

CROSS COUNTRY RUNNERS ACTIVE

Possibility of Conference Meet Coming Here

IDAHO APPEARS STRONG

Hayward Issues Call for Additional Candidates

By W. J.

Another week and the Oregon distance crew will take their first regular run over the three and a half mile course. Things look pretty bright in cross country so far with no injuries, flunks, sore legs or other troublesome matters to handicap the runners. Up to now the men have merely been loping around the quarter mile track on Hayward field with a little hard running thrown in for the more conditioned.

The three and a half mile course this year is the same as last. Once around Hayward field, up past the military buildings, through the graveyard, down University street to Twenty-second, along Hendricks down Emerald street to Fifteenth. From there up the road to and into Hayward field and around it once.

Nothing definite is obtainable as yet about the date of the Pacific Coast Conference meet but this will be known for certain in a few days. Several schools are in favor of having it at Oregon and there is a possibility that it will be held here.

Hayward Issues Call
Bill Hayward sets out a call for more freshmen cross country men. Several meets will be scheduled for the freshmen and he has to have material to work with. The chief one will be the dual meet with the O. A. C. rooks and possibly a meet with the Portland high schools. "But I have to have more men out—more men who are going to go out for the half mile or mile should report to me immediately. They should go out for cross country. And they must come around at once in order to get in shape." The meet with the rooks will prob-

ably be used as the curtain raiser for the Frosh-Rook game on November 8. Any freshman who wants to try their luck and their legs and endurance should report right away to Bill—over in the outdoor gymnasium.

Few Men Out

The crew out now consists of Tetz, Keating, Carlson, Conley, Barnes, and Jeffries. Houston, one of the best aspirants for the half mile of the varsity last spring came out several days ago. He had trouble with his legs last spring term and was unable to compete, but will have a chance to show up in cross country. Gurnea, a frosh distance man from last spring turned out in a suit the other day. He is new and his strength is unknown.

Idaho, the champions of last year, show up on the cross country sky as the team that will walk away with things this fall. They have six lettermen out in suits and as many more who are working hard to break in. Idaho has been turning out some good distance men in the last few years. The jack-rabbit covered plains of Idaho seem to develop cross country men.

PLEDGING ANNOUNCED

Fsi Kappa announces the pledging of Frank Bates, of Astoria, Oregon.

ANNOUNCEMENT

A meeting of the freshman class at Villard today, 4:00 o'clock.
