

DR. CHASE HERE ON VISIT FROM NORTH CAROLINA

Head of Southern University Classed Among Leading Educators in America

Meeting Planned With Board Of Regents Today; Conklin's Are To Be Hosts

Dr. Harry Woodburn Chase, nationally known educator and president of the University of North Carolina, arrived on the University of Oregon campus shortly after 6 o'clock last night, following a trip from Portland which was accomplished only with the aid of both automobile and train.

Dr. Chase, it is understood, is included among those considered by the board of regents for successor to the late President Prince L. Campbell. As the guest of Dr. Edmund S. Conklin, an old classmate, he will be here several days.

With the exception of a meeting with some members of the board of regents, scheduled for this morning, no set program has been arranged for Dr. Chase during his stay here other than informal faculty gatherings. Officials declined to discuss whether Dr. Chase will be offered the president's chair or whether he would take it, if offered.

Regents Are Silent
"To look around a bit," accompanied by a smile and a twinkling of the eye, has been the only answer of Dr. Chase when asked concerning his visit to the coast. The members of the board of regents, too, have remained silent.

Dr. Chase arrived in Portland Sunday night, where he was met by members of the board of regents and the university faculty. About noon yesterday, after visiting the University medical school at Portland with Dr. Dillehunt and others, he started for Eugene with Dr. John Boward and Dr. Conklin.

Auto is Halted
The automobile was halted by flooding waters near Monroe, and the party turned back for Salem to take the train. A sidelight of the incident was that Dr. Boward, driving the automobile, took the east side route and was waiting at the station here when the train arrived.

Following dinner with Dr. and Mrs. Conklin, Mrs. Conklin, Dr. Chase spent the evening at the Campbell church home. Included among those present were Mrs. P. L. Campbell, Governor Pierce, Judge J. W. Hamilton, Fred Fisk, Judge G. F. Skipworth, Mrs. George Gerlinger, Dr. and Mrs. Conklin, Eric W. Allen, Karl Onthank, L. H. Johnson, Dr. James Gilbert, Professor James D. Barnett, Dean William Hale and Dr. Earle L. Packard.

Dr. Chase Well Known
Dr. Chase is one of the best known of the younger university presidents of the country. He is only 43 years old, is tall and athletic in appearance and appears youthful, despite his graying hair.

His record as an educator has been almost without parallel. He received an A.B. from Dartmouth in 1904, and four years later received his M.A. from Clark university, where he had specialized in psychology, philosophy and education. In 1910, he obtained his doctorate in philosophy.

Dr. Chase then joined the faculty of the University of North Carolina, which is, incidentally, the oldest state university in the United States. His rise was rapid and in 1920, he was formally inaugurated president of that school.

A. T. BURROWS MAKES VISIT TO LAMBDA PSI

Mr. Alvin T. Burrows, of Urbana, Illinois, president of the executive council of Phi Sigma Kappa fraternity was a week-end visitor on the campus. While here Mr. Burrows was a guest of Lambda Psi.

Benefit Dance at Sororities and Halls Set for Tomorrow

"Everybody step!" The dime crawl is scheduled for 6:30 to 7:30 tomorrow evening. Every women's living organization will be at home to the men for dancing. Ten cents is the admission.

These affairs are given by the Women's League for benefit of the foreign scholarship which the League awards every year, and for which Lydie Coquilin of Nevers, France, now on the campus, is beneficiary.

Last term \$115 was netted for the fund.

All houses not entertaining in their own homes are asked to inform Dorothy Myers, who is in charge, so it may be published.

ELLINGER DRILLS TEAM FIRST TIME

New Line Coach Puts Men Through Practice

All football candidates turn out today with head gears and shoulder pads. Men who have not turned out to date should report today.

Harry O. Ellinger, veteran guard, with four years of the West Point football system behind him and a year of coaching under Captain McEwan, coached his football togs for the first time yesterday and drilled Oregon's future linemen in fundamentals during the afternoon.

He arrived last Saturday from Florida where he has been playing guard with the professional Jacksonville All-Stars, a group of stars that included in its lineup such men as Ernie Nevers, Jim Lawson and Si Williams.

Ellinger is an unusually versatile athlete having played four years of baseball, and was a member of the swimming, and water polo teams. He knows football thoroughly and comes with the recommendation of Captain McEwan.

