Tennis Courts and "Hoss Sense"

WITHIN the last two years the student body has expended a considerable sum on the construction of new tennis courts for the avowed purpose of increasing facilities for greater participation in the sport.

Many more courts will have to be constructed to care for the increasing demand, however, if the new block continues to be conducted along present lines.

Last year players who had enjoyed an hour's pleasure with raquet and ball were required to offer up their places if anyone was waiting.

Vile Stuff That,—Poison Oak

ALTHOUGH the last two or three days have been lowering and dripping wet the warning issued from the University Health department, that "the poison oak will get you if you don't watch out," is not so untimely as might seem on first thought.

Out in the hills bright green-red leaves are bursting from sombre jackets, sticky and rank. They are rather pretty, those leaves, and one is reminded of the young co-ed who "rashly" bounced in with an armful of the awkward stuff and suggested its use for decorating the spring term formal.

Results from infection by poison oak toxin are no "smiling" affair, as the experienced and chastened will sadly testify. The trend of medical practice is more and more toward prevention rather than cure after contraction of disease.

Educational campaigns advocating prevention through caution however, are of little benefit without the cooperation of the students themselves. They have shown themselves willing in this respect during two ticklish times this year, once when there was serious danger of a spread of small-pox, and, more recently, when an epidemic of la grippe threatened.

Of course, there is little point in making a big fuss over poison oak, which is not usually serious beyond the discomfort suffered by the afflicted. It may not be amiss, however, since the course in botany is not required, to point out to the canny contemplator of out-door expeditions the advisability of making a "howing acquaintance" with the "vile shrub" and learn to give it the "cold shoulder" on subsequent encounters.

A fraternity at O. A. C. has installed a laundry. Do they intend to "clean up" the alleged bad conditions so often advertised as existing in present day college life?

Cheer up, Senior men! It's all over.

Communications

Letters to the EMERALD from students and faculty members are welcomed, but must be signed and worded concisely. If it is desired, the writer's name will be kept out of print. It must be understood that the editor reserves the right to reject communications.

SMOKE HEREAFTER!

To the Editor: Just now there is a petty fuss up about violating the Oregon tradition of smoking on the campus—and where there is so much smoke there must be some fire! Or perhaps some one may be fired for smoking!

There's no doubt that the smoker has some rights, that smoking is essential to the recreation of certain individuals. There is no question that smoking should be done in the dry—not out in the rain.

But as far as smoking on the campus as a whole is concerned—well, a tradition's a tradition, for one thing. Then there's more than that. Some people are violently opposed to the use of tobacco, and those people pay taxes to pay the cost of operating the University. They believe that smoking is harmful, and any step to encourage it in their eyes is wrong.

Then to many the odor of tobacco is distasteful. Many students would not like to study in smoke infested rooms, and the blue haze actually makes some peoples' eyes smart.

In spite of allegations to the contrary, cigarette stubs and empty "Camel" packages would litter the campus to a great extent if smoking were permitted. This alone should be a very good reason.

Let's smoke, but not everywhere! LUCKY TARRYTON.

CALIFORNIA EXTENSION PLANS Y. W. CLASSES

The National Training School of the Y. W. C. A. announces, in connection with the University of California summer session at Berkeley, California, two extension courses—one in Girl Reserve leadership and the other in leadership in town communities. The dates are June 22-August 1, 1925.

The object of this course is to give the fundamental principles of work with younger girls, as found in the Girl Reserve movement of the Y. W. C. A.; to provide practice in the various activities, and to help show the value of club movement as a process of informal education and as a character building factor in the life of a teen age girl.

The History, Purpose and Philosophy of the Girl Reserve Movement of the Y. W. C. A., Principles of Program Planning, Principles of Adult Guidance and Girl Initiative, Training in Technique, Special Projects and Demonstrations—Art Appreciation, Ceremonies, Out of Door, Music.

braska favor the extension of the examination system because examinations furnish an incentive to produce the best effort, because they give the student a view of the whole course in its proper perspective, because they exercise and improve the memory, because they furnish data for a study of individual differences and because they are the best measure of the student's knowledge.

HOLY WEEK SERVICES TO BE HELD ON CAMPUS

Christian forces and organizations on the campus are making plans for appropriate observances of Holy Week, the week preceding Easter.

There will be meetings each night from Monday to Friday. The first four meetings will be held in the Y. W. C. A. bungalow from 7:15 to 8:00 p. m. They will consist of special music and brief talks by one of the city pastors on themes connected with the last week of the life of Christ.

It is also planned to make Easter Sunday, April 12, a special "go to meeting" Sunday, upon which all students will be urged to attend the church of their choice.

CORRECTION

Due to a typographical error, a statement in the Emerald yesterday morning stated "... at a meeting yesterday noon, of Virgil Earl, athletic director, Dave Adolph, manager, and varsity letterman." The last word should have read "lettermen," thus conveying the meaning to the reader that lettermen attended the meeting, and not that Dave Adolph is a varsity letterman.
