

### Frosh Hoopers Defeated Again By Aggie Babes

#### Second Tilt With Rooks This Season Ends 37 to 20

#### O.S.C. Yearling Crew Said Best in Many Years

The Oregon freshmen eagers, apparently harkening back to a certain biblical admonition, turned their other cheek Saturday night in their second set-to with the hustling Aggie rooks, who, obligingly meted out a "slapping" in the form of a decisive frosh trimming, 37 to 20.

From the start the Orange youngsters held the whip hand. Within a very few minutes the score was 10 to 2. The rooks could not miss. When the frosh rushed their passing attack so the rooks couldn't find a man to relay the ball to they gave the leather globe an unconcerned flip or a mighty heave, relative to the distance intervening, toward the duckling hoop, and almost invariably the score keeper would have to bestir himself to scratch down another marker for them.

#### Rooks Too Good

Spike Leslie, frosh mentor, has sagaciously opined that this O. A. C. yearling crew is the best the Aggies have had for some moons, and after watching them humble the Oregon frosh so conclusively, grounds are apparent for this assertion.

In the first half Leslie started Horner, Archer, Eberhart, Olinger and Calkins. Lillie got in for a short spurt near the finish. The score at half time was 19 to 10 for the rooks.

After the rest period Spike again started his opening five and the rooks again started their basket looping. Seeing little left to lose and in hopes that something new and novel might be forthcoming, Coach Leslie began making substitutions right and left.

Walgren was sent in at center, shifting Eberhart to guard and relieving Calkins. Then Makinen went in for Horner. Devorak went in at forward for Archer. Before the half was over the entire twelve duckling basketeers who had made the trip broke into the lineup.

#### Three Games This Week

Two new frosh made their debut in frosh conference circles in the persons of Kenneth Kluk, a cherub faced "hot-hand" expert and Max Biffenstein, diminutive brunette. Max, whose official "moniker" to the rest of the frosh hoopers is "Rubie," is one of the boys who viewed the Chicago stock-yards last year with the champion Eugene high school basketball squad.

Although in the game but about eight minutes, Max made the longest shot of the tilt. Standing in mid-floor he took a pass from Stoddard and seeing nothing but rooks around him, gave a long heave and—presto! The basket counted.

Eberhart and Olinger were high pointers for the frosh with seven markers each. For the rooks Ballard made 16 and MacLeod 10. The frosh have three games this week. Thursday they meet the Salem preppers here and Friday the rooks. Saturday they invade Corvallis again for what will probably be their last game as the tilt with the Washington frosh in Seattle on February 25 may not materialize.

### Five o'Clock Chorus Selects New Officers; Will Sing at Bungalow

The Five O'clock Chorus, which will sing during the services this afternoon at the Y. W. Bungalow, completed reorganization yesterday under the direction of Margaret Lee Slusher, new leader. Officers were chosen and new members were admitted.

Katherine Galbraith was elected president; Catherine Mayhew, secretary-treasurer; Ann Maller, librarian, and Frances Perry, accompanist.

Mildred Tuggle, sophomore on the campus, will lead the Five O'clock today, and Miss Dorothy Thomas, Y. W. secretary, will speak. The services are held every Tuesday from 5:00 to 5:30, and are open to all Oregon women. The program for today follows:

### Juniors Name Finance Group For Week-end

#### Cohn Appointed Chairman Of Body To Discuss Expense Budgets

An innovation of Junior Week-end administration this year will be a finance committee which will consider financial matters pertaining to the events of the week-end.

Mel Cohn has been appointed as chairman of the committee since his duties as associate to Joe McKeown, chairman of the directorate, automatically place him in general charge of the financial situation. His assistants and the events they represent are: Joe Roberts, Junior Revue; Ronald McCreight, Canoe Fete; Ed Winter, Junior Prom; Bill Eddy, Campus Day; Edith Dodge, Campus Luncheon; and Bill Haggerty, publicity.

The budgets are to be first prepared by the directorate heads before presentation to the finance committee. They will then receive a thorough discussion as to possible changes and modifications at the hands of the committee. The directorate will be the final authority on the recommendations given.

"The Junior Week-end is to be conducted entirely on the utilitarian basis this year," said Cohn yesterday. "Previous years have shown that Junior Week-end has incurred so large an expense that the directorate has usually lost money. While we are not planning on making a financial proposition out of this Week-end, we do hope to better conditions of former years by planning far enough ahead to make the budgets conform to the receipts."

