

SENIORS APPLY FOR DEGREES

Prospective Graduate List Numbers 210

10 SEEK HIGHER HONORS

School of Education Leads With 27 Applicants

Two hundred and ten students have filed applications for degrees and will receive them provided they satisfactorily complete all work carried now, get a recommendation from their major professors and are passed by the board of regents. This information was given out by the registrar's office yesterday.

Besides these 210, there are 10 or more seniors who lack credit in military, gymnasium, or have high school deficiencies. For this reason, their names have not been included in the list compiled by the office. Those seniors are asked to report to window seven to see about this.

Many Schools Included

The school of education leads in the number of graduates, with 27 to receive degrees. The department of English is next with 23. The school of business administration will graduate 18. The department of economics will graduate the same number. Thirteen will get degrees in journalism, and 13 in sociology. Two will graduate in chemistry, and one each in fine arts, physics, and physical education for men.

Ten have applied for masters' degrees, eight for master of arts and two for master of science.

Complete List Given

Those who are listed to receive degrees are:

Architecture, Frank Bailey Dorman, Merrill Doris Richmond, Clarence Henry Irwin, Fook Tai Lau. Fine arts, Marjorie Hazard. Normal Art, Eleanor Frances Kilham, Florence M. Moorhead.

Botany, Evelyn M. Hogue, Nellie V. Nygren, Helen E. Smith, Elizabeth Clare Yoran, Mildred G. Braaten, Edna Muriel Thorner.

Business administration, Marie Anderson, Marcella Berry, Adolph Cereghino, Paul Moves DeKoning, James Wilson Gaily, Hugh Alexander McColl, Frank C. Rice, Miriam Swartz, Walter J. Taylor, Irwin Scott Adams, Lester Sherwood Wade, Kenneth Gustin, Ray E. Harlan, Carl Jaquet, Carl Marlon Knudson, Linley Howard Lutz, Raymond J. Russell, J. Neal Underwood.

Chemistry, Frank H. Vonder Ahe, Lester A. Wilcox. Drama, Darrell D. Larsen, Katherine Emily Pinneo. Economics, Francis Altstock, A. Lot Beatie, Georgia Searle Benson, Wallace T. Cannon, Douglas T. Farrell, Clause R. Groth, C. Andrew Karpenstein, Troy Lincoln McCraw, Walter Lyle Palmer, Benjamin McDowell Reed, Herbert E. Scheidt, Mae Leone Worrell, Clarence Rowley Baldwin, Frank Godfrey Carter, Warner Barry Fuller, Richard Warner Ginn, Hugh Carlyle Latham, Moe Sax.

INTRAMURAL SPORTS DISCUSSED BY FACULTY

"Positive Menace" Says One — "Chance for Healthful Activity"—Another

By George H. Godfrey

Just now the election is the paramount attraction of campus interest, but occasionally intramural sports is a subject of conversation. The ghost has appeared in politics even, but the campus as a whole seems to have adopted a passive attitude.

Intramural sports have both gained and lost this term. Little response was shown when the call was issued for doughnut baseball teams, although some tennis was played. In track, the matter is being taken care of more or less by interclass meets.

Athletically speaking, the year is about over. When the warm spring weather comes, invariably there is a slack in sports. The call of the millrace, the lure of picnics, and a general spirit of laxity tend to slow up the campus, and only real lovers of sports, and those who put their school above all else, stick. The fact that the track aspirants dropped from well over a hundred to less than 80 when the intramural sports were abolished might be blamed on spring and again it might not.

In this article the views of two faculty members, neither of whom is actively concerned with the physical education department, or its program, are given. One is a member of the faculty of the school of journalism. One is definitely against the old program, and the old system; the other is for it, although admitting that defects may have existed.

The first faculty member looks upon the proposed program as a positive menace. Too much time of students is taken by sports, he believes. Theoretically, too, he believes that the school is so growing that athletics should be more in the background, and that it is time that a little limelight was shed on some other phases of activity, or on higher scholarship. He sees no need for the development of an extensive program as an aid to varsity teams, believing

that a man sufficiently interested will appear on the field without the urge of "brothers." The physical benefits of the intramural program are not entirely overlooked although no definite solution of the present program is offered.

The second faculty member theorizes too, but his theory takes into consideration first of all, the student himself. The reaction since the action of the interfraternity council, he believes, has definitely proved that some sort of guiding intramural program is needed, and he is of the opinion that the school of physical education is the proper body to head this. The benefits to the student are, of course, of real importance. Undoubtedly it does a man good to get out and exercise often, and doughnut sports certainly provide an opportunity. The elimination of these sports leaves nothing but the varsity squad, and since these are early in the season cut to a few men, many who love a game for the pure sport of it as well as for the "fame and glory" are left without a chance to participate. The viewpoint then, simmers down to this: The intramural program offers to many a chance to enter into healthful, enjoyable sports; strictly varsity competition offers a few a chance to battle for a "name."

