

### Records May Fall When Frosh and Babes Meet

### Two Men in University of Washington Frosh Hold Records

### Oregon Babes 'Hopped Up' Over Coming Event

With prospects of coast and national records being bettered the Oregon frosh trackmen are prepared to meet the University of Washington babes on Hayward field Saturday afternoon. Dope is not available as to how the meet will end, but from the comparisons that can be drawn it is evident that it will be neck-and-neck with the yearlings.

Washington has two men who at the present time hold both national high school and national freshmen records. These men are Anderson in the hurdles, and Kiser in the mile and the half-mile. Last Saturday Anderson ran the high hurdles in the extremely fast time of 14.8 sec., and he has consistently run them in under 15. This is faster time than has been run on the coast this year in any college meet. In comparison the times made here last Saturday was 16.6 while that at O. A. C. was 16.1. In the low hurdles he gets about 25 seconds which is good for a first in the Northwest conference.

**Kiser Fast Miler**  
Kiser, the other man, is one of the finest milers in the country at the present time. For the last two years he has won the mile at the National Interscholastic meet at Chicago and has not lost a race in interscholastic competition. He consistently runs the mile in less than 4.22 and Saturday hopes to beat 4.20 which will without a doubt break any freshman record that has ever been made.

Nothing can be learned about the rest of the team as their entry list has not been received yet. The teams entered are composed of 18 men and are limited to three men in any one event.

**Stadlerman on Shot-put**  
On Oregon's part there are no stars, but nevertheless several outstanding men. Stadlerman in the shot and javelin events has been making good marks, getting as far as 43 feet in the shot and consistently puts it over 42. No record has been kept of his throws with the javelin, but he has been getting some good casts. Stadlerman has not had competition and what he will do is not known.

McKennon is another good all-around man. He runs the quarter in under 52, and the high hurdles in 16., and he gets a good heave on the javelin.

McCarthy in the quarter has been making good time and under pressure will get around 51.

Browne in the dashes and Kelley in the hurdles are both good for points. Browne is a very strong runner and will make fast time if he is forced. Kelley is the best bet the frosh have in the hurdles, his best times being made in the low hurdles. There are several good half-milers with Web Hayes being the pick of the lot.

**Mile Race Features**  
The feature race of the meet will probably be the mile relay. At the Washington relays the two teams battled neck-and-neck with the Trojans winning by a scant foot. The frosh are all "hopped up" over the possibility of taking the babes' measure in this event.

Tryouts in a few events were held yesterday. The results are: 100 yard dash: Browne, Peffley, Gibbsey. High hurdles: Kelley, McKennon. 880, Wiley, Jeffries. 440: McCarthy, Hudson, Robertson, Hammill.

### High Schools to Decide Debate Championship

Ashland and McLaughlin union high schools have just won the Oregon High School Debaters' League

contest in western and eastern Oregon, respectively. They will debate at the University May 19 for the state championship.

Ashland has won the championship once before. Each team has two members, and the subject for debate will be "Resolved that a severance tax should be made a future system of taxation in Oregon." Ashland has the affirmative, and McLaughlin the negative.

The winner will be awarded the DeCou cup, which was presented by E. E. DeCou, head of the mathematics department at the University. Mr. DeCou was founder and first secretary of the League. Dan E. Clark, of the extension division, has been secretary for the last six years.

### 'Sports for All' Program of School Includes Water Polo

Sports for all, the motto of the athletic department, in co-operation with the school of physical education, is taking hold in the sporting world of the campus this spring.

Intramural track, baseball, water polo and tennis are in vogue at present and hundreds of students are participating in the sports, according to announcement of the physical education school.

The latest innovation is international water polo as played by leading athletic clubs and colleges on the Pacific coast, Edward F. Abercrombie, swimming and head tennis coach, has an intramural league of eight teams playing one game each per week at present.

Beta Theta Pi with three victories to no defeats is leading the league at present.

Leslie Kirkham, winner of the celebrated cross-channel swim staged by Abercrombie last fall, leads the league in individual scoring with seven goals in a trio of games.

Abercrombie's freshman and varsity water polo squads, now engaged in a seven series, have played three to date with the varsity winning the second and third 6 to 5 and 4 to 1, while the Webfoot ducklings took the opener 3 to 0.

The two aggregations will vie next Tuesday night in the fourth encounter. Two intramural league games will be staged prior to the varsity-frosh fracas. The remainder of the sked will be played Thursday.

