

### MEETING OF CHURCH WOMEN'S TEAM HELD

#### Yearly Plans are Discussed And Conferences Set

The first meeting held by the Women's National Church team, which arrived on the campus yesterday from O. A. C., was a luncheon given at noon yesterday at the College Side Inn. Sixty persons attended the meeting, the University pastors, representatives from the local churches and the Y. W. C. A. cabinet being present in addition to the members of the team.

H. W. Davis, head of the United Christian work of the University, presided at the meeting and outlined the progress of the organization of religious forces on the campus. He also announced the church affiliations of the students.

Miss Frances Grennough, of Chicago, gave the main talk at the luncheon. Church officials, she said, have been accustomed to dropping in at the various colleges throughout the country at any time they may have an opportunity to do so, and it was to organize these visits that the national team was started. In this way, the speaker explained, the members of different denominations are given a sense of unity and they are enabled to make a united approach to the students.

"The team is a living example of the splendid feeling that exists today between representatives of the various denominations," said Miss Grennough. "Students are often surprised to discover that the church has a world wide comprehensive social program. This is another purpose of the team, to present the challenge of the present program of the church to the University students of today."

Another meeting was held last night at the "Y" but when Dr. Lapsley McAfee, pastor of the First Presbyterian church of Berkeley, California, spoke to a group of University women on religious work.

Wednesday, conferences will be held by the members of the team with members of their respective denominations. The final meeting of the team will be held in the Y. W. C. A. bungalow, Thursday at 4:15.

### TWO TEAMS VICTORIOUS IN DOUGHNUT LEAGUE

In the two hotly contested basketball games played yesterday afternoon the Phi Delta Theta team outplayed the Sigma Nu's and won the first game by a 16 to 8 score and the Sigma Alpha Epsilon chalked up an 8 to 1 victory over Alpha Beta Chi.

The uncanny basket shooting ability of Watson coupled with the clever floorwork of Edwards and Diamond gave the Phi Deltas the victory. Taylor and Wallace played good and consistent ball for the Sigma Nu's.

The S. A. E. and A. B. C. aggregations played close ball during the first half and most of the second until "Dinty" Moore looped a couple of baskets for points. Cook, the diminutive forward was a terror in breaking up the opponents' passes and in getting in the way of their shots. Fields, the tall rangy center of the A. B. C.'s was their outstanding man with his floor work and ability to locate the ball.

Cheering from the balcony added color to the game with the different students giving their favorite team yells and urging them on to do their best.

There will be a game this afternoon between Beta Theta Pi and Phi Kappa Psi at 4 o'clock.

### MANY LIBRARY BOOKS CIRCULATE THIS YEAR

Figures compiled by Mrs. Mabel McClain, circulation librarian, show that the books taken out from the library this year total nearly twice as many as compared with last year. The number of books signed out last week was 2254, while 1079 were recorded for the same time a year ago.

The number given out two weeks ago, 2100, almost doubles that of the same week in 1923, which was 1086. These figures do not apply to the rent books nor do they include Sundays.

Last week-end when there was a football game in Portland, the library did more business than two weeks ago when the game was at Idaho and most of the students remained in Eugene.

## Vagaries

What the University of Oregon needs most is more holidays. We have too few alarm clockless days for a college as big and strong as we are.

With the following holidays legal we can fix it so the tired senior will have but one day to work. And when we reach that high state of efficiency we start eliminating those.

Everybody on their feet for this 1925 calendar:

- Jan. 1—The morning after and the cold grey dawn. An indoor holiday.
- Jan. 5—Birth of Mack Sennett's bathing beauties.
- Jan. 9—Wedding anniversary of Nat Goodman.
- Jan. 16—Eighteenth Amendment day.
- Jan. 17—Birth of bootlegging industry.
- Jan. 26—Cross-Word Puzzle day. (Celebrated in Stillacoom).

- Feb. 2—Watch Your Locker day.
- Feb. 19—Birthday of the author of "It Ain't Gonna Rain No Mo'."
- Feb. 22—Rally day.

March 1 to 17—Reserved for celebration of St. Patrick's day. (Celebrated everywhere except in the invisible empire.)

March 21—Invention of the first telephone.

March 22—Birth of the first telephone operator and the first wrong number.

April 1—All Fools' day. (Celebrated in Wall street, O. A. C., Washington, California, and all other campuses outside of Oregon.)