The Athletic committee will probably meet this week to arrange details with Ellinger for his employment as head line coach.

"Not enough men out! We want more men out and we can take care of them," said Captain McEwan last night in issuing a call for more men. There is a scarcity of men reporting now and the turnout is not as large as was expected.

Experience does not handicap any man, according to both of the coaches. What they want is to develop men. Any man who weighs 170 pounds or even less who thinks he can do anything or would like to try is wanted out on Hayward gridiron. Report to Captain McEwan in his office in the outdoor gymnasium.

Headgears and shoulder pads will be issued today for the first time. Work begins this afternoon in earnest and all candidates should be out.

TRADER WILL LECTURE TO PAN XENIA TODAY

J. W. Hartman, vice president and secretary of the Customs Brokerage firm of the J. T. Steel and Co., incorporated, who have offices in Seattle, Portland and Tacoma, with representation in every large port over the world, will address members of Pan Xenia, honorary foreign trade fraternity, this afternoon at 4:15 in Room 107, Commerce building. The lecture is open to all others who are interested in foreign trade.

GRADE AVERAGES SHOW KAPPAS AT HEAD OF ROSTER

Phi Kappa Psi Leads Men In Scholarship; Sigma Pi Tau in Second Place

Women's Margin Over Men Wide; New Rating Plan Changes Status on List

Kappa Kappa Gamma headed the list of all houses in scholastic averages for the fall term, according to the house grade ratings which have been compiled by the Registrar's office. The rating was 46.541 with an average for the hours passed of 2.733. Alpha Phi was second with an average of 46.363, Delta Gamma with 46.117 was third.

Phi Kappa Psi was first among the men's houses and twentieth on the list with a 39.871 rating, and Sigma Pi Tau was second with 39.783, Delta Tau Delta was third with 38.428.

Women's Average High
The average for all women's houses was 42.451 while that of the men's organizations was much lower, being only 35.313. The average for both men's and women's houses is 39.106.

The prevailing tendency, according to the report, is for houses carrying the largest number of hours to be the highest in scholarship.

If the grade averages were figured on the plan formerly in use here, the two leading men's houses would have been further up the list than they are under the present plan. Phi Kappa Psi would have been moved up to sixteenth place and Sigma Pi Tau would have been moved up to sixth place.

House Lists Given
Following is the list of houses, in the order they come on the list.

Name	Rating
1. Kappa Kappa Gamma	46.541
2. Alpha Phi	46.363
3. Delta Gamma	46.117
4. Sigma Beta Phi	45.575
5. Alpha Chi Omega	45.283
6. Thacher Cottage	44.714
7. Alpha Xi Delta	44.594
8. Alpha Gamma Delta	44.115
9. Gamma Phi Beta	43.500
10. Chi Omega	43.357
11. Alpha Omicron Pi	43.327
12. Kappa Alpha Theta	42.785
13. Kappa Omicron	42.088
14. Tau Nu	41.961
15. Susan Campbell Hall	41.422
16. Alpha Delta Pi	40.785
17. Beta Phi	40.695
18. Delta Delta Delta	40.454
19. Delta Zeta	40.016
20. Phi Kappa Psi	39.871
21. Sigma Pi Tau	39.783
22. Hendricks Hall	39.782
23. Delta Tap Delta	38.428
24. Beta Theta Pi	38.157
25. Oregon Club (women)	38.103
26. Friendly hall	37.239
27. Sigma Alpha Epsilon	36.386
28. Sigma Nu	36.311
29. Alpha Beta Chi	35.800
30. Kappa Delta Phi	35.095
31. Kappa Sigma	34.941
32. Lambda Psi	34.431
33. Alpha Tau Omega	34.170
34. Theta Chi	33.875
35. Phi Gamma Delta	33.783
36. Psi Kappa	33.160
37. Chi Psi	31.947
38. Phi Delta Theta	30.640
39. Sigma Chi	30.342

JOURNALISM GRADUATE ON OREGONIAN STAFF

Edwin P. Hoyt, '23, has recently given up his telegraph position with the Pendleton East Oregonian to take a position with the Portland Oregonian, according to word received by Dean Eric W. Allen, of the school of journalism, from E. B. Aldrich, of the Pendleton paper. Mr. Aldrich states in his letter that Hoyt made an unusual success as wire news and makeup man and as sports editor. He is leaving this position to take a better one with the Portland paper.