### Independents Defeat Sigma Nu by 7-6 in Extra-Inning Battle

Sigma Nu and the Independents scratched and chewed their way through a hectic three extra-inning ball game yesterday afternoon. The claws of the Independent outfit proved the sharper by a 7 to 6 margin.

At the beginning of the fifth inning the Independents led 3 to 1, and the boys were gathering up their bats to go home. But the Sigma Nus decided they didn't want to go home just yet. With two men out they started a little five run rally that put them in front 6 to 3.

Behnke tripled and DeBusk was hit by a pitched ball. Behnke scored on Warren's single. Then came the prize play of the year. Dahl lofted a high fly over the pitcher's box. The whole infield got together, but nobody caught it. Someone picked the ball out of the scramble, and heaved it toward third base, but third baseman was gathering daisies in the distance. The ball sailed into the outfield and Dahl raced home, clearing the bases.

The Independents evened up the count again in their half of the fifth. Chastian singled scoring Harbon; Chastian came in on Packer's double who then scored on an error. A long sacrifice fly by Goetz tallied the winning run in the eighth.

The Independents chalked up two runs in the first when Harbon and Nelson crossed the plate on Old's bingle. Sigma Nu counted one in the third when Davidson fanned two men in a row, but Packer, Independent catcher, thought it was three and walked away from the plate, letting in Dallas.

Yesterday's defeat eliminated Sigma Nu. The Independents will play the winner of the consolation round to qualify for the finals.

**Score:**  
Sigma Nu ..... 6 6 5  
Independents ..... 7 6 3  
Batteries: Kretzer and Hodgen; Davidson and Packer.

### Life's History, Found In Oregon, Discussed

Dr. E. L. Packard of the geology department spoke to the Round Table, which had its annual "Ladies Night" Tuesday, at a dinner at

the Osburn hotel, on "History of Life, and General Geological Conditions."

He gave particular reference to the history of life in central Oregon, showing the geological formations discovered in eastern Oregon from the days when Condon first went into the region, up to the present time, including last year's field session when the University sent an expedition into that region. He told of the strata of the region, describing the position of the seas which swept over eastern Oregon, and the deposits made by them.

"The contributions of central Oregon to the history of the life of the coast have been very conspicuous, and recent discoveries indicate that further contributions may be expected," said Dr. Packard.

### Olive Banks Enters Race for Secretary

Olive Banks is a candidate for secretary of next year's junior class, according to an announcement made today by Bob Foster, president of the present sophomore class. Miss Banks' name was added by a petition signed by seventy-five sophomores, and her name will be entered on the ballot.

Miss Banks has been very active on the campus during the past two years, being a member of Kwama and manager of the sophomore girls' track and swimming teams. She has taken part in committee work and in several branches of athletics.

Elections will be held in Villard hall Tuesday.

### Ruth Miller, Senior, Awarded Bryn Mawr Scholarship of \$350

Ruth C. Miller, senior in biology, has been awarded a scholarship to Bryn Mawr college for the coming year. The scholarship, which amounts to \$350, has no restrictions and may be used by Miss Miller as she chooses.

Miss Miller also holds a graduate assistantship at the University of Washington biological station at Friday Harbor, Washington, for the summer. Last year she was a student at the station, and the year previous studied at the University station near Bandon. She expects to leave for the East late in September.

Research work in biology, probably for a master's degree, Miss Miller states, will be the type of work she expects to do on the scholarship which covers the period of a year.

She is the daughter of Dr. and Mrs. J. M. Miller, and is a member of Phi Beta Kappa, scholastic fraternity, Dial, discussion group, and Kappa Kappa Gamma.

### Big Splash as Varsity Water Polo Team Wins Over Lowly Frosh 4-1

Varsity water poloists asserted themselves in the last half, and before a crowd of spectators, both he's and she's, showed the frosh

how the game of "sink or be sunk" was played, to the tune of 4-1, Tuesday night.

The first game of the series was a frosh walkaway, 3-0, but the luck didn't last, and the second turned out 6-5, varsity. The boys seem to get such a kick out of the weekly battles that the series will run to seven games, instead of five.

Reed, varsity, and Silverman, frosh, are tied as high point scorers with five net throws each.

Donut seals are tossing the ball

at a great rate, three teams of splashers meeting tonight at seven. Last Tuesday the Betas retained their position at the top of the list by sinking Chi Psi 3-1, while the strong Independent team advanced another notch by pulling down four goals to the Phi Sigma Kappa three.

Kirkham made three of the four, and is high point man of the entire series, with seven to his credit.

Teams playing tonight are Delts vs. Sigma Nu, Betas vs. Kappa Sigs, and Friendly vs. Chi Psi.
