## The Week of Weeks

Sunday. The first day of the most momentous week in the student history of the University of Oregon. Easter Sunday. In ecclesiastical circles, the first day of a transformed world. The analogy is obvious, for, within the narrow confines of one week, the Oregon undergraduates will effect a service to the University which will result in manifold transformations of student life.

At the beginning of the fourth day of this week, and in the three days following, will go forth the men and women who have been chosen to carry through the initial step in the biggest movement that has ever been planned for Oregon advancement. They have gladly assumed their task, for although it is not a debt to the University is firmly a pleasant duty to solicit pledges, that fact is subordinated in their minds to the greater vision of doing an immeasurable service to their University. They have been engulfed by the spirit of it all than you put into it and of it all than you put into it and can't get anywhere in classes in of the thing-just as the student body will be engulfed when President Campbell presents the idea at the Wednesday assem-

Wherever the Student Union plan is thoroughly understood it is embraced with avidity. The most important work of the solicitors is that of explanation. Comprehension of the Student Union vision is inevitably followed by staunch support.

This week marks the turning point in student life. For the first time in the history of the University the students are to be given the opportunity to present tangible evidence of their gratitude for what is given them in their years on the campus. It is more than that. It is the positive guarantee from the present undergraduates to the generations of students who are yet to come that their collegiate life shall have the same richness of associations, the same opportunities of acquaintanceship, the same degree of Oregon spirit.

Juniors and seniors observe that "the campus is changing." As numbers rapidly increase there is perforced sacrificed a bit flirtation with the athletic Delta. JACK: Because some of the farof the great unity, the geniality, the friendliness which has always characterized the Oregon student body. It has already, in the opinion of many, weakened the distinctive Oregon You don't mean to tell me that no the initiative and the brains to "hello" spirit. The greatest service of all which will be effected by a Student Union is the safeguarding of those traditions which would otherwise fall before the onslaught of numbers.

Can the student body fail to assume the responsibility which is theirs, that future students shall have the same opportunities to benefit by their University associations? No, they have accepted the privilege of building the Student Union. It shall over in 1924, when the small little be done.