While on the campus, Mr. Hoyt was associate manager of the Emerald for one year. He was a member of Sigma Delta Chi, Ye Tabard Inn, and Chi Psi.

Junior Skaters to Hold Annual "Skid" Saturday, Winter Garden

Moleskins and autumn frosts are usually synonymous, but Jim Forestel, head coach of the junior class skating varsity is the magician who changes the seasons as well as the sports. Football, because it is a gentle pastime like roller skating, will form the background of the party.

The annual junior class skating party is planned for next Saturday afternoon, February 13, from 2:00 to 4:00 o'clock at the Winter Garden skating rink. As roller skating and football produce the same effect on clothes, campus attire will be the prevailing fashion at the affair.

The mentors, officials, and assistants of the '27 skating gridsters are: head coach, Jim Forestel; line coach, Pete Ermier, trainer; Doc Wrightman; nurses, Katherine Graef and Thama Barnard; sports-writer, Jack O'Meara; stunts and feature, Marion Anderson and Virginia Keating; headliners, Sol Abramson; yell king, Don Jeffries; yell dukes, Lowell Baker, Bob Officer, Paul Peck, Bud Christenson, and Wilford Long.

SCRIBE FIVE BEAT ARCHITECTS 39-12

Physics Majors Take Game From Geologists

Inter-department standings.

	W.	L.	Pct.
Scribes	2	0	1.000
P. E. Profs	1	0	1.000
Physics Majors	1	0	1.000
Lawyers	1	1	.500
Architects	0	1	.000
P. E. Majors	0	1	.000
Geologist	0	2	.000
Business Ad.	0	0	.000
English Dept.	0	0	.000
History Dept.	0	0	.000

The Journalist basketball team strengthened its hold on first place in the inter-department race by trouncing the architects Saturday afternoon, 39 to 12. As a result, the scribes are broadcasting a challenge to all comers—nobody barred.

The Architects fought hard and gamely but could not withstand the basketballing activities of Orr and Dutton. The first half was comparatively even. But in the second end the sports writers lunged up 22 points while the bridge builders were annexing three. Dave Evans did a beautiful job of officiating.

Lineups:
Scribes (39) vs. (12) Architects
Dutton (11).....(5) Cone
Coles (6).....f.....(2) S. Martin
C. Martin (8).....c.....(2) Metcalf
Brown (2).....g.....(2) Greene
Orr (12).....g.....(1) Koupal
Jefferson.....s.....Richmond
Referee: Evans; Timer: Abramson; Scorer, Boyer.

The Physics majors wrested a tight 29 to 23 hoop tilt from the geologists Friday afternoon.

The lineup:
Leslie (15).....f.....(6) Fraser
Parker (8).....f.....Powers
Finkner.....c.....(17) Tucker
Sinclair.....g.....McAuliffe
McGinnity (6).....g.....Bean
Wheeler.....s.....Wheeler

PAPER IS PUBLISHED BY EXTENSION CLASS

Portland extension division class in elementary newswriting under the direction of Prof. George Turnbull of the school of journalism has edited its first paper, the Portland Center Star. The paper is put out by a class of 10 students, and has a circulation of between 2600 and 2700 students. Three papers will be issued this term.

"The aim of the paper is to unite the various departments of the Portland Center and give students an opportunity to feel solidarity and give contact," said Mr. Turnbull.

The Portland Center has little chance for campus spirit, because the students have nothing in common except class room work. The paper will help to relieve this condition.

FIGHTING VARSITY DEFEATS COUGARS

STUDENTS PLAYS WILL BE GIVEN IN GUILD HALL

"The Kiss," On Thursday Night, Will be First of Original Productions

By BEE HARDEN
"The Kiss," written by Kee Buchanan, is the first of the three original plays written by students of Mrs. Alice Hensen Ernst's playwriting class, which will be produced by the drama and play production department in Guild theatre Thursday and Friday nights.

"The Athlete," by Katherine Kressman, and "The Kingdom of America," by Helen Webber, are the other plays which will be presented. These are the first dramas written by students to be produced on the campus.