April 20—Yellow Tuesday. (Modern Journalism day.)

June 10—Another wedding anniversary of Nat Goodman.

June 14—Anniversary of the first pair of goulashes.

July 4—The Fourth of July. (Also known as Independence day outside of the 12 mile limit.)

July 20—Hot dog day. (Sunday eve at local terpsichorean palaces.)

Aug. 20—Another wedding anniversary of Nat Goodman.

Sept. 1—Opening of the oyster season.

Sept. 15—Golf knicker day. Bells will ring all day for straw hats and short breeches.

Nov. 11—Armistice day. (Not celebrated as much as you'd think in Milwaukee.)

Dec. 15—Preliminary for Christmas holidays. (Celebrated everywhere except by postmen.)

Dec. 18—Bargain day. Do your Christmas exchanging early.

Dec. 19—Another wedding anniversary of Nat Goodman.

—J. L.

### JUNIORS WILL SHINE IN BOOTBLACK ROLE

The traditional annual Junior Shine day is scheduled for next Tuesday, and according to Steele Winterer, president of the junior class, shines and not daubs are promised their patrons. The money raised goes toward Thanksgiving dinners for the poor people of Eugene.

Numbered tickets will be sold for 10 and 20 cents each—10 cents for shoes and 20 cents for boots—and a prize is to be given the person holding the lucky number. Clarence Toole has been appointed general chairman, with five sub-committees. The members of these are:

Prize, Gus Moeser and Geneva Smith; equipment, Rodney Keating, chairman; Kenneth Stephenson, Jerry Gunther, Buss Byers, Wade Rutherford and Ted Mays; tickets, Bob Gardner and Carl Dahl; schedules for men, Bob McCabe, chairman, Charles Snyder, Everett Ogle and Dick Lyman; schedules for girls, Margaret Vincent, chairman, Sigrid Martinson, Constance Cleaver and Edna Murphy.

The girls in the junior class are to be costumed and will drag in the members of the campus for the shines. Everyone is asked to patronize the junior bootblacks. All those wishing nice shiny shoes Tuesday should be sure and be supplied with change.

### UNIVERSITY OF MEXICO ATTRACTS AMERICANS

#### Record-breaking Summer Session Expected

The National University of Mexico, which since 1921 has maintained a summer school for students and teachers of the United States, announces that prospects are most favorable for a record-breaking attendance next summer. Since the first session of the summer school was held, nearly every American college and university of importance has been represented among the matriculants.

The faculty of the 1925 summer school will be composed of professors of the National University, together with several prominent educators from the United States. Most of the courses will be conducted in Spanish, this being of inestimable value to students and teachers of this language. However, a number of general culture courses will be offered in English for the benefit of students having no knowledge of Spanish.

Mexico City is cooler than Denver during the summer months, being an ideal place for study. The many sight-seeking trips to be offered under university supervision will include visits to world-famed archaeological ruins, pyramids that rival those of Egypt in size and interest, and to many other places of archaeological, historical or scenic interest.

The National University is taking a leading role in the work that is being done to promote a mutual feeling of good will among the intellectual classes of Mexico and the United States, and it is through the medium of the summer school that this work is most effectually being carried forward. Complete information regarding the 1925 summer school may be obtained by addressing Sr. Manuel Romero de Teroser, secretary of the summer school, Universidad Nacional de Mexico, Mexico, D. F.

### PRE-MEDICS STUDENT GOES TO WASHINGTON

Harold Gourley, of Eugene, a student in pre-medics here last year, left early this week for Washington, D. C., where he has accepted a position with the government. While at Washington, Gourley will continue his studies in medicine at George Washington university.

During the past six months Gourley has worked as an assistant to Dr. W. H. Dale, one of the leading surgeons of Oregon. He is a skilled anaesthetician, and expects to earn a part of his expenses while in school in Washington in this way.

The government position was obtained through Senator Robert N. McNary, who was recently re-elected from Oregon. Mr. McNary is a personal friend of Gourley, and believes that he shows promise as a surgeon. The young man is specializing in surgery, and plans to return to the coast to practice.

### TRACK MEET PLANNED FOR CINDER ASPIRANTS

#### Cross Country Run With Aggies Cancelled

The first competition in fall track will be held sometime near the first of December. The meet which is planned by Hayward will not be a class affair as it has been previously, but will be merely a meet for the ones turning out for both varsity and freshmen. This is used as a means of giving the men some work before bad winter weather compels them to workout indoors.

