

Women's Rifle Team Wins Two, Loses One Match

Varsity Girls Outshoot O. A. C. and Oklahoma Aggie Markswomen

Washington Takes Second Contest by 10 Points

Last week's matches resulted in the women's rifle team winning two and losing one contest. Two teams shot for the Oregon women—a ten and a five woman team. The ten-woman team shot against O. A. C. and the girls team from the Oklahoma Agricultural and Mechanical Institute, while the five-woman team competed with the University of Washington aggregation.

The results of the match with O. A. C. and the personnel of the two teams follows.

O. A. C.	Oregon		
Jarmon	94	Huntsman	99
Morris	93	Forrest	97
Chapman	92	Straughan	96
Gibbons	92	Carroll	95
Joy	92	Pepon	95
Hogue	92	Priaux	95
Southern	91	Radabaugh	95
McKern	91	Zurcher	95
Hare	90	Bristol	94
Kearns	90	Tilton	93
Total	917	Total	954

Oklahoma Team Scores 954

The total score made by the team from Oklahoma was also 954, so as provided in the rules the score of the eleventh contestants were counted. In this case, the score of Oregon's eleventh entrant exceeded that of the Oklahoman, so the Oregon team was given the match.

The five-girl team which competed against the University of Washington women was beaten, being the first defeat the women's rifle team has met this season.

Team Members Listed

The Oregon women scored 480 points against Washington's 490. Those who shot and their scores are:

Huntsman, 99; Straughan, 96; Carroll, 95; Pepon, 95; Radabaugh, 95; total, 480.

Other women shooting for Oregon were: Wilbur, Sheridan, Vulgamore, and Buchanan.

Annual Publication Put Out by Women's Journalism Fraternity

"The Handshake," a publication put out annually by active members of Theta Sigma Phi, women's national journalistic fraternity, came off the press yesterday. This paper serves as a link between alumnae and active members of the fraternity, covering news of both groups.

Marian Lowry, senior in the school of journalism, was editor, and Genevieve Morgan, junior in the school of journalism, was assistant editor. The paper this year is larger than ever before by a column.

Parts of many interesting letters from former students are included in the news from alumnae. Among these are Mary Lou Burton, '23, member of the staff of the Humboldt Standard at Eureka, Calif.; Emily Houston, '25, society editor on the Southwestern Oregon Daily News at Marshfield; Victoria Case, '21, reporter and feature writer for the Portland Telegram; Lucile Saunders McDonald, ex-'19, writing for the Cordova Daily Times, Alaska, the Pacific Fisherman, the Associated Press, and magazine articles; Margaret Morrison, ex-'25, secretary to the advertising manager at Bullock's department store, Los Angeles; Clytie Hall Frink, ex-'18, who is now living at Nes-kowin, Oregon; Amy Larremore, ex-'23, who went east from Kansas last February to take musical work with Frank LaForge; Elizabeth Aumiller, '19, working for the Liberty Savings and Loan bank, Yakima, Wash.; Stella Sullivan Miller, now living in Chicago; and Lillian Baker, '25, secretary in a bank in Seattle.

All First Teams Will Play Friday Night

Two days are left of the women's basketball season. Friday night all the first teams are scheduled to play. Tonight the sophomore second team will play the freshman second team, the junior second the senior second, the senior third the junior third, and the freshman fourth the color second.

The sophomore team lost a game last night to the freshman second team by a 12 to 10 score. This puts the sophomore team definitely out of the running. The senior first team won from the sophomore second team 14 to 2, and the freshman fourth team from the sophomore fourth team 17 to 2. The color second team defeated the sophomore third team 18 to 13.

Oregon Emerald Subscription List Includes Ten Foreign Addresses

Circulation of Students, Advertisers in Eugene And Mailing List Totals 4000 Copies

By EDITH DODGE

Who reads the Emerald? How far is the news of the University of Oregon carried over the world by the college paper? Many have perhaps wondered about this as they pick up the sheets in the morning and glance through the columns, picking up here and there items of local interest. And how do these same items affect people who are thousands of miles away? The circulation list is an answer to these questions.

Ten foreign addresses receive the Oregon Daily Emerald. The farthest distance is to Paris, France, where it is delivered to Dean Cyril V. Dymont, dean of the college of literature, science and the arts, who is now on leave of absence.

Colonel John Leader, former commander of the University R. O. T. C., is a subscriber, receiving the paper at his home in Devon, England. Copies are also sent to Hilo, Hawaiian Islands; Pavia, Iloilo, Philippine Islands; Petersburg, Alaska; Ontario, Vancouver; Prince George, Montreal; Alberta, Canada; Mexico City, and Edinburgh, Scotland.

The paper has subscribers in

twenty-eight of the states. In the East the paper is sent to Washington, D. C.; Lakeland, Florida; Annapolis, Maryland; Massachusetts, New Jersey and other centers. Sixteen copies are sent to New York. A large number of copies are sent throughout the middle west and the Pacific coast.

Practically all of the college newspapers in the United States exchange with the Emerald. In addition, it is sent to all of the high school libraries and newspapers in the state.

Two hundred subscribers in Portland are included in the circulation list. Sixty-two towns receive four or more copies of the paper. This includes mainly alumni and parents of students now attending college.

