

### SWIMMERS WORKOUT FOR COMING SEASON

#### Several Lettermen Insure Powerful Team

Varsity and freshman swimmers are now working out three times a week in preparation for the coming aquatic season which will start next term.

The two squads, thus far, have not worked out in the tank. All work is being done on the tumbling mat, with the medicine ball. The preliminary work in general consists of all kinds of calisthenics. Coach Abercrombie intends to start the men training in the tank next Wednesday.

Prospects for a winning team look fairly bright. Several lettermen are now out and a number of good men from last year's yearling team are showing up good. Art Erickson, back stroke swimmer, will not be out this year. Another loss to the varsity is the absence of Ben Lombard. There is some chances, however, that he may be in school next term. Don Parks, who coached the freshman team two years ago, is to be first assistant to Abercrombie and will also have charge of the first year men's team.

The men now signed up for varsity diving are: Byerly, Epping, McCabe, letterman, Koupal and Perry Davis, who has signified his intentions. Varsity swimmers will include: Boggs, Gardner, McCook, Boucher, McGregor, Woodworth, Sheridan and Wright. Plungers are: Mason and Van Atta. Likely candidates for the fresman team are: Finley, free style swimmer, Kier, back stroke, Fletcher, breast stroke, and Nooe, diving.

#### STUDENT DESCRIBES ART STUDIES IN EAST

Miss Kate Schaefer, who last year was an instructor in sculpture in the University art department, is now studying art in the East. Miss Schaefer left for New York in October, and upon her arrival entered the Art Student's League. Through her unusually fine work Miss Schaefer was admitted to a life and anatomy class under Bridgeman. This is considered quite an honor since all classes conducted by this famous artist are

limited, and only accessible after an examination. Miss Schaefer is also taking color from DuMond, and modeling from Lentelli. Miss Schaefer declares that she is enjoying her work very much. She has been spending much of her time studying exhibits of art, and

declares she is virtually revelling in art. She intends to be in the East for a year. Following her arrival in New York she made her home with her brother, in East Orange but has recently moved into New York and is now living near her studio.
