

SOCIETY

By Lylah McMurry
PHONE 851

At a cleverly arranged table at the Alpha Chi Omega house on Friday during the dinner hour, the engagement of Miss Norma Jean Wilson, daughter of Mrs. Viola Wilson of Portland, was announced to Rupert Bullivant, son of Mr. and Mrs. J. Bullivant, Jr., also of Portland. There were little dolls to be used as covers for powder boxes at each girl's place while two larger dolls coming under an archway, were placed in the center of the table. A soft glow was cast over the room from the little doll lamps by which the room was lighted. Snapshots of the couple were the means of conveying the news of their betrothal.

Miss Wilson is a member of Alpha Chi Omega and is affiliated with many honorary organizations including Mortar Board, Theta Sigma Phi, Sigma Delta Pi and Kappa Alpha. She is a senior in the journalism department. Mr. Bullivant is a senior and is a student in second-year law. He is a member of Sigma Nu, Delta Theta Phi and Phi Beta Kappa.

The Osburn hotel was transformed into a Dutch garden on Saturday evening when members of Delta Gamma held their formal dinner dance there from 8 o'clock until 12. A number of cunning Dutch posters and wind-mills were used in the rooms and tulips on the tables.

Patrons and patronesses were Mr. and Mrs. L. C. Smith, Mrs. Katherine Yerex, Mrs. Virginia Judy Esterly, Mr. and Mrs. W. F. Osburn, Mr. and Mrs. Lewis C. Bean, Mrs. Grace Russell, Mrs. Harriett Wright and Prof. and Mrs. F. S. Dunn.

Saturday afternoon between the hours of 3 and 6 and in the evening from 8:30 until 11:30, members of Kappa Alpha Theta held open house, in the afternoon for town folks and in the evening for students and faculty members. The rooms were lovely with spring flowers.

In the receiving line were Miss Eloise Buck, Mrs. F. N. Boyer, Mrs. John Bovard, Mrs. George Fitch, Mrs. Edgar Sensesich and Mrs. A. McCurtain of Portland. Mrs. David Graham and Miss Norma Hendricks assisted about the rooms. Mrs. Frederick J. Clark gave several vocal solos during the reception hours.

The Chi Omega informal on Saturday evening was a Dutch dance, given at their chapter house. Many wind-mills of different sizes were used about the rooms together with various colors of tulips. Guests for the dance included the Chi Omega sisters who intend to enter the University next fall.

Mrs. Leila Woodring, Mrs. Virginia Judy Esterly, Mrs. Simpson and Mrs. Marsh were chaperons.

A cabaret dinner-dance was enjoyed Saturday evening by members of Friendly hall and their guests. Palms and greens made a background for the dancers while tulips formed the center-piece for the tables. The lights were shaded with pink.

Mr. and Mrs. Carlton Spencer were patrons and patronesses.

The Anchorage was the scene of an informal supper dance given by the underclassmen of Kappa Kappa Gamma on Saturday evening. The rooms were effectively arranged with spring flowers.

Patrons and patronesses were Mrs. Claude Eldridge, Mrs. Leticia Mowrey, Dean and Mrs. Eric Allen, Mr. and Mrs. Campbell Church and Mr. and Mrs. James Scriptures.

With the arrival of sunny weather, the number of activities that claimed everyone's attention during the past week seemed far too many, but now that the Student Union Drive, Glee Club trip and orchestra concert are over, those who were connected with those organizations may rejoice in their success and freedom. On Friday evening, all other affairs were sacrificed for the class parties but, Saturday evening, with the victory of the Student Union Drive foremost in the minds of all, the whirl of social affairs started anew.

COLLEGIUM AUGUSTALE MAY BECOME NATIONAL

The merging of the local honorary classical organization, the Collegium Augustale, into Pi Sigma honor society, a national organization, is a matter now under discussion. Two communications have been received from the president of Alpha chapter of Pi Sigma, at the University of California, the last of which inclosed a copy of the constitution and by-laws of the organization, and urged that the matter be taken up.

The question of affiliation with

the national group was considered last year by members of the Collegium Augustale, but it was felt that it was desirable to first obtain local organization.

Hayward Picks Frosh For Meet; Annual Meet With Rooks This Week

(Continued from page one)

fourth respectively. The half mile went to Ross in the time of 2 minutes and 10 seconds. Hewlett, Howe and Peterson finished in that order.

The mile was fairly fast. Kelly finished strong in 4 minutes and 43.4 seconds. Only two other men ran, Jamison and Anderson, who finished in that order.

The four men will be entered in meet with exception of the milers—only one will be entered in the medley relay. The Frosh-Rook relay carnival will include the 440, 880, mile, two mile and medley relays. The last composed of four men running 220, 440, 880 and a mile respectively.

