

VARSITY TENNIS WITHOUT COACH

Students Act in Capacity
Of Mentor At Present

FREE INSTRUCTION GIVEN

Practice Will Continue If
Weather Permits

The varsity and freshman tennis aspirants are covorting around the new courts and prospects for a championship contending outfit are looking bright. The only obstacle in the way at present is the lack of a coach for this sport.

However, this department is being taken care of at the present by "Red" Heber, winner of the fall tournament, and George Meade, runner up in this same meet. Mead won the campus championship last year. Heber played for a junior college in California last year and was an outstanding player for his school. He is expected to be the leadoff man for the varsity this year and will probably turn in many a win.

Coach Will Be Appointed

A coach for this sport will be appointed within the next two or three weeks according to the physical education department. At present no outstanding candidate is being considered but it is rumored that several men are striving for the position.

Practice will continue with the good weather, however, and when a new coach is appointed his work will be made easier for him as the men will be in pre-season form and ready for the yearly grind.

Tennis Taken for Credit

The physical education department is cooperating in this move, and a large number of students are taking up tennis in place of their regular gymnasium work. This move is expected to put more players in the field for the team tryouts besides exciting student interest in this form of exercise. Students sign for three hours of work a week, and tickets are given gratis. Free instruction from able department assistants is also on the program for these students taking tennis for credit.

Individual instruction will be given to all trying out for both the varsity and freshman teams besides the men taking it for credit. Proper form in serving and returning will be stressed during these early periods and the rule of "follow the ball" will be kept.

TEMPORARY POSITION OFFERED BY BUREAU

A temporary position is open for anyone who has had experience in ex-service claim work, according to word sent to the campus Y. W. C. A. by F. L. Armitage of the United States Employment Service.

"It would be a great accommodation if someone who has a few hours and has had experience in this line of work to offer his assistance," Miss Florence Magowan, secretary of the Y. W. C. A., said yesterday. The position is open to either a man or a woman who is competent to fill it, and Miss Magowan asks that the applicant report to her.

**DR. SPAETH OF PRINCETON
GIVEN HONORARY DEGREE**
Dr. Duncan Spaeth, professor of English at Princeton, well known to many Oregonians through his presence here at a number of summer sessions, has just received the honorary degree of doctor of letters from the University of Pittsburgh, according to information received from Mrs. Mabel McClain of the library.

**ASSISTANT PROFESSORS
GRANTED VOTING POWER**
Assistant professors were granted the right to vote in faculty meetings at the last meeting of the board of Regents held March 14. Voting power has heretofore been confined to full and associate professors. This act increased the voting power of the faculty about 50 per cent.

**MISSING HAIR RECORDED
IN LOST AND FOUND BOOK**
Harvard—Harvard maintains a lost and found book to help the students. An observation of the book shows that recently a student of Radcliffe lost her back hair in lecture hall. Someone wanted to know if she were asleep at the switch.

DEAN REBEC NOTIFIED OF SCHOLARSHIPS AWARDED

Dr. George Rebec received notice recently that the Society for American Field Service Fellowships for French universities has made its awards for the year 1926-1927. Those obtaining the scholarship are: William E. Byrne, Rensselaer Polytechnic Institute and Université de Paris; John S. Cromelin, Princeton university and Ecole des Beaux Arts; Earle M. Erlich, Rutgers university, Université de Bordeaux, and Université de Dijon; William M. Gwynn, University of California and Université de Paris; Lansing C. Holden, Princeton university and Ecole des Beaux Arts; Chandler D. Ingersoll, Columbia college and Columbia university; Raoul M. May, Leland Stanford, Harvard, and Université de Paris; Oscar V. Petty, University of Kentucky and Columbia university; William L. Smyser, Harvard and Université de Paris; James R. Ware, University of Pennsylvania; and John B. Whitton, University of California and Université de Paris.

GIRLS' NEEDLE WORK SHOWN AT BUNGALOW

Foreign Hand-made Articles Placed on Sale

Samples of needle work done by girls who are students in schools in Estonia and Russia, are on display at the Y. W. C. A. bungalow where they will be for the remainder of this week.

Façsimiles of the hand-made articles may be purchased by leaving orders with Miss Florence Magowan, secretary of the campus Y. W. C. A.

The display includes collar and cuff sets, towels and aprons of linen embroidered in bright colors and hand-hemstitched; a pair of knitted gloves in bright colors and trimmings for dresses and blouses.

The work is neatly done and many of the patterns are in cross-stitch, similar to the popular designs of this season. Miss Magowan urges that everyone who is interested come and see the samples. She will be willing to show them to the visitors whether or not they wish to make any purchases.

