

# FRESHMEN EXCEL IN SWIMMING ART

Athletic Clubs and Y. M. Held Responsible

## LIFE SAVING IS TAUGHT

More Babes Swim This Year Than Last

The freshmen may be considered the underdogs by the sophomores but they can justly defend themselves in the art of swimming. According to records recently compiled by Rudolph Fahl, swimming instructor in the school of physical education, a larger number of the present freshman class could swim upon entering the University than the present sophomore class. The freshman test consists of two lengths of the tank on the stomach and one-half on the back, free style.

**Frosh Beat Sophomores**  
This year's freshman class had 438 men when school started last fall. At the end of the winter term, March 20, 1925, it was found that there were only 67 who could still be classed as non-swimmers. This made a percentage of 15.3 who could not swim, out of a class of 438. This is about 1.3 per cent greater than the per cent of sophomores who could not swim, although they have had a year's instruction. At the end of the past winter term, 513 sophomores were taking physical education, and it was found that only 44 could be still classed as non-swimmers. This makes a 14 per cent of sophomores who were unable to swim.

It is the belief of Fahl that the Y. M. C. A.'s, summer camps for boys, athletic clubs and other such organizations can be responsible for the large number of excellent swimmers. Another thing that has helped is the fact that nearly every small town or city has a municipal pool of its own with a paid instructor during the summer months.

**Life Saving Taught**  
Red Cross Life Saving instructions are given by the University of Oregon's Red Cross Life Saving Corps. This is being done under the auspices of the physical education department. A large number of the swimmers take this life saving course and find it very profitable in acting as life guards during the summer months at some of the bathing resorts throughout the state. The physical education department believes that it will be only a matter of a few years until all men entering the University will be expert swimmers.

## VISITING EXECUTIVE TO TALK AT ASSEMBLY

Dr. Aurelia Henry Reinhardt, president of Mills college at Oakland and president of the American Association of University Women, who will be on the campus next week for the Woman's League convention, is considered by Dean Virginia July Esterly to be the foremost woman of the West.

"Dr. Reinhardt is probably the most representative woman the West has ever had," Dean Esterly said yesterday when asked for an estimation of the visiting president. "She speaks remarkably well and is in demand as a public speaker."

The whole student body will have an opportunity to hear Dr. Reinhardt at next week's assembly, when she will make her first appearance since she made the dedicatory address for the Woman's building about five years ago.

Dr. Reinhardt is a graduate of the University of California, but received her degree as doctor of philosophy at Yale in 1905. She received a LL.D. degree at the University of California in 1919. She has been connected with the English department at the University of Idaho and taught also at the Lewiston (Idaho) State Normal school. She has been president of Mills since 1916.

## Inter-mural Baseball Begins Wednesday; Game Schedule Out

(Continued from page one)  
and Friday evening, a formal dinner will be held at the Anchorage. A formal dance, in charge of Pauline Bondurant, will follow, at the Woman's building, Saturday morning, the delegates and a few hostesses will leave for the McKenzie river, where they will picnic at Nimrod, returning in the early afternoon. Registration hours will be from

8:30 to 10:00 Wednesday morning. Business sessions will last from 8:30 to 11:30, and from 1:00 to 3:30. As many girls as care to hear the discussions are invited to attend the business sessions which will be held in the Woman's League room in the Woman's building.

Oregon delegates will be Anna DeWitt, junior; and Edwina Richen, senior delegate.

## CO-EDS DEMONSTRATE NEW GROCERY PRODUCT

Eight University girls, members of the advertising seminar group, are demonstrating Creme-O-Blend, a substitute for corn starch, at local stores this week-end. They began their work yesterday afternoon and are continuing their demonstrations today. Kap Kuhn, head of the seminar, is acting as sales manager of the product in Eugene. Creme-O-Blend is being introduced to Eugene buyers for the first time.

Eugenia Strickland and Geneva Foss are working at the Dice grocery, Margaret Vincent and Mildred Dunlap at the Edwards grocery, Mildred Berkeley and Frances Sanford at the Grocerteria, and Norma Wilson and Sybil McKnight are demonstrating the product at the Underwood and Elliott store. Creamed crab and tomato soup are served to patrons of these grocery stores.