The turnout for fall track has been large this year. Over seventy aspirants are signed up and turning out regularly. The work has consisted so far in limbering up and getting used to the pits and track on Hayward field. During the winter term the track men will work out in the gymnasium on the weights and other apparatus to keep them in condition, and to build up shoulder muscles and to give the aspirants endurance.

The cross country meet with O. A. C. which was scheduled to start before the Homecoming game on Bell field was cancelled. Bill Hayward invited O. A. C. to enter a team in the conference meet held here last Homecoming but they declined the invitation because they claimed lack of time to develop a team. The Oregon cross country team disbanded after the conference meet so that no team could be entered. Hayward decided that he did not wish to let the Oregon team enter the dual meet.

### INSTALLATION OF NEW ORGAN IS COMPLETED

The new auditorium, just being finished in the music building, was used last night for the first time when the University orchestra had its rehearsal there. The stage in the auditorium was planned especially for the use of the orchestra, according to Rex Underwood, director of the orchestra. It is built in several different heights and ex-

### Something Wrong

- Headache?
- Bach Ache?
- Eye Strain?

Don't neglect yourself. Neglect leads to serious illness. The success and growth of Chiropractic removes the cause—Health returns.

tends out to each side of the center where the new pipe organ is placed.

The installation of the pipe organ was completed this week and is now being tuned for the use of the students. The formal opening of the auditorium will be given this term, if possible, according to Mr. Underwood, but they are now waiting the completion of the room and for the installation of the seats.

### PREHISTORIC ANIMALS SUBJECT OF LECTURE

#### Dr. Arthur S. Coggeshall Will Speak Thursday

The story of the searches for remains of prehistoric animals and the methods of reconstructing them, will be told at the assembly tomorrow morning when Dr. Arthur S. Coggeshall, director of education at the Carnegie museum of Pittsburgh, delivers a talk on "Hunting Big Game in the Rocks." The assembly is at 11 o'clock in the Woman's building.

Mr. Coggeshall is recognized as a leading authority on prehistoric animal life and his reputation as a scientist has brought him honors conferred from many European universities. He was with the American Museum of Natural History in New York prior to his connection with the Pittsburgh museum where he has been since 1899.

In his search for the dinosaur Mr. Coggeshall has gone all over North and South America and Europe. He has the distinction of having found and mounted the largest known specimen in the world. It is 78 feet in length and five years were spent in excavating it.

The lecture will deal with the work of excavating the remains of prehistoric monsters and will be a study of the life of that period.

### WELL-KNOWN TENOR TO APPEAR TOMORROW

#### Riccardo Martin Has Wide Experience in Opera

Riccardo Martin, one of the world's most famous tenors and America's first great operatic tenor, will appear in concert here at the First Christian church tomorrow evening at 8:30. The concert is being given through the efforts of the Eugene Bible University and tickets, which are on sale at the Co-op and at Laraway's music shop are \$1.10 for adults and 55 cents for all students.

Mr. Martin has appeared in most of the important operas and has made several transcontinental tours as a member of the Boston Grand

Opera company. It was on these trips that his ability became known and appreciated. Mr. Martin is not only considered the leading tenor in America but he is an excellent pianist, and a composer of ability. His critics say he is a master of interpretation and he knows the secret of program building.

## The Man Who Talked At Random

He sat in the window-corner of the Pullman's smoking compartment, and breathed fatly and uttered large opinions in a suety voice. It grew late, as so often it does; and he put the quietus on a discussion with the ponderous statement.

"I don't read advertisements. They have no effect on me at all. I'd never miss them if they stopped printing 'em."

Then he glanced at his advertised watch and sought his lower-berth.

In the morning the ad-skeptic contorted himself out of his advertised pajamas into his advertised underwear, drew on his advertised socks, adjusted them with his advertised garters, got into his advertised clothes, laced his advertised shoes and added himself to the congestion in the wash-room.

There he shaved with an advertised razor, using advertised shaving cream; brushed his teeth with an advertised toothbrush and advertised dental cream, washed with advertised soap, and brushed his hair with an advertised brush. Buttoning his advertised collar on an advertised button, he neatly knotted his advertised tie, gave his advertised suspenders a tug or two, and finished dressing.

Let us leave him there, this man who never reads advertisements!

Everything worth using is advertised. Everything that isn't, rarely is.