FORMER UNIVERSITY MUSICIAN TO RETURN

George Hopkins Completes Two Years' Study

The successes of George Hopkins, former student and instructor at Oregon, in New York during the last two years are of special interest to Oregonians, since it is known that he is to return to the University in the fall. A letter has just been received from New York, telling of Mr. Hopkins' achievements.

His study in piano has been with Ernest Hutcheson, who is considered one of the greatest teachers in the world today, as well as a very successful concert artist.

Mr. Hopkins' early rise in the field of composition is reflected in the appearance of his "Waltz Burlesque" at Mischa Levitzki's recital in Carnegie hall this March. Mr. Hopkins was the only American composer represented on the program. Following Levitzki's performance of the waltz, Mr. Hopkins was asked to broadcast over WEAF. In addition to a recital on April 27, he will broadcast over many middle western stations before leaving New York. His "Waltz Burlesque" will be published by Schirmer this summer and recorded for the Ampico reproducing piano, and he has just completed several other numbers, among which are the "Scottish Gavotte," "Three Dances" in classic form, and "Scherzo" for piano, and "Theme and Variations" for stringed quartet.

It was Mr. Hopkins' original plan to remain in New York one season only. However, having won a fellowship in piano and composition through competitive examinations given by the Quillard Musical Foundation, training with the finest teachers was available for two years.

Mr. and Mrs. Hopkins are leaving New York on May 21 by way of Cuba and Panama for Southern California, where they will spend the summer before returning to Oregon.

CUPID INVADERS RANKS OF UNIVERSITY ALUMNI

Cupid has been having a good time in the ranks of Oregon alumni, shooting arrows in all directions. Last Wednesday night, Dorothy Schmeer and Leo Goar, both ex-'24, were married in Portland. Mrs. Goar is a member of Gamma Phi Beta and Mr. Goar, whose home is in Hillsboro, is a member of Phi Gamma Delta. Several students went to Portland for the wedding.

Elsie Fitzmaurice, ex-'20, of Condon, Oregon, and Henry W. Dickerson, ex-'15, of Portland, were mar-

At the Theatres

THE LOWELL — Eugene's greatest achievement, will soon be realized with the opening date soon to be announced and the Pacific coast premier presentation of Gloria Swanson in "Madame Sans Gene," (Madame Devil-May-Care.)

THE REX—Last day: George Gibbs' widely read novel, "Sackcloth and Scarlet," with Alice Terry and star cast in a dramatic picturization of two sisters who both loved the same man; Al St. John comedy, "The Iron Mule," a laugh with a kick in it; International News Events; LeRoy DeVaney in musical accompaniment to the picture on the mighty Wurlitzer.

Coming: "Another Man's Wife," with James Kirkwood, Lila Lee, Wallace Beery, Matt Moore and Chester Conklin; Richard Dix in "Two Many Kisses."

ried last Thursday at Walla Walla. Eugenia Page, ex-'25, who is living in Maplewood, New Jersey, has announced June 30, as the date of her wedding to Holt Metzger of Chicago. Miss Page left the campus in her sophomore year. She is a member of Alpha Phi.

Ariel MacQueen of Portland announced her engagement to Hanover Deady, grandson of Judge Matthew P. Deady, one of the first regents of the University and founder of Deady hall. Hanover Deady attended the University law school.

History of Mt. Multnomah Told by Dr. E. T. Hodge

Lure and Beauty of Region Described in Articles

"Mountains, like men, sometimes lose their heads. Thus, like men, they may lose their heads due to the explosive forces of internal passion. For instance, Oregon's greatest mountain once suffered this catastrophe and stands, today, a gaping crater ten miles in diameter," wrote Dr. Edwin T. Hodge, professor of economic geology, in telling the history of Mount Multnomah. This article, which occupied practically an entire page of the feature section of the Sunday Oregonian, is the first of a series on Oregon geology prepared by the members of the faculty of the geology department of the University. These articles will appear in the Oregonian each week.

"The history of Mount Multnomah is fascinating," writes Dr. Hodge. "This history has been worked out in such careful detail that every stage of its development, from a period of over 10,000,000 years ago down to the day before yesterday, can be translated from nature's pages of stone. Visitors to this area can read this history for themselves, for it is plainly written and apparent to all after the key to the situation has been given. If this area contained only the enormous caldera of Mount Multnomah it would still remain one of the great monuments of nature."

