This year we have on display NEMO-FLEX, the Newer Corsetry, including corsets and girdles for all figures, combinations and a variety of handsome brassieres. Women of the slender type will be pleased with the new Nemo-flex girdle (illustrated) a little closed-back model. Light boning and sections of Variolastik webbing over the hips give needed control, while gracefully and comfortably smoothing out the figure. Clasp-front. Active women will appreciate the new Nemo-flex Brassiere. It has a reinforced section which controls the diaphragm and elastic inserts so placed make a universal waist-line. Back section is made long with garter extensions which produce a smooth, unbroken line. Back closing. Made of handsome brocade. Nemo-flex Combinations conform with the modern woman's demand for simplicity in dress. They comfortable achieve the slender curves of the mode, while flexibly molding and controlling the figure.
