

Fourteen Names On U. of O. Staff In Who's Who Others Recently Active On Campus and City Notables Included

Eugene Third in Number Listed; Portland, First

Fourteen faculty members of the University of Oregon are listed in the latest biennial compilation of "Who's Who in America." The names of the University professors included in this list of nationally noted men and women are: Eric W. Allen, dean of the School of Journalism. James D. Barnett, head of the department of political science. William P. Boynton, head of the physics department. Timothy Cloran, professor of romance languages. Burchard W. De Busk, professor of education. James H. Gilbert, professor of economics. William G. Hale, dean of the law school. Earl Packard, professor of geology. George Rebec, dean of graduate school. Edwin C. Robbins, dean of the School of Business Administration. Friedrich G. G. Schmidt, head of the department of Germanic languages. Warren D. Smith, head of the geology department. Orin F. Stafford, head of the geology department. Frederic G. Young, dean of the School of Sociology. Others listed who have until recently been connected with the University are: Prince L. Campbell, late president of the University. Colin V. Dymant, formerly dean of the College of Literature, Science, and Arts. In addition appears the names of Gertrude Bass Warner, donor of the Oregon Museum of Fine Arts in the Woman's building; Robert A. Booth, prominent Eugene lumberman; Lawrence T. Harris, Eugene judge; and Rev. Eugene C. Sanderson, president of the board of the Pacific Christian hospital. Eugene ranked third in regard to the number of persons from Oregon mentioned in this edition of "Who's Who in America," Portland and Salem taking first and second places respectively.

in Time; Webfoot weekly events, featuring additional scenes of the Oregon-Washington football game; Frank D. C. Alexander in a merry musical comedy setting on the organ. Coming—"The Marriage Clause," a powerful document of modern theatrical life, fame, fortune and a barrier to love, with Francis X. Bushman, Billie Dove, Warner Oland and Grace Darmond; and the "Merymakers" in a new Homecoming specialty.

Rex—Last day: Hoot Gibson in "The Man in the Saddle," a lively western comedy drama, with the likable "Hoot" in one of his most congenial roles; also, "Fighting With Buffalo Bill," the first of a series of American adventure stories; Felix cartoon comedy; International news events; Clifton Emmel at the organ.

Coming—"The Last Frontier," a new epic of the west, when brave men and women strived to build an empire, with a great cast including William Boyd, Marguerite de la Motte and Jack Hoxie; "The Runaway Express."

Denny's flair for farce is not better exemplified than in his latest starring vehicle, the new Universal-Jewel, "Skinner's Dress Suit," playing to hilarious audiences at the Bell theater, Springfield, Sunday.

Oregon Staff

(Continued from page one) farmers how to prevent harmful inflation of values, over development of areas, and over production of crops. Dr. Ely mentioned possible researches along these lines that may be carried on in Oregon. "To what extent is there a surplus of land in Oregon?" he questioned. "What is the volume of fruit production? What is the market for agricultural products, and how can that market be wisely anticipated through research? Forecasting of the market can be done more or less accurately. What competition are growers in Oregon exposed to?" Problems of urban land economics are woefully neglected, he declared. He suggested that problems of urban development and utilization of land might well be studied by men on the University of Oregon staff acting in co-operation with real estate boards and other agencies. Research of any kind can be accomplished successfully in a university only if the president gives it his "sympathetic and appreciative support," Dr. Ely continued. He said he had confidence Dr. Hall is a believer in research and will aid in the development of the research spirit on the campus. In acknowledgment, Dr. Hall said he was an ardent believer in the value of research and declared he will do all in his power to aid his staff in their research activities. He will seek, also, to stimulate worthwhile research projects.

Football

(Continued from page one) get the men in the best of shape for this game and have succeeded

to a very large extent. All the men will get a chance in the game as the object is to uncover the defects of each player and to give as many experience as is possible. The freshman lineup has been made public by Coach Reinhart and includes some of the best former high school players of the state. In Murray and Harden at ends Coach Reinhart has two fast men, very aggressive, and both adept at snaring passes. Murray is a former Franklin high star from Portland while Harden hails from Athena. Warren and Hande will hold down the tackle positions. These boys are big and play a good game of football. Temple and Wood will start at guard. Wood was an all star tackle in Portland last year while playing for Jefferson high. He was switched to guard when he reported this fall and has been playing there since then. Temple is a former Pendleton high player and has been showing great form in practice. Stadlerman will play center for the frosh. He is a rangy pivot man, an accurate passer, and a good defensive player. Frank Mimaugh will call signals for the freshmen. He is another all star from Portland and uses his head to good advantage in a football game. Robinson and Gabriel will play the half-back positions. No more need be said about Robinson. Gabriel played for Washington high in Portland last year and was considered one of the best backs in the league. He is heavy, fast on his feet, and all around man. Hatton will start at full, he hails from Pendleton and was one of the most consistent ground gainers in eastern Oregon.

List of Players

- Capable substitutes are available for every position on the team and many of them will no doubt be heard from before the day is over. The Sophomore---

The Sophomore Class Beer Suit—as worn by Princeton students and pictured in Vanity Fair.

The "Beer" suit has been accepted by the Sophomore class as their class suit. These are identically the same as the Princeton suit, white bleached coats with white buttons. The collar has the notch lapel—the trousers are cut full.

Each year at Princeton the back of the jacket has painted on it a picture depicting some incident of college interest.

Orders are being taken for these suits. They will be released on the day designated by the sophomore class president, Bob Foster.