It is quite late in the year to start an intramural sports agitation, but it is entirely possible that the pendulum will swing back next fall, and that a definite program, involving as before, the living organizations, will be adopted. Just what this will be remains to be seen.

It will be interesting to note how the various soon to be newly elected officers feel in regard to this subject, and when the smoke of elections has cleared, some of their views will be presented, along with those of any one who has a solution for what is certainly a campus problem.

WOMEN'S BASEBALL SEASON NEAR CLOSE

Championship Titles Among Leagues to be Soon

The women's doughnut baseball season is almost over, and the last games of each league are scheduled for this week. The championship games between the league leaders will be announced as soon as games are played off. Class tryouts are to start May 13.

All the teams in League II have finished their games and Susan Campbell, 2, is at the top with no defeats. Hendricks, 1, in League I, has played off all their games and has lost none. In League IV, Hendricks, 2, is at the top with no defeats.

The schedule for this week is as follows: Wednesday, May 7—League I—Alpha Phi vs. Thacher cottage; League III—Delta Delta Delta vs. Gamma Phi Beta; Kappa Alpha Theta vs. Susan Campbell, 1; League IV—Kappa Kappa Gamma vs. Delta Zeta.

Thursday, May 8—League I—Alpha Xi Delta vs. Thacher cottage; League III—Alpha Delta Pi vs. Gamma Phi Beta; Kappa Alpha Theta vs. Delta Delta Delta; League IV—Chi Omega vs. Delta Zeta.

Friday, May 9—League III—Susan Campbell, 1, vs. Gamma Phi Beta. All games must be played according to schedule.

LAW MAJORS TO TAKE STATE EXAMINATIONS

Seven Students to Seek Right to Practice

Seven students of the law school are planning to take the state bar examination this year. This examination which comes the second week in July is taken in addition to the one given regularly by the University. Viri Bennehoff, Mason Dillard, Eric A. Hagglund, Tetsuchi Kurashige, Ivan Phipps, Arthur Rosebraugh, and Howard McCulloch are the seven. McCulloch passed the state bar examination last year, but has spent two terms this year in completing additional work.

The examination is considered a difficult one although Oregon students have been quite successful in passing them. From the entire group applying last year, 55 out of 80 were admitted to the bar.

The average law school graduate, after being admitted to the bar, begins practice in the office of a man already in the work as certain practical details are only to be learned by an apprenticeship. Several practice courses have been introduced into the law school that to a great extent bridge the gap between professional practice and law school work. One of these is an office practice course, in which the student is taught the actual form of drawing up legal papers and leases in connection with organizations and corporations.

The annual moot court trials, which are now taking place, also are very helpful to the aspiring lawyers. The trials are carried on by seniors of the law school, just

prior to their stepping into practice, which makes them much more familiar with the court room and trials than they would otherwise be.

FIRST ROSE OF YEAR APPEARS ON CAMPUS

The first rose of the season was reported by H. M. Fisher, superintendent of the campus grounds, to have bloomed in the hedge between the art and journalism buildings. However, the rose is not on the hedge. Perhaps some beauty lover was tempted.

Bids for a sprinkler system to be installed on the roof of the Woman's building, are being received by Mr. Fisher. A pipe will extend the length of the roof, and if heated by a fire in the building, will automatically sprinkle water on the roof.

VARSITY AND FRESH TRACK TRYOUTS TODAY

About 30 Men to be Picked in Elimination Events

This afternoon, at 3 o'clock, tryouts will be held on Hayward field to determine who will represent the school at the track meets scheduled for this weekend. Sixteen varsity and at least 12 freshmen will be picked, with a possibility of more of the first year men getting a chance to make the trip to Portland.

Elimination proceedings will be staged in both track and field events at this time; although, according to Coach Hayward, the varsity and freshmen will compete separately for places on their respective teams. By having the two squads perform separately, Bill believes he will be able to judge the individual merits of first year men more fairly.

The freshman meet with the Portland schools, Friday, will be a four-cornered affair with Jefferson, Benson and perhaps Roosevelt high school, upholding the honors for the scholastic league. The meet Saturday has not yet been definitely scheduled; but if it goes through, three of the remaining high schools will compete against the first year men.

FENCING IS INTRODUCED AT WELLESLEY COLLEGE Wellesley College—Fencing will begin in earnest at Wellesley college within a short time. This institution has never tried its hand at this sport before and is the first women's college in the East to introduce it.

The Oregon Daily Emerald A Student Enterprise As a medium of expression for Oregon students the Emerald has for years tried to give to them all that could be asked of a schol paper in news and in support of Oregon's activities. This fact is reflected in the purchases made by students downtown. The merchants whose advertisements they see in the Emerald are naturally the ones that will receive their business. It is a proven fact that by regular advertising in the Emerald, a student trade may be established and maintained. That this trade is desirable is witnessed to by the class of advertising that appears in the Emerald. Only those merchants who are trustworthy, and whose goods are reliable are permitted to use advertising space. "It Pays to Advertise in The Oregon Daily Emerald"
