#### The University's Financial Problems

THERE is nothing at all extravaversity board of regents which will be presented to the state legislature at its present session. The actual A Foreign Student needs of the University insofar as On Americans financial matters are concerned encompass more than a library, an infirmary, and old-age pensions.

With the legislators facing the trying problem of keeping the evergrowing state budget within the practically static income, the Unistudent who seems to have a far versity must trim its requests down better insight into America's ways YOU'RE GONE." to absolute necessities. This, we believe, has been done.

The inadequacy of the present library has been an old story, growing more apparent with each increase in student population. Con- any expert in the Queen's English case which came to a standstill the structed in 1906, the building was to make out a better case than this: past week end. We're rather glad probably able to accommodate the 326 students then registered. Alliea-A boy coming from Far East. be themselves again. most ten times that many students Frankness of Americaare finding the building sadly out of keeping with their numbers, and the congestion has hardly been alleviated by use of the Condon hall

University work is badly crippled by unsuitable library conditions. Little can be done to improve matters until a new building is erec ted to meet modern demands.

The need for an infirmary may not be ignored, either. An epidemic of mumps on the campus last year indicated that the present building is altogether unsuited to permit adequate care of more than a dozen patients.

Student accomplishment is closely related to student health, and it is folly to concentrate on one and forget the other.

The suggested faculty retirement fund is not a new plan. It is already operating successfully in several states, and its adoption is being suggested in many others.

There is no good reason why instructors who have grown old in service, especially those to whom the passing years have added nothing as teachers, should spend their last days in the classroom. The meager salaries they receive surely do not permit enough savings during a lifetime of teaching to make retirement possible. Certainly the state would do as much for its teachers as many factories do for their workmen?

We anticipate the possible suggestion that the students be called upon, through increased fees, to aid in carrying the financial burden. This plan is under consideration at Oregon Agricultural college.

However, fees cannot be raised any more here without forcing out of the University many deserving students. Figures of the United States Bureau of Education show that student fees at the University of Oregon make up more than onefifth of the institution's income. As a percentage of total income fees play a bigger part here than in any other coast university, and are larger than the average for state universities. While the average per- am obliged to write in this way. Do ... That wasn't no lady, that was is 12.41, the percentage here is 21.75. what I have written but if you are

I have found your Lucky Strike Cigarettes very agreeable. They do not hurt my throat in the least and are very soothing to my voice.

J. Caillon

## When Caillaux Speaks, the World Listens

His clear voice is inspiring, his throat ever in perfect condition

AS one of the outstanding public men in France, Joseph Caillaux depends upon the power of oratory in advocating his ideas and in swaying his colleagues. To safeguard his voice is his constant aim. His favorite among cigarettes is Lucky Strikes, both for finer flavor and throat

Lucky Strikes have become the favorites of men whose priceless voices thrill their audiences, as they have with the millions because, first, they afford greater enjoyment and second, they are certain not to irritate even the most sensitive throat.

The world's finest Turkish and domestic tobaccos, properly aged, perfectly blended, give them their richer flavor.

But in addition, a costly extra process—toasting for 45 minutes-develops the hidden flavors of the choicest tobaccos and at the same time removes all "bite" and harshness.

Smoke Lucky Strikes. They give added pleasure-you'll like them.

It's toasted Your Throat Protection
