The University of Oregon is firmly sold on the proposition that its responsibility extends beyond the narrow confines of the campus into the farthest corners of the state. A state University should be a great storehouse of facts and information for the service and advancement of all peoples of the state; and service to the state as a unit is one of the most vital aspects of higher education.

In the instance of the newspaper men's convention, one of the outstanding items of the University's state-wide scope, the college actually plays a very small part in the sessions, the newspaper men conduct the convention themselves for the most part. The sessions are, however, splendid get-acquaintedparties for the University and the editors, and as past experience has proven, the editors leave the conventions with an understanding of the attitude and the purpose of the University, and the University comes into splendid contact with the most concentrated group of leaders in the state.

So it is, the University, dedicated to state-wide service, wel- And in those dayes at Oregonne comes eagerly the opportunity to join forces with Oregon news- there were many strange goinges WARD IS THE MAKING OF THE paper men, closest of all to the state citizenry.
