CADET PARADE TO END R.O.T.C. WORK FOR TERM

Cadets enrolled in the University R. O. T. C. department who have delinquencies of any kind in their work, will be expected to remove them as soon as possible, if they expect to receive credit for the work, according to Captain Frank L. Culin, executive officer of the R. O. T. C. department.

A communication, dated May 12, 1925, to all of the instructors of the R. O. T. C. department is as follows:

"Memorandum to all instructors of this department: All instruction in this department for the academic year will close with the parade on May 24."

"Examinations, if any, will be conducted on Wednesday and Thursday, May 27 and 28. Term grades will be handed to Sergeant Agule not later than Friday evening, May 29."

"Cadets who have delinquencies, either incompletes, unexcused absences, or tardiness, should take notice of this date," said Captain Culin. "There will be no provision for the removal of incompletes for past terms, or of unexcused absence and tardiness during the current term after May 28, until the opening of the fall term. Even one unexcused absence will result in a grade of incomplete, if not made up, and incompletes must be made up by five hours of extra work next term."

WEIMAR BUND ENJOYS BACH MUSIC PROGRAM

Enthusiastic Audience Requests Musicals

One of the most successful musical events of the season took place Monday night when Mr. Wellington Sloan, at present on the faculty of the school of music, played for the Weimar Bund in alumni hall of the Woman's building. The program, which was to have been entirely devoted to the works of Bach, was augmented by the "Funf Stucke" of Arnold Schoenberg, the modern Viennese composer. A short biographical sketch of Bach was given by Miss Matilde Liebelt, one of the members of the club.

Mr. Sloan introduced the "18 Kleine Praeluden," and the great "Prelude and Fugue in A Minor," with many illuminating and often amusing comments, stressing the fact that Bach is not difficult of comprehension to even those who have never before heard him, provided they listen with a simple love of the beautiful. The music of Schoenberg, which is of the extreme modern school, was played not only as a surprise and contrast but also because in Mr. Sloane's estimation, he is a legitimate successor of Bach's.

The audience, which numbered almost a hundred, was most enthusiastic, and many requests were made for another musical of a similar nature in the near future.

in the name of the furnishing fund. The letter follows:

"A few days ago, I deposited in a savings bank, \$654.50 in the name of the furnishing fund of Student Union building at University of Oregon. This is half of the proceeds of a joint lecture series given by faculty of the University and of Reed college in Portland last winter. The half of proceeds going to Reed college went into the Richard Scholz Memorial fund. The half belonging to the University was placed in the account mentioned above. Whatever it lacks in interest and principal of reaching the \$1,000 mark, when needed, I will add. For at the time of the first Student Union drive, I pledged to raise \$1,000 toward the furnishing of the men's lounge room.
