

FENCING FOR WOMEN OFFERED THIS YEAR

Duelists to Receive Credit For Work in Sport

Women's classes in fencing will be held this term at four every-day, and at two o'clock on Tuesday in the Woman's building, under the direction of Mr. W. C. Davidson.

This is the first year, the instructor points out, that fencing has been given for credit. Under the class arrangement for the fall term regular gymnastics are given twice a week, and for the third hour of the week, members of the gymnastic classes may choose swimming, volleyball or fencing. So far about 45 girls have signed up for the fencing classes. Other students wishing fencing instruction will be admitted to the regular classes.

"Fencing," Mr. Davidson said "is the fairest sport. To the weak and strong, tall and short, it offers equal chances. It is very beneficial for the development of co-ordination between muscles and mind."

Mr. Davidson explains that, contrary to current opinion, it is not strength that counts but delicate speed. Practice is the keynote to success.

The equipment consisting of the foil, mask for the protection of the face, and plastron, a padded jacket, is furnished by the physical education department. All of this equipment comes from France, as it is not made in the United States. During recent years there has been considerable revival in the instruction of fencing, resulting in a heavy demand upon the manufacturers of the equipment. Last year when the sport was introduced at Oregon, the department was forced to wait several months for the fill-

ing of its order. Mr. Davison attributes this revival to the growing realization of the value of fencing, which ranks next to swimming in its all-around development, and to the romantic nature of the art.

Unofficial duels may be arranged between members of his classes and those of other institutions. Last year Lea and Margery Horton met unofficially fencers of Multnomah club of Portland, where Mr. Davison received his training.

MEMBERS OF DEMOLAY PLAN CAMPUS SOCIETY

Members of the Order of DeMolay will hold a luncheon at the Anchorage Thursday, October 15, it was decided at a meeting of the order yesterday afternoon. Tickets will be placed on sale next week and a large attendance is expected, as there are estimated to be 150 DeMolays attending the University.

An executive committee of three was appointed to propose a name and constitution for the organization the campus members plan to start. This committee will also make the arrangements for the luncheon.

Joe Frazer, former president of a campus organization of DeMolays, told of the work done in previous years by that society, and spoke of the opportunities in the future for such an organization.

DENTON T. BURDICK

A distinguished visitor for the Idaho-Oregon game Saturday will be Denton T. Burdick, of Redmond, speaker of the House of Representatives in the last legislature.

Dick's Men Prepare for Week End Struggle; Positions Are Shifted

(Continued from page one) last year. The rest of the backfield will probably include Vic

Wetzel, who hasn't been mixing in since he strained an ankle in the first part of the week, but who will be in shape by Saturday; Beryle Hodgen and Otto Vitus will play halves. Vitus has developed a lot of speed after taking off about ten pounds of surplus fat. Louie Anderson and George Mimaugh will work at quarter and Locomotive Jones will fill the full back berth.

Dills Fine at Guard

The find of the season was Bill Dills at guard. That is going to complicate matters on the line for another good man to fill the position will necessitate some shifting around. The line this year has changed. Two fast guards are needed with speed as the main requisite. Dills seems to be fitting in the position to perfection.

Some other new men are coming to the front with surprising regularity. Frank Riggs at end will make the men who have been playing the wings work better than they have before to hold the position. He is 170 pounds of fight. Charlie Falk, another candidate who was showing up well, was laid up with an injured heel Tuesday night. Bob Mautz and Shern Smith, the veterans will probably start the game. Ick Reynolds, who played a fine game last Saturday, has been out with an injured leg.

Line is Promising

Ken Bailey resumed his place in the lineup last night at guard after a lay off of ten days. This puts the guards as the strong part of the line with Gene Shields, Ken Bailey, Walt Socolofsky, Hal Harden, Bill Dills, Francis Quinn and Harry Leavitt capable of handling the position.

The tackle position is the toss up between four of the best aspirants on the field. Bert Kerns, Al Sinclair, Bert Gooding as the three veterans. John Warren, Homer Dixon, Harold Mangum from last year's Frosh are playing on the first string regularly. Arley Marsh from the benchmen is also mixing in more than he ever did before.

Center is between Carl Johnson and Nick Carter. Carter will probably alternate regularly with Johnson in the game. Carter, a new man this year, has developed a wonderful pass. He has been going good so far.

The new jerseys of the varsity were broken in last night. They are dark blue with white stripes around the sleeves and large white numerals on the back.

The team begins this afternoon the tapering off for the coming game. The scrimmage for the week is over and more time will be spent on signal work and working up the new offense.

Will you take a wise bird's advice?
