

EXPERIENCES IN ORIENT FILLED WITH THRILLS

Phil Bergh Returns After Three Months Tour

Phil Bergh, a junior in the School of Business Administration, has returned to the campus, after having spent nearly three months aboard the freighter West Nomentum, on the North China run, satisfying his wanderlust and gaining a clearer idea of shipping and foreign trade conditions.

Mr. Bergh spent nearly a week in Shanghai just after the uprising there, and states that 19 men of war from the various nations were in the harbor to keep down further disorder. The shipping strike with England and Japan was broken during his stay there, the event being one for celebration.

A friendly attitude is held in China toward American shipping, according to Mr. Bergh.

In Dairen, a Japanese art exposition, colorful in its native customs and designs was visited. Being interested in art, Mr. Bergh made water sketches and photographs of what he saw, and collected souvenirs from places visited.

Some rough weather was encountered off the coast of Korea. A typhoon passed within 50 miles of the West Nomentum.

After leaving Portland, the first stop was at Nagoya, Japan. Kobe was the next port, and from there the course went through the Inland Sea and Moji Strait, across the Yellow Sea to Shanghai. Stops were made at Tsingtao, Taku Bar and Dairen, before crossing the Sea of Japan to Otaru, then through Hakodate Strait to San Francisco, and back to Portland again.

Mr. Bergh describes his trip as being "just one long thrill," but expresses appreciation of being back on American soil again. He is visiting at the Phi Kappa Psi house for a few days, but will not resume his University work until winter term.

CLUB FORMED TO RAISE ART BUILDING FUNDS

With the beginning of the One Thousand Club drive, the third step in the All-Oregon Gift campaign which is being conducted for the purpose of raising a fund for the erection of a state art building, has been successfully launched.

This club will consist of one thousand members who will contribute one hundred dollars each.

Those who have already contributed and have consequently become members of the One Thousand Club are Mrs. Gertrude Bass-Warner who made the first gift; Mr. Sam Bass Warner, second; Ralph Budd, of the Great Northern Railway, third; and Mrs. W. F. Jewett of Eugene, fourth. This new step in the drive which is being launched by Mrs. George Gerlinger is for the purpose of raising a sufficient fund to build the first unit of the prospective structure and will be a memorial to the late President Campbell.

The cornerstone will be laid at the semi-centennial anniversary of the University of Oregon in the fall of 1926.

The first step taken in the statewide campaign was a series of letters sent out which brought in approximately \$8000. The second was the All-Oregon Exposition which was sponsored recently in Portland and will probably be repeated again next year.

NEW MEMBER ADDED TO UNIVERSITY STAFF

Miss Vera Hansen, graduate of the University of California, southern branch, arrived here last Friday to join the University of Oregon staff. She is instructor in fine arts in the school of architecture and allied arts.

The new instructor has had two years' teaching experience. While in college she specialized in life work and design, receiving the degree of bachelor of education, with secondary art credentials.

Miss Hansen has had varied experience in designing, and has taught ninth grade boys with success. A fine sense of refinement is present in her work, according to those who have seen it.

Miss Hansen will conduct classes in life, drawing, design, bill and poster, color theory and applied design.

MEDICAL SCHOOL HAS LARGE ENROLLMENT

There are 229 students registered at the University of Oregon Medical school at Portland for the fall term 1925-26. This figure includes

regular enrolled students, specials and graduates. Thirteen women are competing with the men in preparation for the medical profession.

The enrollment according to classes shows the freshmen with 71, sophomores 59, juniors 44 and the seniors with 51. Two women are registered in the freshman, junior and senior classes and three women are sophomores. Three women are signed as specials and one as a graduate.

DR. PACKARD STUDIES FOSSILS IN CALIFORNIA

Bones Of Pleistocene Age To Be Examined

Dr. Earl J. Packard of the geology department returned Monday from eastern Oregon and northeastern California where he has spent some time in studying fossilized bones recently discovered in Surprise Valley, near Cedarville. Dr. Packard brought back with him some bones presumed to be of a great camel which roamed the lake regions of eastern Oregon half a million years ago.

The bones found are of animals which lived in the geological period known as the Pleistocene, possibly at the time when great bodies of ice were covering most of northern Washington, according to Dr. Packard. These animals, dying on the edges of the lakes, left bones which were buried in the mud and fossilized, Dr. Packard said.

The deposits of fossils were first brought to the attention of Dr. Packard by James C. Stovall, a geology major, when he entered school this fall. Mr. Stovall's stepfather, Dr. Charles E. Leithead, who is very much interested in the work, sent a number of fossils to Dr. Packard that he collected this summer.

