor" was one of the heaviest on the program. The opening "Andante-Allegro" she played with spirit and fire; but her rendition of the "Romance," with its quiet sadness brought tears to the eyes of many.

Her last group was opened by

Chopin's "Nocturne in E flat," beautifully played. Dvorak — Kreiser's "Slavonic Dance in G minor" was typically Slavic with its restless hope- less surging. Mme. Chemet put into this something of her own soul making it a piece long to be remembered. Sarasate's "Zapateado" closed the program.

Perhaps one of the most exquisitely beautiful numbers of the entire evening was an encore, Drilla's "Souvenir," played with muted strings.

Much credit is due to Waldemar Litachowsky, pianist. He accomplished that most difficult of feats; by subordinating his own personality yet his playing was perfect, and all through he displayed a complete sympathy with the artist.

PLANS FOR PORTLAND SUMMER SCHOOL MADE

Four Education Courses to be Given Session Opens June 23 at Lincoln High

Four courses in education will be given at the Portland summer session of the University, to be held at Lincoln high school, from June 23 to August 1, according to Alfred Powers, of the University extension division.

Dr. H. G. Lull, director of teachers' training at the Kansas State Teachers' college, will offer two courses, one in junior and senior high school curriculum making and the other in the history of American education. Dr. Lull is nationally known, Mr. Powers said, for applying community educational resources to a curriculum.

Educational psychology and school administration will be taught by Prof. Ira Richardson, of the department of education at the Colorado State Teachers' college. Mr. Richardson is well known on the campus, as he was field representative of the extension division last year.

SOLDIER SENTENCED BY COURT MARTIAL

(Continued from page one)

was upheld by the court, it was declared that the accused had not been proven guilty of the charge against him, but was guilty of the lesser charge of being absent without leave. As his former service record showed two previous convictions of the same character he was given the limit, which he took with a nonchalant grin entirely out of keeping with the severity of the occasion.

The guilty private, theoretically sweating under his first day of hard labor, but actually free on the campus, is Earl C. Hughes. The trial, which was the first held by the students of military law, was conducted by Captain Frank L. Culin, as trial judge advocate; First Lieutenant E. G. Arnold, counsel for the defense; Lieutenant-Colonel W. S. Sinclair, who acted as law member of the court, and Cadet Captain Kenneth Wadleigh, who acted as assistant trial judge advocate. The other 12 members of the court were: Cadet Colonel James A. Meek, Cadet Lt. Col. Benjamin M. Reed, Cadet Major Douglas T. Farrell, Cadet Major Wade H. Kerr, Cadet Major Harley W. Covalt, Cadet Major Jack S. Myers, Cadet Captain Leonard L. Lerwill, Cadet Captain Theodore C. James, Cadet Captain Henry M. Wiswall, Cadet Captain Theodore Amstutz, Cadet Captain Earl W. Smith, and Cadet Captain Thomas N. Page.

CREW MADE MAJOR SPORT

Water Game Given Full Recognition at University of California

University of California—Crew has ranged itself in line with other major sports at the University of California. For a long while, crew was handicapped because of the lack of a full-time coaching staff. The old order has changed with the advent of Carroll Ebright and Russell Nagler, the new crew coaches.

Carroll Ebright came down from the north from the Blue and Gold shells, Ebright is a disciple of the old master, Conibear, who was the originator of the famous Conibear stroke, which has been so successfully adopted by Coach Leader of Yale, and which was used by Washington in the Poughkeepsie regatta last year.

FALL GRADE AVERAGE SHOWS IMPROVEMENT

Women Have Better Record Than Men Students

The grade average for the entire University including both graduate and undergraduate students is higher this last fall term than it was a year ago, according to statistics compiled by the registrar's office. The average for the fall term of the school year 1923-1924 was 3.35, one tenth higher than the fall term of 1922-1923 which was 3.45. The averages of undergraduate students have been bettered this year while those of graduate students have fallen.

The average for undergraduates was 3.37 last fall term as against 3.47 for a year ago. The graduate students' average for last fall term was 2.03 as compared with an average of 1.83 for a year ago, showing a lowering of two tenths of a point.

Statistics comparing the average of sorority and non-sorority members show that those in sororities have a better average than the others. For the sororities the average is 3.08 as compared to 3.17 for non-sorority members. In comparison of fraternity and non-fraternity averages the non-fraternity average is higher than the other. The fraternity average is 3.64 while the non-fraternity average is 3.47.

Both last fall and a year ago the women of the University have made a better average than the men of the University. Statistics also show that the graduate and undergraduate women get a higher average than the men. The all University women's average for last fall was 3.13 and for a year ago 3.28 while that for the men was 3.55 for fall term and 3.61 for a year ago. In comparing the average of undergraduate men and women, the women received 3.15 and the men 3.58. The graduate women had an average of 1.89 and the men 2.12.

MEET TO BE AT U. OF C.

Far Western Relays to Take Place at Southern College

University of California (by P. L. N. S.)—California will be the first host to the western colleges when they meet at Berkeley on May 10 to hold the first annual far western relays. The first of March, about 25 invitations will be sent to all the universities and colleges on the Pacific coast, including those in Washington, Oregon, Idaho, Montana, Nevada, Arizona, Colorado and California.

The plans for May 10 are not yet complete but it is intended that a series of relays and perhaps a pentathlon will be run off. The relays will be divided into groups: one open group in which any institution can compete and others for the colleges according to size. There will be one race for freshman alone. In all other races freshmen will be barred.

