

# FRESHMEN BEGIN HARD TRAINING

### Two Games This Week for Babes Scheduled

### INJURIES WRECK SQUAD

### Yearlings Will Count on Fight for Scores

Things are beginning to hum out on the gridiron where the freshman football squad practice and if last night was a forerunner, things will be going at top speed all week. Scarcely a week is left before the frosh eleven goes up against one of the strongest teams it will encounter this year and that is Columbia university, which the frosh play on Hayward field next Friday. The strength of Columbia is unknown but the teams that have come from there in the past have been good ones. This one will be a tussle for the frosh—the first of the season with the handicap of several first class men on the sick list. The prospect doesn't show up as bright as the Aurora Borealis by a long shot. It looks like it might be a frost of the first water.

**Four Games on List**  
Right after the Frosh-Columbia game the Frosh go to Marshfield to play Marshfield high school. This leaves only the two big games of the season to be played. One with the Washington frosh on November 15, at Seattle and one with the Rooks on November 8, on Hayward field.

So Baz Williams is sending his yearlings into two stiff games with hardly any offense—that has not been developed due to the short amount of time the Frosh have been out and due to the injuries sustained by some of the most promising men out. They will have to depend on their defense and try to hold down the score as small as possible. But the Frosh are going into the games with a quality that ought to make up in part for other things and that is fight. That's the thing that they are depending on in these two games.

One of the injuries that cut a hole in the Frosh team was the dislocation of Edward's shoulder last week when the Frosh scrimmaged the Varsity. Edwards was one of the strong men on the Frosh backfield. He cannot be replaced very easily.

**Squad Not to be Cut**  
Out of the 80 or 90 frosh turning out at the first of the year, the squad now numbers around 45—some having dropped out, others put out on account of sickness and injuries. The Frosh squad will not be cut as in previous years but

Baz will work with the whole bunch.

Baz is assisted in coaching the Frosh squad by Dave Evans and Pete Barto.

**Babe Gridsters Given**  
The Frosh team will probably be picked from among the following men. Quarter backs—Turner, Babb, Cushman.

Halves—Hodges, Renshaw, Makolofsky, Mangus, Studeman, Behnke. Full Backs—Wetzel and Morton. Ends—Hughes, Del Monte, Riggs, and Johnson.

Tackles — Warren, Dixon, Haggerty.

Guards—Harden, Ankeny, Burlinghan.

Center—Hedges, Kriess, and Ditz. The Frosh have spent the major part of the time they have been out drilling on fundamentals entirely. Only two nights of scrimmage has been allowed. Last night Baz Williams put them through signal running until dark. Scrimmage will follow later in the week.

### NEW PRIZE OFFERED BY CAMPUS VISITOR

Don Skene, who visited the campus last week, offers a prize of \$12 to that student who has shown the best knowledge of foreign affairs and of American journalism in connection with foreign affairs in the course of his regular work. This will not be used to start a contest, but will be awarded on the

basis of a showing made by the student's work for the year.

The winner will be announced at the time of the Emerald banquet in the spring along with the 15 or 20 other prizes, Dean Eric W. Allen, of the school of journalism, said.

## College Men now keep their hair smooth, lustrous, always in place

Today, as never before, college men have smooth, well-kept hair.

**Why?**  
A few years ago the hair was a nuisance to almost everyone, for it was usually the least attractive part of the appearance—always unkempt and unsightly an hour after being combed.

There was no way, then, to keep it from being so. Old-fashioned pomades only matted it and made it greasy. Water evaporated quickly and left it drier and more unruly than ever.

**Today everyone can have smooth, neatly combed hair**

Now Stacomb—a delicate, invisible cream for keeping the hair in place—has changed all that.

It is responsible for the amazingly improved appearance of men's hair. And it has made possible for every woman, however "difficult" her hair, the new smooth effect so much in vogue.

In clubs and fraternities, at the theatre or the game, today you can

seldom find even one case of unkempt hair.

People who know that the hair can ruin the whole appearance—people who are careful about the way they look—have given Stacomb an important place on their chiffonier or dressing table.

No matter how dry and straggly your hair may be—no matter how uncontrollable after being washed—Stacomb will keep it always in place, smooth, lustrous, natural. A touch of it in the morning when you comb your hair—and all day long your hair will be just as you want it, for Stacomb will keep it smoothly in place until you go to bed at night.

You can get Stacomb in convenient jars and tubes, at all drug and department stores. Non-staining and non-greasy. Use it tomorrow morning—and look your best all day!

Standard Laboratories, Inc., Dept. 113 W. 18th St., New York City  
Please send me, free of charge, a generous sample tube of Stacomb.
