"The Strangest Story of Romance and Adventure Since the World Began"

Peering over the high cliff the lovers saw an astounding spectacle. Hundreds of dinosaurs as big as 15 elephants, flying monsters the size of an aeroplane, animals believed to have been extinct 10,000,000 years ago. Screaming, snarling, snapping with monstrous jaws, clawing, fighting, battling their way into the deep waters of a brackish lake, only to face death by undersea monsters.

Closely the lovers clung together, awed, breathless at the sight none had ever before witnessed. As you will hold your breath in awe at this miracle of the movies.
