**Y. W. WILL ENTERTAIN AT TEA ON THURSDAY**

A tea for all university women is being planned for next Thursday afternoon from four to six at the Y. W. C. A. bungalow. New students are particularly urged to come and get acquainted. All of the plans for the year are not completed but there will be a great many activities according to Miss Florence Magowan. The Y. W. C. A. is also planning with the Y. M. C. A. and the local churches for a very successful "church night" tonight at the various churches.

The membership work will not be undertaken for at least a few days. However, any girl who is interested in becoming a member will be welcomed at the bungalow any time. There is no fee.

Although a majority of these graduates did not take the new six-year law course, Dean Hale pointed out, the tendency in that direction is shown by the large number of students who registered this year. **Nine To Receive Degree**  
The records revealed, according to the dean, that only two doctor of jurisprudence degrees were conferred last June, but indications this year are that nine will receive this highest degree. Additional evidence is shown by trend of new students registering for the com-

part of the law school faculty that students take more general work before entering the law school proper. Demands of the legal profession today show that too much preparation cannot be made.

"It is safe to say that failure to guide and direct study is the weak point in the whole education system." Prof. G. M. Whipple, U. of Michigan.

"The successful men in college do not seem to be very happy. Most of them, especially the athletes, are overworked." Prof. H. S. Canby, Yale.

"Misdirected labor, though honest and well intentioned may lead to naught. Among the most important things for the student to learn is how to study. Without knowledge of this his labor may be largely in vain." Prof. G. F. Swain, M.I.T.

"To students who have never learnt 'How to Study,' work is very often a chastisement, a flagellation, and an insuperable obstacle to contentment." Prof. A. Inglis, Harvard.

"HOW TO STUDY" will show you how to avoid all misdirected effort.