The best preserved specimens brought back by Dr. Packard are two toe bones of a huge camel, a tooth, probably of a great cat, and a heel bone which might be that of a horse.

I expect these discoveries to add an important chapter to the history of ancient mammalian life in Oregon," said Dr. Packard Monday. "These bones which I have must be thoroughly studied and measured and a great deal of work before we can definitely tell to which age they belong."

NEW SPORT WILL BE INAUGURATED MONDAY

Speed-Ball Combination Of Three Other Games

Campus athletic aspirants will have the opportunity of showing their versatility next week when a new game will be inaugurated.

Speed-ball, a combination of soccer, football and basketball, will make its appearance at that time.

This game is played under rules of its own. These rules, however, are taken from parts of the three sports.

When two teams lineup to play, the first thing done is to kick off. From this point if the ball is in the air it can be passed like a basketball or taken for a ride like a football. But when it strikes the ground the rules of soccer takes preference until some player catches the ball in the air.

This game is being started here by E. F. Abercrombie, swimming coach. He says it is one of the fastest and most versatile of athletic games.

Freshmen in the department of physical education for men will give the new sport its baptism next Monday. Other students are expected to take to the game after they have spent a few hours watching the first-year men try to rush the ball down the field.

Ground work of soccer is one of the most important phases of the knowledge of speed-ball. Coach Abercrombie says. Knowledge of running with a ball, as in football, and the ability to pass to a man on your team, such as in basketball, are also important.

LATIN CLUB ELECTS OFFICERS

Election of officers for the Latin Club was held Wednesday evening, October 14, at the first meeting of that club this year. The officers chosen were as follows: Francis F. Pover, president; Helen Anderson, vice president; Tyra Rylander, secretary; and Alice Gibson, treasurer.

Prof. Frederick Dunn, instructor in Latin, gave an address welcoming the new members of the club. The next meeting will be held Wednesday, October 28.

"NATION" EXTENDS TIME FOR CONTEST

Students wishing to submit accounts of their summer work for "The Nation's" Student-Worker prize contest will be allowed an extension of time. Manuscripts will be accepted up to November 1, instead of October 15, as previously announced.

The contest is open to graduate and under-graduate students, who were enrolled in some college or university in the spring of 1925, and worked as laborers two months in the summer of 1925. Contestants must give name, class and college, name and address of employer, and dates of employment.

The following prizes will be awarded: first prize \$125; second prize, \$75; and third prize, \$25.

Manuscripts must be typewritten and not over 4,000 words. The article winning first prize will be published in "The Nation." Winners will be announced and prizes awarded not later than January, 1926.

NATIONAL FRATERNITY TO MEET IN PORTLAND

Sigma Xi Gathering To Be Held Saturday

Sigma Xi, national honorary science research fraternity, will hold the first meeting of the year at Portland, on Saturday, October 24. At this time, the Portland school of medicine will be host to all Sigma Xi's in the state.

Dinner will be served to the visiting members at the Portland medical school at 6:15 p. m. Saturday. Those who wish to attend are asked to assemble at the University club at 5:45, in order that they may be given free transportation from there to the medical school.

Prof. O. F. Stafford, head of the chemistry department, retiring president of Sigma Xi, will deliver his presidential address on some subject connected with chemistry.

Dr. W. P. Boynton, head of the physics department, who is making the plans for the meeting, asks that all those members intending to go from Eugene communicate with him at once, so that transportation from here to Portland can be arranged.

ANNOUNCEMENT
All men in the University not affiliated with an organization who desire to tryout for places on a campus basketball team to enter the doughnut league are asked to meet at the men's gym at six o'clock today for practice.

MEMORIAL TO BE HELD FOR LATE PRESIDENT

Student Service Is Set For November 22

Student memorial services will be held for the late President Prince L. Campbell in the Woman's building at 4:30 Sunday afternoon, November 22, Dean Virginia Judy Esterly, chairman of the committee in charge of arrangements, announced yesterday.

Because many students were unable to attend services at the time of the president's death, this memorial has been arranged especially for them.

The music for the occasion will be furnished by the University orchestra and choir under the direction of Professors Rex Underwood and John Stark Evans.

Judge Lawrence T. Harris of Eugene will be the principal speaker and Walter Malcolm, president of the A. S. U. O., will give a short student tribute.

The assembly committee and the commencement committee under the direction of Dean Esterly have arranged the plans for the service.

FORMAL TEA FOR DEAN

All campus women as well as faculty women and faculty wives are invited to the formal tea given this afternoon between 4:00 and 6:00 in Alumni hall in honor of Dean Esterly. This tea is an annual affair sponsored by Women's League for the purpose of acquainting Dean Esterly with new and old campus women. Freshmen are urged to attend as the tea is principally for their benefit.
