

Weather Delays Track Training For Coming Meet

Standard Animates 440; Hurdles and Weights Regarded Weak

Flanagan Out for Sprints As Well as Jumps

With rain once more preventing intensive training, Oregon's track and field stars are showing a small increase for the last few weeks' work. The most extensive work was the intraschool relay in which all of the candidates except lettermen took part. No new stars were discovered in this, but several fine showings were made.

Probably the most surprising Flanagan race was the one run by Joe Standard who ran the last quarter of the mile relay and overcame a lead of twenty yards to win. This race assures Oregon of two good quarter milers in Standard and Joe Price, a letterman. Pearson and Jeffries also ran good quarters which brightens things in the mile relay.

Weather too Cold
In the mile event several sophomores have been improving rapidly, and in the meet two weeks ago beat Meidemeir, the favorite, by several yards, although the time for the event was slow. The distance men have suffered very much from the cold weather, as muscles are tightened and the stride broken. Oehler and Rutherford have been battling for the best time in the half with neither turning in any startling times. Dope on the two mile is not available, as no trials have been run yet.

The sprints will be taken care of by Extra, Flanagan and Kircher, with Hermance and Hoblitt in reserve. Extra has been laid up with a bad shoulder but will be back in training this week. Jerry has always managed to make points in any meet that he has run in, and for the last two years has taken two firsts against O. A. C. Flanagan is also a fast hundred man and will probably be at his best this year. Kircher is an unknown quantity, but he has been pressing Extra all season and is developing rapidly. The hurdles still remain the weak race, but a big improvement is looked for with the coming of warm weather.

Flanagan Working Out
The best outlook for any event is Captain Proctor "Irish" Flanagan in the broad jump. Proe has always consistently jumped over 20 feet, and with the intensive training that he has been doing this year, he will probably break the coast conference record again. Two years ago he jumped 20 feet 8 inches for the record, but it was broken by two California men last year. McGee, a sophomore, has been doing about 21 feet, but will undoubtedly do better under competition.

Things have not been looking favorable in the weights, but so far there has not been any competition to bring out what the men can do when pressed. Wetzel is the best man in the shot, and is the only one that has been getting over 40 feet. In the discus, Wetzel and Stager will probably do about equal

with Eberhardt and Gunther close behind. Wetzel and Gunther are both getting fair distance in the javelin and should improve rapidly.

Preparing for Relay
The high jump also looks like a point winning event with McCulloch and Crawford doing around 6 feet. They both have gone over this mark and should do it again, but reversals in form sometimes occur. The pole vault is being cared for by Ed Crowley and Al Bracher. Little is known of what they have been doing this year, but they should get around 12 feet.

All in all things do not look as good as they might, but if warm weather ever arrives there will, or should be, a big improvement. At this time of the year no predictions can be made of what will happen in actual competition as there are possibilities that may develop. A much better line-up can be obtained after the try-outs next Saturday for the Washington relays. These try-outs will be at eleven o'clock so as not to interfere with the Relay Carnival that afternoon.

Tennis Aspirants Must Play Three Matches Each Week

Owing to the unsettled conditions of the weather, girls who are taking part in the ladder tennis tournaments are advised to take advantage of every opportunity to play off their quota of three matches a week or a total of eight before May 2, when the class teams are to be picked. "The girls should try as hard as possible to get to the top of the ladder," said General Zimmer, head of the sport, "for the first teams will be composed of those nearest the top."

The ladder has been posted on the bulletin board by the scales in the Woman's building and is worked by a system of challenging. Any girl on the ladder challenges any other girl one, two or three places above her and if she wins she is to notify her class manager, who will change the names. If she loses she may play the game over.

The class managers who have been appointed are: Mahalah Kurtz, freshman; Jane Cochran, sophomore; Ruth Scott, junior; and Margaret Popoon, senior.

If any girl reaches the top of the ladder and has no more games to play before the time is up she may practice an hour with anyone and turn this in. Every time the girls play they must check the health sheet.

Varsity Hitting Horsehide at .327 Average

McCormick Is High Hitter; Team Has Practice Tilt With Frosh

It was a fast and scrappy team that the varsity baseball nine faced during last night's practice period

—Coach Earl (Spike) Leslie's hard hitting yearling squad forming opposition. The contest wasn't a regular schedule tilt and was interrupted by frequent instructions from each coach.

Coach Billy Reinhart, in addition to the practice with the freshmen, put the infield through a snappy workout. The cold weather has made it impossible for the pitchers to bear down very hard. The sore arm which bothered Bill Baker has improved to the extent that he will probably receive the pitching assignment against the Oregon Aggies at Corvallis next Friday.

Reinhart's latest experiment with the varsity nine was to put Red Slauson in the box. Slauson has had little or no previous hurling experience, but has some of the earmarks of a chucker. Lefty McDonald faced the freshman batters yesterday.

