#### **A Fellow** Student Mourned

The student body mourns the death of Alfred P. Goss, sophomore in the University, killed Saturday in a fall from the grandstand on Multnomah field shortly before the start of the Oregon-California to the boy's assembled friends.

To those of us that knew Alfred and knew of him as a splendid factor in our Pomona College which was founded in 1887. community the accident seems doubly incredible. We cannot bring ourselves to realize that a young man filled with rich promise was living one moment and the next instant snuffed out of this life with such utter violence.

While we are almost inclined to pretest what has taken place, we know, all of us, that a Power must be caring for things as they should be cared for.

To the boy's mother and father and two brothers, those who must suffer the most, Oregon students extend their most sincere sympathy.

#### Don't Rock The Ship

Oregon's athletic ship went to Portland last Saturday. Incidentally the unusually hard weather battered the old vessel until all the emergency pumps were going at a great rate. A south wind anticipated as no zephyr and probably as a high gale, turned out to be a bald

Although during the storm the ship's anchor chain broke, the sails came flopping down, the rudder disappeared, and a few other minor accidents took place, it must be chronicled that every one of the eleven men on the crew, entrusted with the ships' care, did his best. Not once did any of them falter or lose heart-

Furthermore it must be recorded that every one of the several thousand wellwishers from the home port who watched from shore never lost faith, lent splendid encouragement, and never turned away

until the seas had subsided. The ship is back in the home port for renovation. Repaired and reinforced it will sail South, come back home, and finally sail North for the last trip of the

present year. The outcome of the Saturday buffeting was disappointing to Oregon people. No matter-all should look forward to the matter—all should look forward to the and reserving space in the college year book prizes ahead, determine to win them, and if they fail to recover that average. not rock the boat in the meantime.

If all is not well when the storm season is over, look well into the causes. For the present, when the ship must

sail, and with departure imminent, sit tight and don't brew any more storms than are on schedule.

#### Student Owned Automobiles

Student automobiles in a great many college are causing the authorities all sorts of grief. One University has suffered a strike because the cars were forbidden. Another is annoyed at the decrepit and disreputable appearance of the 'tin-ctans' as they are called.

#### SEVEN SEERS

#### **Grand Petition**

SEVEN SEERS GRAND PETITIONS TO THE AMPHIBIAN CLUB.

Newly Organized Girls' Swimmers): We, the Seven Seers, in august assemblage convoked, do hereby petition, ask and entreat your most careful consideration to the end that you grant to the aforesaid Seers a local charter, together with the privileges entailed or involved in such grant. We do urge the serious consideration of this petition upon the follow-

That such an affiliation will promote fraternal fellowship and brothely love-something we feel we are in need of at this particular time.

That such affiliation will widen the scope of both the Amphibian club and the Seven Seers. And with the strength of union, the new organization will be able to forage into newer and mayhap greener fields.

We have always been in sympathy with the aims and purposes of the Amphibians and have for some time taken a keen, friendly interest in two darling little amphibias belonging to our neighbor. Further, we have not missed a Mack Sen-

nett picture for upwards of five years.

The Seers have always been in favor of closer and better association of the various fraternities, and are all in favor of fraternal love and all that sort of thing. However, with the necessity of keeping Sinbad out of mischief and jail, and the press of details coincident with running a beauty contest, the Seers feel they have been missing something. With the helpful assistance of the Amphibians it is hoped that we can come nearer to a spirit of fraternal love and at the same time develop a good back-hand.

Considerable objection was raised at first by Sinbad. He said he didn't know what the name meant and that it sounded like a Russian custom or a Spanish sneeze, and demanded a definition of the word before he voted. Our chairman-Olaf-smiled in that ingenious, disarming way of his, took a pinch of snuff and a Funk and Wagnalls and read: "Living on both land and water; living a double life."

"SHUCKS," SAID SINBAD, "I'VE BEEN TRYING TO BE AN AMPHIBIAN FOR OVER 25 YEARS. WHEN DO WE GET UNDER WAY."

EVOLUTION

There is nothing in this evolution. If there was, Freddie's Martin's forefinger would have been a baton long before this.

#### TO THE SEERS (Apologies to Walt Mason)

I've heard about the famous Seers, I've heard they are the bunk. Somebody said they had long ears, another said they punk. They say they cannot prophesy—they have no seery ways -but if the poor eggs make a try, don't they deserve some praise? Now tell me in the Emerald sheet just who'll write up the bunk, if all the Seers pick up their feet and leave in one big chunk? We'll have no one to tell "You're wrong," when the boys don't win for us, so let's don't cuss the Seers too long, or make another fuss. Let's feed 'em all the same old stuff and say the junk is great, and if their line ain't up to snuff, we'll give 'em all the gate.