"Ten minutes of adolescence, ten minutes of 'When you and I were seventeen'—are the comments on 'The Kiss.' Its scene might be the broad steps of some Southern mansion, with its white pillars and wide colonial doorway. Two little girls, Cynthia, age 15, Florence Couch; and Roxy, age 13, Etha Clark, are both very much interested as to what is going on in the house between the two shadowy characters which are seen through the door, and who are none other than Penelope, their older sister, Elizabeth Talbot; and her 'beau,' Edgar Buchanan. The time is early evening. The soft glow of the lights through the door add to fantasy of the scene.

"The Athlete" is Dramatic
The most serious play to be produced during the evening will be "The Athlete," which was written by Katherine Kressman. The play has a note of tragedy, and takes one back to the gladiatorial contests of Rome and Greece.

The scene is the curtained tent of Celertis, the athlete, near the field where the athletic games are going on. It is the last day of the games, and the contests are nearly over. All the characters are typical of the time of Aristotle, and their dramatic and poetic speech, and the flowing draperies of the tent do much to make a picturesque scene. Menas, the hurler of the discus, is played by Thomas Montgomery; Pilus, thrower of the javelin, Arthur Gray; Celertis, the athlete, Cecil Matson; and Xora, the rubber for Celertis, Alfons Korn.

King Hunts Apartment
"The Kingdom of America," written by Helen Webber, is a farcical account of Americans, the 100 per cent variety. The whole atmosphere of the play is futuristic. In the prologue of the play we find a king and queen and their "heirs" looking for an apartment in a twentieth century city. The King, Edgar Buchanan; the Queen, Constantine Roth, and their three children, Prince Clothilde, Katie Buchanan; Prince No. 1, Diana Deinger; and Prince No. II, Grace Potter, walk hand in hand down the street in their weary search for some place for a "king" to live. They find the children a great nuisance for all apartments say "no dogs or children allowed."

Acts one and two take place in the apartment of "royalty"—act two is six months later than act one.

Other characters who take part in this "disillusion of royalty" in America are the photographer, Rahles Epping; delegate, Frances Vaughan; stranger, William Forbis; camera man, John McClellan; pillar, Vernon McGee; judge, Cecil Matson; and delegates of the Twice-A-Month Club, Norma Jane McCleary, Margaret Booth, Eleanor Beckwith, Gertrude Hill, and Hazel Kellems.

Ticket sale for the plays will begin today, between the hours of 1:00 and 5:00 this afternoon. All seats will be reserved at 50 and 75 cents.

Science Building Dedication Pays Tribute to Name of Dr. Condon

On the wall opposite the entrance to Condon hall lecture room hangs a photographic portrait of Dr. Thomas Condon, Oregon geologist. The kindly, vivid eyes of the scientist caught the look of those who assembled in the lecture room Saturday evening to dedicate to the memory of this man the first unit of the new science building, on the University of Oregon campus, which was completed last spring.

This unit contains the geology and psychology laboratories. The heads of these departments spoke of their research and teaching work and of the influence of Condon and other scientists for the realization of the building. Dr. Edwin B. Copeland, formerly dean at the College of Agriculture, University of the Philippines, addressed the audience on "Science and Everyday Life."

"We are here to memorialize a great life," Dr. Warren D. Smith of the geology department said in speaking of the man for whom the new building is named. "Tonight, we dedicate a temple to the search of truth. Dr. Condon left one of the rarest things in the world, a legacy of intellectual honesty."

"Spreading the gospel of scientific truth was Condon's life work and it was ably accomplished," reiterated Dr. Earl L. Packard, professor of paleontology, in speaking of Dr. Condon's work. "His inspiration will continue on and on," he prophesied. "The descriptions of his few publications are vivid and interested and have stimulated others to search for the facts."

The appreciation of Condon's work dawned on the world when his specimens were sent East in 1867. From the John Day region and alkaline beds of eastern Oregon Dr. Condon collected bones of large and small camels, lions, coyotes, huge sloths, aquatic birds, even of a flamingo. These bones give a glimpse of the life of Oregon during the Pliocene age. Dr. Condon also did research work in marine fauna at Newport.