FEBRUARY MONITOR OUT

Extension Magazine Deals Largely With Correspondence Work

Articles dealing with correspondence study comprise the greater part of the material in the University Extension Monitor for February, which came out recently. E. F. Carleton, field representative of the extension division, who has visited many schools in all parts of the state during the past year, has an article entitled, "What Is New in Our Public Schools."

The radio debate, which will take place Friday evening, February 29, is given notice as of especial interest to correspondence students since it will bring many who are interested in the University in closer contact. Notes taken from the lessons of a few correspondence students are published in this number, as well as editorials and notices.

JAPANESE QUAKE TOPIC

Slides Illustrating Scenes of the Disaster to be Shown

The Japanese earthquake will be the subject for a lecture to be given by Dr. Warren D. Smith, head of the geology department, before a meeting of the Technical society,

in room 105, Deady hall, at 7:30, a week from tonight.

The talk is to be illustrated by slides and will be of special interest to students in the school of architecture, as structures which withstood the great shock with the least damage will be shown and commented upon. All University students interested in the talk are invited to attend.

The meeting was to have been held this evening, but, due to a mass meeting, which has been called to consider the Amazon drainage project, has been postponed.

APRIL FROLIC PLANS NOW WELL UNDER WAY

Organizations Contributing Stunts Must Give Name by March 1; Interest Shown

Plans for April Frolic, which is to be given soon after spring vacation, are well under way and the committee expects the usual number of "Gold Dust Twins" and bathing beauties, judging from the interest displayed by the women of the University. Organizations contributing "stunts" this year have been notified that the name of the contribution must be handed in by March 1, at which time the program will be arranged.

Anne De Witt is acting as general chairman of the affair and working with her are Betty Rauch, in charge of music and patronesses; Yvonne Smith, floor manager; Anna McCabe, food; Rhona Williams, stage; Margaret Powers, programs and judges; Lucille Douglas, stunts; and Edna Murphy, cleanup committee.

Assistants on the various committees are Catherine Strupler, Bee Peters, Mildred Nichols, Adrienne Hazard, Constance Cleaver, Imogene Lewis, Margaret Boyer, Kathryn Ulrich, Frances Morgan, Margaret Vincent, Dorothy Riordan, Pauline Boston, Hilda Chase, Esther Setters and Jean Harper.

Marjorie Merriek is designing the cover to be used on the program.

RADIO RECEIVING SET INTERFERENCE FOUND

Ted McAlister Assists Government Experts in Tracing Down Source of Trouble

Ted McAlister, assistant in the physics department, is working with a group of Eugene radio experts and the government radio inspector of the Northwest district in tracing down some receiving set interference in and around Eugene. Four sources of the trouble have been found, according to McAlister. A. S. Myers, a local radio expert and dealer, who has had a big hand in tracing out the trouble, pays high tribute to McAlister's work on this induction trouble.

The four sources of the trouble which have been traced out so far, according to McAlister, are, the local electric power plant; the Hotel Osburn; both step-down transformers in the downtown district used in stepping 2,000 volts down to 110. "Using a loop antenna, we spent several days in tracing out these sources of trouble," declared McAlister. "And even now, there is still more interference from other sources around Eugene. We are going to continue the investigating. The government inspector for the district from Seattle is helping us."

MEET TO BE HELD IN PORTLAND FRIDAY

Strength of Reed's Team Is Not Known

Oregon's frosh swimming team will leave for Portland Friday morning where they will meet the Reed college water stars at the Portland natatorium in the evening. The exact strength of the Reed college team is unknown but it may happen that the locals will hit a snag.

Coach "Don" Park has been putting his proteges through stiff workouts so that they will be in the pink of condition for the fray. He has several swimmers that are sure point winners. Since the meet with the varsity each man has shown considerable improvement which means that the Portlanders will stack up against a fast bunch of swimmers.

The men that will probably be entered in the meet are: 50 yard dash, Stone, Marshall and Hines; 100 yard dash, Limbard, Bonbright and Boyden; 220 free style, Lombard and Bonbright; backstroke, Stone and Alderman; breaststroke, Dills, plunge, Alderman; relay, Stone, Alderman and Lombard; dives, Stone and Lee. The coach will pick the definite team that will go to Portland Thursday night.

Lombard is the best point getter for the first year men. He has been clipping the 100 in about 1.5 and the 220 in 2.40 which is considered good time for a freshman. Lee has shown considerable improvement in the dives and should make a strong bid for first honors. This is the first meet that Dills has entered due to lack of condition. He has been getting into form and should go strong in the breaststroke.

Bonbright, Boyden, Hines and Marshall are all working hard to cop the sprints. Alderman has not yet hit his stride in the backstroke but

his weak points will probably be brought out in the meet. However he has been plunging a near 55 feet. It is understood that Reed college has been working out daily in the Multnomah tank in preparation for the meet with the frosh.

LYLAH McMURPHY LEAVES JAPAN FOR VISIT IN CHINA

Word has been received that Ly-lah McMURPHY, '25, left Japan, February 15, for a visit in China. She will leave shortly for the United States. She is expected to arrive in Honolulu, March 13, on the President Cleveland, and will only spend a few days there before continuing her journey. She will resume her work at the University at the beginning of the spring term.