The recently figured batting averages show that the Webfooters are hitting the ball at a .327 clip. This is a good average, but the big offensive guns of the lemon-yellow horsehide performers are operated by only a few members of the team. The hitting is not evenly divided and at critical times the needed punch is absent.

Don McCormick, the scintillating third sacker who is playing his first year on the varsity, leads his teammates in batting with the fat average of .553. McCormick played in three of the four contests of last week. Arnie Kiminki, the eccentric performing shortpatcher, seconds McCormick for heavy stick work

with .455. Lynn Jones is third in the list with .389.

Varsity Squad Batting Average			
Player	bat	hit	Per cent
1. Nelson	1	1	1000
2. McCormick	15	8	.533
3. Kiminki	11	5	.455
4. Jones	18	7	.389
5. Baker	9	3	.333
6. Epps	14	4	.286
7. Dutton	7	2	.285
8. Gould	8	2	.250
9. Minnaugh	14	3	.214
10. Woodie	10	2	.200
11. Johnson	11	2	.182

Candidates

(Continued from page one)
in several plays. Miss Roth is a member of the permanent rally committee, is a student member on the Drama Tournament, has been on the Student Union committee, and a Homecoming committee in 1925.

She is a member of Y. W. C. A., Mask and Buskin, Orchesis. She has been a member of several class teams, was in the April Frolic, and is a member of several Women's League committees. She is in charge of costumes for Junior revue.

Fred Meeds will be one of the candidates for junior man on the student council. Meeds is an Oregon Knight, and has served on the Frosh Glee, sophomore informal, and Homecoming committees. He participated in the Oregon advertising campaign last fall. He is a member of Sigma Phi Epsilon.

Seeks Student Councilship
Doris Efteland is a candidate for junior woman on the student council. She was a big sister, served on the Student Union committee, Homecoming committee. She is a member of Delta Zeta and has a 2.3 average since entering the race.

When Miss Efteland was a senior in high school she was awarded the Hopkins Jenkins scholarship for having the best talent for her entire four years' work.

Three Men Wish for Same Job
Three candidates are out for sophomore man on the student council: Don J. Campbell, Kenneth Potts, and Tim Wood, Jr.

Campbell is a member of De Molay, is chairman of the freshman class committee on numerals and awards. He was joint winner with Herbert Socolofsky, of the Jewett prize for excellency in debate and oratory. He is a major in journalism. At present he is out for the freshman track squad.

Kenneth Potts is another candidate for sophomore man. He made

his numeral in freshman basketball, and is now out for freshman baseball.

Tim Wood, Jr., a member of Delta Tau Delta, To-Ko-Lo, is the other candidate so far announced for sophomore man. He was on the bonfire committee, is a member of the freshman track squad, is night editor on the Emerald and is assistant circulation manager. He is also a member of the Webfoot staff and is in the Junior revue.

Today is the last day for those wishing to announce their candidacy in the Emerald before the regular student assembly Thursday. All material must be in by 5 p. m.

Pi Sigma Announces Election of Members

Pi Sigma, national classic honorary fraternity, announced the election yesterday of Nellie Westra, a junior from Reed college in Portland, and Julia Brauning, junior of Eugene. An initiation banquet is planned for the near future, according to Frances F. Powers, president.

Pi Sigma will hold a meeting at the Y. W. bungalow at 7:30 this evening. Mrs. J. Bishop Tingle, who resides here and who travelled through Greece last fall, will address the group upon her experience in Latin, will furnish a musical program, after which refreshments will be served.

Biggs

tive editorials, rather than dictate positive policies.

Check on Others
"We would thus offer an excellent opportunity for honest co-operation and a thorough understanding of varying views on problems in which both the editor and groups represented by the publications committee are vitally interested.

"No University official, elected or

appointed, should deliberately shun advice and counsel of others interested in, and striving for, some objective. All other student body officials are subject at all times to check of a supervisory group."

In conclusion Biggs asserted that "The proposed amendment would do no more than place the editor on the same plane of responsibility as that of other elected student officials."

Not to be read 'til 1950

"IN this year of 1950," said the celebrated engineer in his Commencement address, "the electrical communication industry is just entering upon its vigorous prime.

"As the nineteenth century was termed the Age of Power, so may this period be well called the Age of Communication—so fully have communication ways and means been developed.

"It was a 1927 marvel to talk between New York and London, but now we may talk to any point on the globe, and to and from moving points at will. And of course we all know what has been achieved in projecting pictures from a distance.

"This great and growing field of communication, far from completed, is opening up constantly greater opportunity, not only for technically trained men but also for men in various commercial and professional activities—the men who in increasing numbers will always be needed to sell and administer the services which the engineers create."