HOUSE GROUPS DISCUSS RELIGIOUS SUBJECTS
Fraternity discussion groups are being held every Tuesday evening in the various houses on the campus under the auspices of the United Christian Work. A meeting tonight marks the third week of the five week course. The topics being discussed are "Reality in Religion," "The Bible," "Reality in Religion," "Eugenics," "Relation of Science and Faith," and "Phases of the Race Problem." These subjects are being treated in the discussions from a Christian viewpoint.

The following are leaders for tonight's meetings: H. G. Tanner, Alpha Beta Chi; H. E. Thompson, Alpha Tau Omega; F. S. Dunn, Beta Theta Pi; D. Oberteuffer, Chi Psi; Chas. E. Carpenter, Delta Tau Delta; Rev. F. G. Clark, Friendly hall; A. E. Caswell, Kappa Delta Phi; Rev. Bruce Giffen, Kappa Sigma; B. A. Gilkinson, Lambda Psi; Rev. H. W. Davis, Phi Delta Theta; Rev. Edwin V. O'Hara, Phi Gamma Delta; M. K. Cameron, Phi Kappa Psi; E. E. DeCon, Pai Kappa; Homer Rainey, Sigma Alpha Epsilon; W. D. Smith, Sigma Chi; Dr. J. F. Haas, Sigma Nu; Howard R. Taylor, Theta Chi. Due to a shortage in leaders Sigma Pi Tau will not hold a discussion group this week.

Each leader will visit five fraternities, speaking on one subject only, and in the course of the five weeks of discussion scheduled each house will be visited by five different leaders and will discuss each of the five subjects mentioned.

OREGON PRESSED HARD BY W. S. C. DURING BATTLE

Gunther Star of Contest; Game Is Fast and Rough; Many Shots Missed

Oregon 35 W. S. C. 23
Gunther (16).....F.....(6) Henry
Hobson (3).....F.....(11) Burpee
Okerberg (7).....C.....(2) Brumley
Jost (5).....G.....(4) Gehrke
Westergren (4).....G.....Averill
Substitutes: Oregon, none; W. S. C. Koenig, Clay.

Officials—Ray Brooks of Portland and Squinty Hunter of Idaho.
Time of game—7:00 o'clock.
Attendance—3000.

Statistical summary

Field	Ore.	W. S. C.
Shots attempted	62	50
Shots made	13	10
Foul shots at'emptd	17	9
Foul shots made	9	3

By HAROLD MANGUM
The old adage that the worm may turn was forcibly borne out last night on the Armory floor when the slightly-rated Washington State quintet unheralded from its Pullman lair, came within an ace of dislodging the league-leading Webfeet. After leading or closely trailing Oregon for three quarters of the fray, they lost out in the last few moments when the varsity uncorked a devastating basket barrage.

Oregon held the ace. Jerry Gunther proved the winning factor, and displayed his best game on the Oregon court, bullying, smashing, and eluding the Cougars, and ringing up eight baskets for 16 points and high point honors.

Long Shots Made
The Pullmanites displayed a close-checking team, adept at long shots. The invaders shot frequently from past mid-floor, and sank a surprising number of their tries. Brumley their bean-pole center, clung to Okerberg like a leech, but the latter managed to sneak away long enough to garner three baskets and a foul throw. Both teams tried numerous shots, but most of them were from long range. Oregon dropped in but 13 baskets in 62 tries, which proved a slightly better average than the Cougars could make, as the latter sank but 10 goals in 50 attempts.

The fray was exceptionally rough, Washington State offending 17 times and Oregon nine. Oregon made nine of these attempts good, to three for the Staters. Gehrke was expelled for roughing Westergren late in the game. Henry and Westergren were in the danger zone with three each.

Oregon Takes Lead
The Webfeet took an early lead when Westergren converted Henry's foul, and Jost scored from under the net, but this was soon nullified when Henry and Gehrke snared cripples in quick order, giving Oregon the edge. Jost scored from side court, Westergren again tallied from the gift line, and Okerberg tossed in a pot shot, which caused great consternation in the Pullman ranks and resulted in time out.

The Cougars crawled within a point of a tie when "Slim" Burpee scored, and evaded the score when the latter sank Gunther's hack.

Foul Shots Erratic
Gunther again cracked the tie by ringing a long effort. The half ended with Oregon holding a three point margin. The foul shooting was miserable in this half, as Okerberg could connect with the receptacle but three times in nine attempts. The varsity failed to show