Not welcome "YOU" because that means that there is no selection going on here. We know that there is a selective process going on here and that unless the standards are lowered it will continue as is. Such statements are too general and are not based on sound educational guidance principles. One of the biggest troubles in the secondary school of today is to get the student to realize that he might be better off if he were working out an apprenticeship in some trade rather than trying to make an entrance into one of the professions. I can see that this literature when read by the students of the state will cause them to have thrills and chills and cause them to resolve to do or die in an attempt to get an education in this our state University.

Nowhere do I find mention of the fact that those who are expected to come should have any assets except ambition. Nothing is said of scholastic ability, social prestige and the ability to pay the rent. I can see where a lot of people with ambition are going to get into trouble.

Another thing which I was interested in reading was: "The campus at Eugene is splendidly equipped. Large buildings, adequately housing the laboratories and classrooms needed for the various courses are provided." Need I say more?

In short and in conclusion: Has it come to the place that our University must sell itself to the students of the state? Has the time come when each department must hang out a shingle: Here's where you get the real unadulterated article; you can't live without it; get one while they last; only a limited stock; selling for \$3.98, marked down from \$4.00; just give us a few minutes of your spare time, etc. The leaflet I have before me is the best invitation that I have ever had to enable me to become "college bred" by partaking of a "four-year loaf."

out literature which to me is ridiculous. The thing which strikes me as being most unwise and unethical is the placing of the president's picture on the outside of this leaflet. Unless I am mistaken the leaflet is sent through the mail unenclosed. This being the case I leave it to your imagination as to just what condition that very fine portrait of our president will be in when it gets out to the reader in the various parts of the state. The impression that his picture should make will be lost in postoffice ink and the grime of the mail sacks and will certainly be some the worse for wear.

Near the right hand corner of the president's picture we notice these three lines:

You are welcome at the University of Oregon  
"The institution that serves the entire state."

The first part of that statement takes in too much territory to be consistent with the policies of the campus faculty. The University can-

### Brilliant Masculine Note

To the Editor:  
The little friends of you and me—the girls, if you please—once every term put on what is termed a Dime Crawl. For a ten-cent piece they let you come in and dance, which is all very nice.

Now that this is leap year and everything being written is on the subject of the female taking the initiative, why not have a Leap Year Dime Crawl next term, featuring the women in visits to the men's houses?

Or if the women kick at this let the men pay a dime for every woman that visits their house during the evening. How's that?  
Yours for bigger and brighter-working ideas on leap year.

### A Fig for the Fellow Who Can Cap These Rare Nom de Plumes

Have you had your Segurellas for breakfast this morning? No? Tell your house manager that he is overlooking a good bet then, because they are the cheapest variety. If you don't care for that kind perhaps you will be interested in Kiverellas, Negronnes, or Lattarullas. (They're all figs, you know.) It doesn't pay to ask for the Kadota, Granata, or the Smyrna though, because, even if they are the largest and most luscious, they are also so expensive that even Santa hesitates to put them in poor little rich girls' and boys' stockings.

Romantic names are not limited to the latest song hits, but are well distributed among the figs. There are Blue Celestial, Magnolia, and Black Spanish ones. There is even a Brunswick.

Everyone whose hobby is good eats or long names should go up to the top floor of Deady and look over the figs. They are all nicely preserved in glass jars, and, though the botany department won't let you eat them, you are perfectly welcome to stay the whole afternoon and gloat!

One of these superstitions was that Madame Pele comes down from the mountain just before an eruption and asks for cigarettes and tobacco. One day when news was scarce one of our reporters wrote a thrilling story about Pele appearing in the town. Imagine our surprise when not long afterwards Mauna Loa erupted!"

### DIAMONDS

Dear Friends:

I've heard of lot about the "law of diminishing returns," and have always wondered just what it was all about.

It sounds as if it might have something to do with the Eugene School election.

But I've figured out this much about it. It doesn't have anything to do with diamonds. There's nothing "diminishing" about them. They never wear out and are always worth the money.

Which puts them rather in a class by themselves, when you think of automobiles, overcoats and groceries.

And it just goes to show that a diamond is not a luxury. It's really an investment.
