Inter-fraternity Council Speaks Up

The Inter-fraternity council may be able to vindicate the bold stand it resolved upon last Wednesday.

The Emerald has previously exhorted the council to show its strength. But too often have its members regarded with passing interest their mutual problems.

The last council meeting of the term found delegates at the inter-fraternity gathering disgusted with the killing pace it was necessary to maintain, with rivalry so great.

When the move of the inter-fraternity group is completed, then will it deserve commendation, not necessarily because of sentiment and the triumph enjoyed from harmony of action.

If the council will tolerate no interference with its plans; the soundness of its judgment, but on account of the union of if all members of the group will abide by the decision of last Wednesday, and, in addition, succeed in establishing a sports program satisfactory to all members, then should it merit sincere praise and admiration.

By a determination, prejudiced or not as the case may be, render a clearly defined decision, and not revert to its old habit of passing resolutions and "referring to committees."

WHY INTER-HOUSE SPORTS?

To the Editor:

If the action against house sports that was taken by the inter-fraternity council goes through, there will be only one real excuse for the existence of fraternities on the campus at all, and that will be to relieve the housing situation.

Other than that, the fraternity will be serving no real purpose on the campus.

Some may come back with the answer that scholastic standards are steadily to be enhanced, and that the fraternity is serving a purpose in being an agent in their promotion. True, the fraternity is encouraging its members to stress scholarship more and more, and it is a good thing, but by acting in a concerted way—as a fraternity—is it actually accomplishing what it is attempting to do?

Is it accomplishing more in that direction than the student that belongs to no living organization? Are the grades of the average fraternity man any better as a result of all this propaganda on the part of his fellow members than they would be were these same men living in private dwellings or dormitories where they can study more or less at their own volition and discretion?

With the abolition of inter-fraternity athletics the spirit of competition will not be so keen among the different houses. This competitive spirit is clean and wholesome, and not only is it centered in athletics, but it has a tendency to extend to other phases of fraternity competition and makes interest keener in those particular phases, also. The tendency, with the passing of inter-fraternity sports, will be to fall into a state of stagnation and paternalism. This, in my belief, would be very undesirable.

The whole situation seems to rest upon the time element and scholarship. The time consumed by the participants in doughnut sports prevents these same men from properly applying themselves to their studies. The women's houses have the same kind of system, yet it does not seem to handicap them in that respect. Nearly every sorority on the campus stands above the highest men's organization in scholarship. If time is so consequential in scholastic ambitions, why then are not the women similarly handicapped?

With the system succeeded by that of inter-class contests, not so many men will participate in the sports. The program will not be so extensive, and neither will it be any more beneficial, because the men that were formerly participating in these sports will now have time on their hands that they are not accustomed to having, and instead of studying, as it is planned, they will be sitting around the fireplace while away their time by worthless discussions, or they will be canoeing on the mill race or attending a matinee, or engaging in some other equally beneficial pastime. The answer to this will be that this condition will gradually be overcome as the new system is in force, but will it? The excess time will still be there, and they will finally make their chief objective the killing of time rather than studying, and this will develop into the destruction of scholastic standards.

The best way to keep from growing morose and indifferent is to keep busy—engage in student activities—keep your schedule full so that there will be something to do all the time—something to drive you to it other than advice from your brothers. The constant preaching and threatening of house officials grow old and soon become commonplace. With a full program, something to keep you moving all the time, there will be no time for a relapse. Your energy will be always refreshed. The only danger is overdoing the thing, but

CLUB HEARS REPORTS

Rugs and Chinaware Are Described to Home Economics Group

At the meeting of the Home Economics club recently, Lora Hempy gave a report on Oriental rugs, describing the individual patterns of each country; and Helen Kiblan described English chinaware, dwelling particularly upon the way in which it was classified.

After a discussion as to whether or not the club meetings should be continued next term, and what should be done about raising money for the club, it was decided to await a report from Esther Jeffries, the club president, who is to consider with Miss Lillian Tingle, instructor in the household arts department, the advisability of holding a candy sale. Other reports for the next meeting will be from Dorothy Poill, Gladys Anderson and Marie Myers concerning window treatment, furniture and color schemes.

TIERS BEING INSTALLED

Equipment Will Furnish Space for Fifty Thousand More Books

The installing of the two new tiers of stacks for the library began yesterday under the supervision of a workman sent by the factory from which the stacks were purchased.

It is estimated that about four weeks will be required to complete the setting up of the stacks and about two more for painting. There will be space for more than 50,000 books given by these new stacks.

Phi Mu Alpha will appear before the assembly today in its annual concert.

Henry Karpenstein was elected president of the Y. M. C. A. last night by an unanimous vote.

Seven amendments of the constitution of the A. S. U. O. will be voted upon today.

The varsity swimmers will meet the O. A. C. mermen on Friday, and Multnomah swimmers on Saturday.

The freshman wrestlers will travel to Salem during the weekend and meet the Indian grapplers at Chemawa.

The proposed plan favoring a single registration for the entire school year has been approved by the faculty.

Bishop Walter Taylor Sumner will pay his eighth annual visit to the campus next week.

LESTER WILCOX TO COACH SPRINGFIELD HIGH BOYS

Lester Wilcox, a senior in the University chemistry department, was elected coach of the Springfield high school baseball squad the past week by the board of directors of the institution. A petition was circulated by a number of students in the school asking that Wilcox be obtained as their coach. He recently finished a successful period as football and basketball coach at the same high school.
