

TOKIO GROWING INTO NEW CITY

S. Doi, Dealer in Japanese Prints, Sees Growth

HAS FAMOUS OLD PRINTS

New York Collectors Buy Most of Stock

A new Tokio—that is what S. Doi, Japanese print dealer, who was on the campus all day yesterday—gives as his present impression of the earthquake-swept city. His shop at Number 10, Suchirocho street, has been rebuilt on the old site near a park. His wife and children and one assistant care for it in his absence in America.

However, with all the building going on, only temporary structures are permitted by the government to be built. This is because the new Tokio will not be like the old one of narrow and tortuous streets. It will have wide streets and boulevards, and straight streets, at that. Perhaps the little one near the park will be left as it is, but for the most part the city will be laid out on a definite modern plan.

Prints are Old
The prints which Mr. Doi brought with him are for the most part intended for collectors in Chicago and New York. They vary in price from a few dollars to a thousand dollars. The oldest one in the collection is by the Japanese artist Masamoru Okumura, who was born in 1704 and died in 1762.

Previous to the influx of Europeans into Japan, the Japanese went their own way in matters of art. Now, however, European standards are making themselves felt. Europeans prefer simple subjects—one or two figures in a print. The most popular landscapes are rain views, snow views and night views. With the coming of the French, English, American and German art dealers, the prints of this type were bought up, and prices began to follow the laws of supply and demand. The foreigners carried off to their countries, in this way, some of the choicest of the prints.

Famous Prints Included
Matsuzata, a millionaire Japanese ship builder, recently expended over \$1,000,000 of money made in his shipyards buying Japanese prints in France and returning them to a collection in his native country.

Hokusai's famous wave print, done in blue, white and gray, was included in Mr. Doi's prints this time. A reproduction of it was sent by him during the summer as a gift to the University school of architecture and allied arts.

Mr. Doi will go on to New York from here, and after a two-week stay in that city will return to the new Tokio, and the little shop at Number 10, Suchirocho street.

Parade Starts Tonight at 13th and Alder Streets; Big Rally Dance Slated

(Continued from page one)
The fare is \$1.80 for the round trip.

All students are urged to ride on the train rather than in automobiles.

"The road to Corvallis will be extremely crowded and slow moving," said Dean Walker yesterday. "Also, it's a case of 'United we stand, and Divided we fall.' I hope every one will make the trip by railroad."

At Corvallis no one will be admitted to the Oregon rooting stands without Oregon rooters caps, the committee announced yesterday.

Ancient Animal Life is Discussed at Assembly By Geology Authority

(Continued from page one)
an aid to gathering food when the animal's short neck prevented it from bending.

The speaker declared that horses originated not in Asia but in North America. In this connection, he said that fossils discovered in the John Day valley had helped materially in tracing the history of this animal. The horse, it was pointed out, developed from a five-toed to a one-toed animal by a long process of survival of the fittest.

The work of the Asiatic expedition was discussed by Dr. Coggeshall who told of some of the findings of the party.

Stories of interesting discoveries by geologists were related. A story was told of a Russian expedition

discovering a mammoth that had fallen into an ice crevice about 25,000 years ago and had remained intact throughout that time. The animal served as a great aid to scientists for not only was a fine specimen of the animal obtained, the speaker stated, but by examining the contents of the animal's stomach information was also gathered as to its food and of the vegetation existing at that time.

Preceding the assembly a resolution of condolence on the death of Morrison Miller was adopted by the student body.

Randall Jones, A. S. U. O. president, addressed the meeting and explained the postponement of the sophomore informal.

A parade of the O. A. C. beaver guarded by several Order of the "O" men was a signal for a great outburst at the opening of the meeting.

Doughnut Debate Ends With Hendricks Hall, Alpha Beta Chi Winners

(Continued from page one)
the Zeta Kappa Psi cup for the ensuing year.

The debates last night were the deciding contests to determine the victor in the women's doughnut league and in the men's doughnut league. Preliminary debates were held last week and the first of this week to eliminate all but three teams in each league for the finals. The next doughnut debate that will take place will be between the Hendricks hall teams and the Alpha Beta Chi teams.

The question argued last night is the same that is being discussed by the varsity squads. It is resolved that the Japanese exclusion act be amended to admit Japanese on the same basis as Europeans are admitted.

The affirmative team of Hendricks hall is composed of Margaret Clarke and Leona Williams; the negative being upheld by Alta Knips and Aline Buster. The Alpha Beta Chi teams are Wilford Long and Max Robinson, affirmative; Elam Amstutz and Eric Norman, negative.

The debates held this year were the most closely contested of several years, according to the judges. A special debate was held Wednesday night to run off a tie between Delta Zeta and Susan Campbell.

This year was the first year to see the use of one judge to make decisions in the preliminary debates. The final debates were judged by three faculty members to each contest. It is the belief of the debate managers that the one judge debates will be used in the doughnut contests next year.

America is Provincial Says Dr. L. McAfee in Talk About Europe

(Continued from page one)
of the national church team.

In addition to the talk by Dr. McAfee, a report on the work of the campus Y. M. C. A. cabinet on the convention of western young men at Asilomar, California, was given by Bart Kendall. Interest in the affair is keen among the men of the campus, said Kendall, and the cabinet is certain to raise the quota of 15 delegates assigned to the local association.

HIGH SCHOOL FRESHMEN CLASS TO PRESENT PLAY

"Great Minds in the Making" is the title of a play which will be presented by the freshman class of the University high school at the regular assembly Friday afternoon. This play, which was written by members of the freshmen class, deals with an old time country school, in which the members of the faculty of the campus high school were pupils. There are about 20 in the cast. Mrs. Edna Assenheimer is directing the production.

OXFORD DEBATE TEAM DEFEATED BY MICHIGAN

Before an audience of 1,000 people the Oxford debating team was defeated by the University of Michigan team, one of whose members is Gerritt Demmink, assistant professor in debating and written English here last year. Demmink has returned to Michigan to complete his course in law and is active in forensics.

The audience cast the votes that made the decision and the ballot stood 1247 to 500.

The question for the debate was that of prohibition, Oxford holding that prohibition suppresses individual rights while Michigan held that the evils of alcoholism justified their repression.

Information concerning this debate was sent to Mr. Rosson, Oregon's debate coach, by Professor C. D. Thorpe, formerly of Oregon, who is now completing work for his doctor's degree at the University of Michigan.

He described the Oxford men as being free and easy, very witty and clever and prone to enliven the debate with a good joke once in a while.

CASEY, HALL TO ATTEND HIGH SCHOOL CONVENTION

Professors Ralph D. Casey and Robert C. Hall, of the school of journalism, will attend the second annual District Press Association meeting to be held this afternoon in the senior high school, McMinnville, Oregon. High school delegates from McMinnville, Woodburn, Gervais, Newberg, Dayton and Molalla high schools will meet to discuss their papers, and plans for improving them.

A GOOD PLACE TO BOARD

Home cooking served home style. It is hard to beat good home cooking on a steady diet, isn't it? Conveniently located at 813 13th E. We have room for a few more. Try us for a week and rest your pocket-book.