## PROFESSOR WILCOX LEAVES FOR EAST

Will Attend Architecture School Convention

Professor W. R. B. Wilcox, instructor in the school of architecture has left for the east, where he will attend the American Institutes of Architecture convention to be held in New York city. The convention which is an annual one, will be bigger this year than ever before. A large exhibition of work of various architects and students of architecture throughout the country will be shown at the convention in the Palace of Fine Arts, this university being represented by the work of five of the students whose drawings were sent back last week. Mr. Wilcox is a member of the Jury of Fellows of the association and for that reason has had to leave early for the convention whose opening date is April 24.

Dean Ellis F. Lawrence of the school of architecture and allied arts is vice-president of the association, but was unable to leave because of recent illness.

Mr. Wilcox will also attend the Convention of Collegiate Schools of Architecture which meets just prior to the Architectural Institutes convention. He expects to be gone two or three weeks.

## KLAMATH HIGH PRINCIPAL LAUDS OREGON DEBATERS

In a recent letter to Dr. Dan E. Clark, of the extension division, the principal of the Klamath Falls high school writes that he was among the thousands who listened in to the Oregon-Stanford debate. "Is casting my vote for the University team," he wrote, "I want to say the Oregon boys did much better than the Stanford men. Another interesting point, too, is that radio KGW of the Morning Oregonian came in much better here at Klamath Falls than radio KLX of Oakland."

## RADIO MEN TO STUDY FOR COMMERCIAL JOBS

Preparation of men for commercial radio licenses will be the object of a new group being formed in the physics department. Four men interested in the work met at Duddy hall Thursday afternoon under the direction of Paul Hoppe to discuss plans. It is thought that the class will probably meet in the evenings, beginning some time next week. Another meeting of this group will be held early next week, and those interested in commercial operating are requested to be present.

## RECENT CAMPUS VISITOR PROMOTES OIL COMPANY

Word has been received by the geology department that Dorsey Hagar, a recent campus visitor, is promoting a petroleum company in western Washington. Mr. Hagar, who is recognized as an authority on oil and gas, has written two books on the subject, which are used as college textbooks. In his recent visit to the geology department he came to consult as to the possibilities of oil in eastern Oregon.

## HOCKEY TOURNAMENT ROUND ROBIN AFFAIR

All Star Teams to Play Game on Field Day

Women's hockey will be played in round-robin tournaments between the four classes this season, according to Miss Barbara Page, coach. The tournament will begin May 18.

Official practice is scheduled to begin April 27 and to continue until May 15. A minimum of six practices is required of all except senior majors in the physical education. Four practices will suffice for these girls. Unofficial practice may begin at once, it has been announced. Girls should go out on the field and play with the classes in this sport for practice. Regular classes in hockey are given on Monday, Wednesday, and Friday at four o'clock.

Teams for the tournaments will be chosen May 16 by Miss Page, coach; Ruth Melsome, head of hockey, and class managers.

Two all-star teams will be selected from the class teams to play a special demonstration game as an event of Field Day.

Girls should sign up for this work at once so that they may begin working off their required practices. A special chart has been placed in Miss Page's office for this purpose. There is a separate sheet for each class. It is further requested that girls signing for this sport designate the position on the team for which they wish to try out.

## RUSSIAN EDUCATOR EMINENT SCIENTIST

Dr. A. A. Goldenweiser to Teach in Summer

Dr. Alexander A. Goldenweiser, anthropologist, author, and sociologist, will be a member of the University summer school faculty at the Eugene session this summer running from June 22 to July 31. His home is in New York, having been a member of the faculty of Columbia university for many years. In the summer session of 1923 Dr. Goldenweiser was professor of anthropology at the University of Washington summer session.

Born in Kiev, Russia, he was educated in the Kiev gymnasium. He was a student at Harvard in 1901-2. He received his bachelor's

and master's degrees from Columbia. In 1910 he received his doctor of philosophy degree from that institution.

Since 1919 he has been a lecturer on anthropology and sociology in the new school for social research in New York. Since 1915 he has been a lecturer in the Rand school of social science in anthropology and psychology. He is a public lecturer and has written books and articles. He is scheduled to speak in one of the assemblies at the summer session.