"If the Sisters region did not contain such natural wonders, it would still be the playground of Oregon," he continued, "because of its scenic beauties and the facilities it affords for out-of-doors pleasure. In the high, dry atmosphere of the park one may play both summer and winter. In the winter one can snow-shoe, ski, toboggan and skate. In the summer many mountains, all decidedly different, call alike to the veteran mountaineer or to the beginner making his first climb. There are glaciers, forests, mountains, volcanoes and lava flows to explore. No single area in the United States is so accessible and contains more natural wonders, more beauty, or more opportunities for fun and sport."

CLASSIFIED ADS

WANTED—Two orchestra men who can also do light vaudeville, to travel this summer. Flat wage. State instruments; give personal qualifications. Box 532, Heppner, Oregon. A-28-30

WOMEN AND GIRLS wanted for the summer and fall fruit canning season, commencing about June 1. White for particulars. Libby, McNeill and Libby, The Dalles, Oregon. A-28 M-5

LOST—Biography of E. T. A. Hoffman by Walter Harich. Printed in German. A valuable library book. Please return to Rose McGrew, Oregon building or the library. A-28-29

'OLD OREGON' FOR APRIL TO APPEAR TOMORROW

Warren DuPre Smith Has Article on Geology

The April issue of "Old Oregon" will be off the press tomorrow. The cover is a picture of a group of Oregon girls on horseback, taken under campus trees. In addition to campus news, alumni news sports and poetry, there will be a story by Warren DuPre Smith, head of the geology department, on "Training the Modern Geologist."

C. N. Reynolds, '14, secretary of the medical school, is the author of an article entitled "A Survey of Race Relations." Mrs. George T. Gerlinger, regent of the University, gave the dedicatory address at the opening of the new music auditorium, and her address will be in the new alumni magazine. Mrs. Gerlinger is also the author of an article on the "All-Oregon 1925 Expedition" to be given in Portland next October to benefit the Art Museum fund. The introductory speech of Dean John Landsbury, of the music school, will appear.

Lost alumni names are given in "Old Oregon," and a special plea is made to turn in news of these ex-students before the new alumni directory is published. Medical school gossip by Bertha Hallam, librarian, is to be found in the new issue. The sports department is written by Web Jones, and the poetry is under the direction of Margaret Skavlan.

DAVID HUSTED 'UP FOR' MOOT TRIAL TONIGHT

Accused is Charged with Promoting a Lottery

Accused of setting up and promoting a "lottery" on the campus, February 25, David Husted will be "tried" this evening in moot court at the county court house. He will be defended by Attorney Howard McClaffin, and James Ross will act as the state's attorney. All are students of court practice in the law school.

Husted, on the day of the Oregon-O. A. C. basketball game, is said to have drawn up a paper on

which were numbers ranging from 30 to 100 representing the final score of the game. He sold chances at twenty-five cents each and the person holding the winning number was given the sum collected for all the chances minus ten per cent which went to Husted.

Both Husted and his attorney refuse to talk on the case; but, it is said that considerable effort and money is being put forth in preparing the defense.

Ross, prosecuting attorney, declared today that he has evidence showing that Husted is a regular double-dyed villain of the up-to-date movie type and beyond a doubt guilty of unlawful extraction of money from poor, unscrupulous law students, who invested their term fees in the lottery.

DR. W. D. SMITH LAUDS CLIMATE OF OREGON

Temperature and Humidity Held Important

We should stop apologizing for our climate, particularly our rain. In Western Oregon it is our greatest asset," said Professor Warren D. Smith, in an article which appeared in the January number of the Commonwealth Review of the University of Oregon.

That temperature and humidity are of extreme importance in their effects upon a civilization is a well known dictum in geography. It is admitted "that peoples who live in

regions of excessive rainfall, low barometer and high temperature are lacking in energy; and on the other hand, those who live under the reverse conditions are handicapped; while those who live where there is a medium and varied climate have the greatest energy and also the greatest degree of civilization."

Southern England and the northern portion of the Pacific slope are named by Ellesworth Huntington, an eminent research geographer, as the most favorable climates in the world. The mean annual temperature for the state is 49 degrees

Fahrenheit, which is considered to be about the most favorable for physical and mental efficiency. The average rainfall for the Willamette valley is 40 inches, which, he points out, is by no means excessive.

Professor Smith, in his article "Physical and Economic Geography," in the Commonwealth Review, has given, in collaboration with Professor A. E. Caswell, the scientific reasons for the good climate Oregon possesses. With the collaboration of F. F. Henshaw, he also gives the hydrography of Oregon.

Gay Colored Neckwear Is Very Smart

There's hardly a color that isn't represented, unless it's dull. English Foulards, Blazer Stripes, Jacquard, Magadors, American Silk. Fine Neckwear and a great assortment. Smart Shirts too.
