

Morocco Mourns Sultan Who Rode Bicycle Around Gardens For Fun

'Grand Pacifier' Dies After Life of Usefulness

(By United Press)
 FEZ, Morocco, Nov. 17.—Mouley Youssef, the sultan who enriched his nation by the introduction of modern methods of industry and transport, was mourned throughout Morocco tonight in accordance with the ancient rites of the Moslems.

On the desert thousands of the sultan's subjects knelt in the sands; in the towns they prayed in mosques—all facing Mecca.

Mouley Youssef, who came to the Moroccan throne in August 1912,

the day after the massacres of Europeans in Morocco, died of uremic poisoning from which he had suffered for a year.

He fought a long, victorious campaign against the rebels and Morocco will remember him as the "grand pacifier."

Although a sincere traditionalist, Youssef sometimes strangely mixed traditions with the ultra modern.

Stepping from under a massive umbrella—the most outstanding insignia of power—the sultan would mount a bicycle imported from France, gear his riding robes under the seat and flow for an hour or more in the palace gardens.

Maude I. Kerns Granted Leave For Two Terms

Normal Arts Instructor To Make Art Survey In Europe

Miss Maude I. Kerns, head of the department of normal arts in the school of architecture and allied arts, has been granted a leave of absence by the University, which will run from January 1 until the end of spring term. She will spend this time traveling and studying in the east and in Europe.

During her absence Donald B. Simpson of Seattle will probably take charge of her courses, Ellis F. Lawrence, dean of the school, announced.

The appointment of Simpson, who visited the Oregon campus Wednesday, was formally recommended to Karl W. Onthank, executive secretary of the University, yesterday. He is asked to report here the first of December so that he may have the last two weeks of the term with Miss Kerns, to observe her methods and become acquainted with the work.

Mr. Simpson is a graduate of the University of Washington, where he specialized in normal arts and received the degree of B.A. in education. He has also attended Columbia University, and obtained his M.A. degree in the spring of 1927. Because of his preparation and outstanding recommendations, he has the unanimous approval of the faculty of the school, Dean Lawrence stated. They believe that he is entirely capable of carrying on the normal arts work. Miss Victoria Avakian, Nowland B. Zane, and Mrs. Vera McGinty are the members of a faculty committee which will assist him.

Miss Kerns has made tentative plans for her trip. She expects to arrive in New York about the middle of January, in order to be there at the height of the mid-winter art, music, and theater season. She will visit the exhibitions, galleries, and university art departments in Chicago, the Barnes Foundation in Philadelphia, and the Freerer collection in Washington, D. C., and will probably stop in Boston, on her way to New York, making a survey of art conditions. She will spend a few weeks at Columbia University, where she was graduated in fine arts after her graduation from the University of Oregon.

"From New York I will go directly to Paris for the art exhibitions and the opera in the heart of the season," said Miss Kerns. "I will do some studying there; in fact, a study of modern art in Europe is my purpose. In 1913 I went across the continent looking up the unusual in art, and I want to go on with that now.

"In the spring I will sketch in Spain. Then I will go to Italy, northern Africa, Egypt, Athens, and to Vienna to study again. From August 1 to 7, I will attend the international art conference at Prague, to get a line on the educational side of art in general. I will then return to Paris, where I will be with my niece, Mary Chambers Brockelbank." Mrs. Brockelbank received her master of science degree at the University of Oregon in 1921.

Miss Kerns will be back on the campus at the beginning of the 1928 fall term.

Anti-Bratianu Party In Bulgaria Scores Its Signal Victory

(By United Press)
 BUCHAREST, Nov. 17.—The Bratianu government was impeached in Parliament by M. Julian, peasant party deputy.

Julian presented a long list of alleged illegalities which the government had committed beginning with the arrest of M. Manolescu, the Carol envoy, and ending with the acquittal of the former under-secretary of finance on conspiracy charges.

The move marked the first step in the new anti-Bratianu offensive.

Overcrowded State Confronts Infirmary

It was thought that the infirmary was as doomed as the Webfoot if the list of entrants didn't increase, but it is up to its usual form once more. After Homecoming, casualties and colds began to seek entrance to its portals. There isn't a bed to spare at present. Colds

British Theaters Must Use Some English Films

(By United Press)
 LONDON, Nov. 17.—Great Britain's effort to break the United States monopoly of the British motion picture market took another step toward realization today when the house of commons passed the British film bill.

Passage by a vote of 223 to 125 came after three days of acrimonious debate featured by unsuccessful attempts of the opposition to pass amendments aimed at weakening the measure.

The bill, which provides theaters must book a certain percentage of British films each year, was vigorously opposed by numerous theater owners.