The total circulation, including students and advertisers in Eugene amounts to about 4,000 copies. In Eugene it is sent to all of the advertisers and to a number of other town people who are interested in the University.

And so the question is answered. Would we read our paper with more interest if we were as far from the campus as some of our subscribers?

Physical Education Club Members Climb Deer Butte Saturday

Ten members of the Physical Education club and Physical Education department faculty climbed to the top of Deer Butte with an altitude of 5,540 last Saturday afternoon.

Those making the trip reported three feet of snow on the top of the mountain and that the weather was slightly cold. Two meals were eaten in the open. Del Oberteuffer and Dr. J. F. Bovard acted as chauffeurs for the 63-mile trip.

Two hikes will probably be taken this year by the club. Last year the annual affair was begun with a jaunt to the Triangle Lake district.

Those who participated were: Pug Toole, Del Oberteuffer, Lloyd Webster, Prince Heltrich, Fred Cozens, Walter Fenwick, Perry Davis, Dr. J. F. Bovard, Harry Scott and Roland Belshaw.

Scholarship of Daly Students Rates High

A high scholarship grade was made by the Bernard Daly students during the fall term, their average being 3.41, which was higher than the entire student body rating of 3.5.

There are 26 Daly fund students in the University this year, 15 women and 11 men. The women students averaged 3.22 in scholarship while the men made 3.68.

Nominations for Y. M. Cabinet Officers Made At Luncheon Meeting

Y. M. C. A., cabinet officers for the coming year were nominated at the regular noon luncheon of the cabinet yesterday noon at the Hut. They are as follows: Roland Davis, Wilford Long, president; Francis Reider, Kirk Bollinger, secretary; William Kidwell, treasurer.

Annual elections will be held one week from today, Thursday, March 11, between the hours of 8 a. m. and 4 p. m. All male students in the University are entitled to vote in the selection of the cabinet officers who are held responsible for carrying out the great number of duties connected with the campus Y. M. C. A., organization.

In order to give the men an opportunity to consider whether they can devote the necessary time to the office if elected, the nominees, it was voted may have the rest of the week to decide and report to the nominating committee which is headed by Bob Hunt.

Graduates in Physics To go to Minnesota

WALTER H. Brattin, graduate assistant in physics, and Vladimir Rojansky, research fellow in mathematics at the University of Oregon, have received appointments to the teaching staff of the University of Minnesota. They will take up their work at Minneapolis next fall.

Both Brattin and Rojansky were members of the class of four, and were graduated from the physics department of Whitman college two years ago. The other two members, Walter Bleakney and E. J. Workman, will also be in the physics department at the University of Minnesota, next year. Bleakney, after winning a scholarship at Whitman college, attended the Harvard Engineering school for a year, and is now at the University of Minnesota. Workman remained at Whitman college as a graduate student.

Brattin is now working on his master's thesis in physics, by which he wishes to be able to photograph oscillations which take place in less than .01 of a second. Since a camera does not give enough light for the pictures, a cathod ray is being used. The addition of a spark gap to the circuit gives a different oscillatory discharge, which has never been satisfactorily worked out and photographed.

April 17 Picked For Track Meet Between Houses

Rules Made for Contests Designed to Uncover Varsity Talent

The inter-fraternity track meet has definitely been scheduled on Bill Hayward's training program for April 17 and will probably be the biggest event in the spring training work. Del Oberteuffer, who has charge of the do-nut activities in so far as the department of physical education can help them, is determined to make this the biggest inter-fraternity event on the spring program.

Twelve representatives from as many houses met in the men's gymnasium yesterday afternoon and a lengthy discussion was held concerning the spring event. Bill Hayward stressed the value of the meet in bringing out new men and furnishing competition for the men who are already training.

The rules of the do-nut league were revised for the track meet and now the only men barred from competing in the meet are varsity lettermen. Numeral and varsity men who have not won letters will be allowed to enter the meet. To be eligible for the competition all the men must work out on Hayward

field three times a week from the opening of the spring term to the time of the meet. The two provisions were the only ones passed upon at the meeting and will even up the events.

Inter-fraternity track meets have uncovered many future varsity men in days gone by. Many "finds" have come from the house meets, and it is hoped that the turnout will be exceptionally large.

Winter Term Shows Increased Number of Student Withdrawals

The number of students who are forced to withdraw from the University for one reason or another has increased more this term than at the corresponding term last year. This increase in the number of withdrawals is out of proportion to the increase in the university enrollment and is probably accounted for by some other condition that affects student attendance.

There are exactly 100 withdrawals for the winter term this year as

compared to 65 for the winter term a year ago. The number for this term will be slightly increased with the addition of several person's names, who have petitions pending before the faculty academic requirements committee.

Misses Mildred Bateman, LeMa Stone, Caroline Titton, Lillian Vulgamore, Cecil McKercher, Julia Wilson, Barbara Chapman and Gladys Stofeel of Alpha Lambda of Alpha Delta Pi made a trip to Corvallis Saturday evening where they attended the installation dance of the Alpha Omega chapter.

Extension Students Number 1476 in 1925

Reports compiled at the Extension Division for the year 1925 show an average enrollment of 123 students per month, throughout the twelve months, making a total of 1476. The month of May shows the lowest enrollment with 54 students. The highest number enrolled for any one month was 189 for June. According to the report, correspondence study varies very little on account of seasons.
