

## AMUNDSEN DUE HERE IN JANUARY

Sherwood Anderson To Give  
Lecture in February

MEN NATIONALLY KNOWN

Concert Series Committee  
Sponsors Events

Roald Amundsen and Sherwood Anderson, both outstanding world figures, will appear in Eugene this winter to give lectures, it has been definitely learned from Wilbur Hayden, A. S. U. O. concert series chairman. The dates have not been set as yet; but Amundsen will probably come during the latter part of January, and Anderson some time in February.

These men will appear as a part of the plan of the committee to bring three world-famous persons to the campus this year aside from those scheduled to appear on the regular concert series. An effort is being made to bring David Starr Jordan, chancellor emeritus of Leland Stanford University, and noted authority on evolution and zoology, to the campus also. Dr. Jordan returned last week from an extended trip in Hawaii, and as yet nothing has been heard from him regarding his plans.

### Anderson Popular Writer

Sherwood Anderson is one of the most widely read and discussed fiction writers of the day. His recent book, "Dark Laughter," is enjoying widespread popularity and is listed as one of the "best sellers" everywhere. Its popularity among the students at the University of Oregon is shown by the long waiting list of names now at the library.

Roald Amundsen is at present in New York City, where he recently arrived from Europe. Discoverer of the South Pole and noted for his arctic explorations, he is perhaps the most famous living explorer.

### To Fly to North Pole

Amundsen attracted the attention of the world last summer when he made an attempt to reach the North Pole by airplane and was lost for several weeks. He recently announced his intention to make another such attempt soon.

Wilbur Hayden, of Eugene, is chairman of the committee in charge of the A. S. U. O. concert series, which is working with the free intellectual activities committee composed of faculty members and headed by Dr. Warren D. Smith of the geology department.

### KLEP POSTPONES MEETING

The meeting concerning plans for the new campus publication, which was to have been held last night, was postponed until after the Thanksgiving holidays, according to Rolf Klep, chairman of the committee in charge.

## EXHIBIT OF WOOD-BLOCK PRINTS HAS UNUSUAL ARTISTIC MERIT

Mrs. Bertha Lum's exhibit of wood-block prints, which is now being shown in the art gallery in the art building was made after the Japanese method and expresses all the unusual, fine qualities of art by which it is characterized.

So full of pattern, so fine is the rhythm, so perfect the design, that practically every piece is a work of exquisite taste. Mrs. Lum is not a realist, as is evidenced by her pictures of the Three Wise Men. She is a poet who works with colors instead of a pen. She expresses dreams of fantasy, fairy tales, and

mystery, with ethereal grace and simplicity. Her portrayal of the Wind Sprite has such airy grace that it almost seems the picture is alive.

Again in Mother West Wind, she has successfully depicted the old tale of how the west wind, just before sunset, calls in her little breezes and takes them home behind the purple hills.

And above all, the remarkable technique of the artist is evident. Beauty and softness of line is an outstanding feature through practically the whole of the collection.

### Coming Events

Important Meeting of Ye Tabard Inn this evening at 7:30. Schumaker's cabin. Members leave from journalism building at 7:20. Pot and Quill will meet the first Tuesday after Thanksgiving at 7:30, at the home of Mrs. Clara Fitch.