Hilda Howard, formerly of Seattle, who is secretary of the Y. W. C. A. in Estonia at present, and who is being supported by Y. W. C. A. organizations in the northwest, has sent the samples here. The students who have done the needle-work are supporting themselves by selling their work. The articles are not high in price, Miss Magowan states.

CHI SUNG PIL, '25, WEDS KOREAN GIRL IN HAWAII

The marriage of Chi Sung Pil, '25, now connected with Honolulu Y. M. C. A., was announced in a letter recently received from Pil by Mother Donnelly of the local hut. He was married March 7, to Miss Aggie Chung, daughter of a prominent Korean businessman of Waialua. "The union," says a newspaper clipping from Honolulu announcing the event, "is the romantic sequel to an acquaintance begun in Honolulu last summer when Pil visited here to pitch for the Korea baseball team from Korea."

Poison Oak Remedy ANNOUNCED BY DOCTOR

Precautionary Treatment Given At Dispensary

For the purpose of warning students against the danger of contracting poison oak, Dr. G. A. Ross, University health service doctor, yesterday issued a statement as to the best means of preventing and treating the poison. It is particularly important to be on guard against it at this time of year, since so many people will be in the woods on picnics and hikes, and the poison oak shrub will be leafing out soon.

The toxin of the poison oak shrub is a volatile oil, and it is not always necessary to come into actual contact with the shrub in order to be afflicted by it. This is especially true of those persons who are particularly susceptible to it. It may be acquired from the smoke of camp fires, from water in the woods, or even from passing through a poison oak infested district, according to Dr. Ross. Boiled water only, should be used for washing purposes while in the woods.

There are several simple precautions recommended by Doctor Ross which he says are usually effective.

If one is contemplating a picnic in the woods it is best to apply a solution of soda to all exposed parts of the body. Soda mixed with water to a sort of putty is best. This applied before entering the woods, then washed off with soap and water on return and another application made, will usually prevent poison oak.

The dispensary has a mummurizing fluid, which if taken internally or by a hypodermic usually proves effective. Doctor Ross recommends this treatment to everyone contemplating a hike or picnic. Doctor Ross urges the students to cooperate with the health service in preventing poison oak as near as possible and asks everyone who acquires it to report at once at the dispensary for treatment.

GROUNDS OF CAMPUS WILL BE IMPROVED

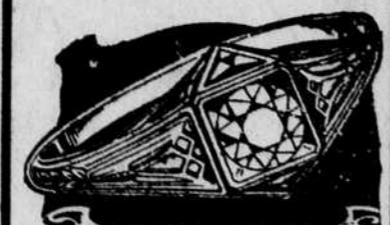

Preparing ground for the planting of flowers has kept University ground employees busy the past week spading between University and Onyx streets and south of the extension building on University street.

Chrysanthemum and wild aster bulbs have been planted on the fourth acre strip back of the University depot tool house, and dahlias and aster seeds placed in the ground near the extension building. These flowers are planted largely for the use of the resident halls' tables later in the spring, explained Mr. Fisher, superintendent of grounds.

Work on grading of the parking along Kincaid street near Oregon building, and the ground around and in front of the Y. M. C. A. hut has recently been completed.

As soon as the weather becomes a little warmer seeding of these grounds to grass will be commenced, said Mr. Fisher.

CHICAGO HONOR MAN JOINS LAW FRATERNITY

The faculty of the law school has been enlarged this term by the addition of Milton T. Hunt, an honor graduate of the University of Chicago law school, and a man well recommended by Dean James Parker Hall of that school.

Mr. Hunt was graduated from the University of Illinois in 1919. For a little over two years he practiced public accounting. Then he attended the law school of the University of Chicago, and ran an accounting office in the afternoon during the three years he was there. The last year previous to his arrival at Oregon Mr. Hunt has been practicing law in Los Angeles.

FACULTY SHOWS DUMBBNESS IN TEST OF INTELLIGENCE

Newcomb College—Young women of Newcomb college, after coming out badly in an intelligence test, challenged their faculty to a similar test. The girls were surprised to know that Al Jolson is a wrestling champion, that Filet Mignon is an opera by Puccini, brilliantine is a preparation used by young women (and otherwise) to make their eyes shine. All of which means that one's judgment of dumbbells depends upon the viewpoint of the person.

TAPPER WITHDRAWS TO ACCEPT POSITION

Edward Tapfer, a senior on the campus and a member of Bachelor's fraternity, has withdrawn from the University. Tapfer has been very prominent on the campus for several years. He was chairman of the Greater Oregon committee, senior man on the executive council, chairman of the Associated Students finance committee, and a member of the Associated Students publications committee. No arrangements have been made as yet to fill the vacancies made by Tapfer's withdrawal from school.

Tapfer is now traveling for the Western Farm and Mortgage company.