## Nine Houses Will Vie At April Frolic For Loving Cup

(Continued from page one)  
Ulrich, cleanup; Edith Sorenson, cup; Elizabeth Cady, publicity; Lillian Luders, stage manager; Mary Donaldson, food; Marian Horsfall, patronesses.  
Assistants to those committee heads are, Noreen Burke, Elizabeth Latham, Louise Buchanan, Katherine Kubli, Edith Shell, Mary Clark, Mabel Fransen, Barbara Edmunds, Alta Knips, Florette Janelle, Billie Shields, Helen Coplan, Myra Belle Palmer, Alice McKinnon, Virginia Lee Richardson, Eleanor Glass, Katherine Graef, Doris Kendall, Alice Douglas, Ellen McClellan.

## OREGON MEN TO MEET STANFORD TRACKMEN

Hayward Takes Athletes On Southern Trip

This afternoon, under the warm California sun, the Oregon trackmen will vie with the Stanford runners, leapers and throwers in the first Coast conference meet of the year. Oregon is conceded but a slight chance for victory, but Hayward's men are expected to pile up a tidy sum of points.

A team of 19 men accompanied Bill Hayward on the trip south. The experience gained in this competition is expected to stand the men in good stead in the meets to be held during the season.

The men participating in the Stanford meet are: Wistar Rosen-

## EXCELSIOR GETS GAMMA PHI'S GOAT

MARY CAUGHT IN A PLAYFUL MOOD

Mary was a little goat. She belonged to Gamma Phi, and upon her they did dote. Until the goat did die. Bah, Bah, Bah.

Now comes our story. The Gamma Phis were feeding their goat, Mary, a very palatable diet of nice fresh hay, but the cost was found to be prohibitive. So, as all the sisters had become deeply attached to their quadraped garbage incinerator, Lillian Tingle Luders originated the idea of mixing excelsior in Mary's fodder. The only trouble experienced in this experiment was that the goat died—the poor little dear. Lillian is very sorry that the goat died, because she wanted to find the exact amount of nutrition contained in excelsior. Obak extends sympathy to the Gamma Phis.

## MYSTERY SQUEAKS OUT

Obaks wishes to correct the erroneous impression that the noise on the southwest corner of Willamette and Ninth is caused by the "squeak" from collegians' English brogues. Obaks is remodeling. Such symphonies which issue forth are the rhythm and beat of the saw and hammer—But at that—the gang hangs around and plays a little pool.

## KAMPUS KOLLUM

Smoking on the campus has caused a great deal of trouble at the University lately, but the boys at Obak's still are able to put on their smoke screens without any interference.

The April Frolic will be staged tonight, which means that the boys will have to spend a no date evening at Obak's. The annual Obak's April Frolic pool tournament will start promptly at seven thirty.

Just think, a Frosh court. The only court necessary for Frosh is a good cold mill-race or a solid oak paddle.

## Your New Hat Dress and Necklass

This year Easter necklaces are fashion's supreme dictate. A supplement to your new hat and dress, it will add a touch of color and sparkle to your fashion ensemble for Sunday morning.

Chokers of crystal, pearls (both white and tinted) and amber still lead in popularity. Nowhere could you find a better assortment from which to pick than here.

## The Greatest Historian Of Them All

Homer wove history into his songs. The Pharaohs carved it in stone. Julius Caesar painstakingly penned it on papyrus.

Today, history is written and given to you simultaneously with its occurrence. Every day, the important events of the world are summed up fully and comprehensively in your newspaper. You are able to keep abreast of history in its making.

And not the least important phase of modern history lies in the realm of industrial progress. You find this chronicled in the advertisements.

Advertising is a priceless boon to those who use it properly. It keeps their information up-to-date on the great variety of things that make life what it is today. It tells them of the thousand and one things they need in order to live profitable, happy and useful lives.

The consistent advertiser pays money to tell you about his wares. He knows they are good—he backs them with his money because he is confident that they will satisfy. For only merchandise that is consistently good can be consistently advertised.

KEEP UP WITH HISTORY—IT PAYS  
READ THE ADVERTISEMENTS
