

### Vacation Denied To Health Force

### Smallpox Prevalent Now; Vaccination Urged

Fred N. Miller M. D., University physician, yesterday issued the following statement regarding the health service:

"The University Health Service will be in operation during the entire spring vacation. It is the policy of the Health Service to furnish continuous service seven days a week throughout the school year, from September to June.

"As experience has shown that there is very little call for service during the vacation periods, only the Infirmary is kept open. The Dispensary will keep its regular hours from eight to twelve and from one to six through the examination period and until noon of Saturday, March 17. After that students who desire medical attention may receive it at the Infirmary whether that attention requires bed-rest or some simple treatment as for a cut.

"Although the Infirmary will be open all the time, students who desire regular treatment from day to day are asked to report between nine and twelve. One of the staff physicians will be on call at all times and may be reached as necessary through the nurses at the Infirmary.

"At the beginning of this term the Health Service advised students who had never been vaccinated or who had not been successfully vaccinated within the past five years to be vaccinated at this time. Attention of those students who came from Multnomah county was especially called to the high incidence of small pox there.

"Conditions in Portland and throughout the state have not improved and according to the weekly report of the state board of health there were 62 new cases of small pox reported in the state for the last week, 40 percent of these being in Multnomah county. Students who wish may be vaccinated before they go home. As the Health Service never has a large supply of vaccine on hand as it deteriorates rapidly, it would be best for students who wish to be vaccinated to come to the Dispensary and see the girl at the office for an appointment a few days before the vaccination, which should be done after the examinations are over or a few days before, as it takes some time before any soreness develops.

"The Health Service in vaccinating follows the technique advised by the U. S. Public Health service which is quite painless. In this day and age there is no valid excuse to avoid vaccination and this should be done as often as necessary to get a 'take,' and repeated now if the last 'take' was over five years ago."

### Intramural Athletes Have Seven Big Tilts

The Big Chief of the intramural bakeries has declared the winter donut season a huge success. More have indulged in this luscious fruit than ever before.

Baking started with the turning out of an oven full of grapplers. The Independents took this team competition with astounding ease. Then came a batch of sluggers, hard-baked leatherpushers who delighted the fans of fistcuffs. This was free lance fighting, known by a more polite term as boxing.

### Hiking Party Planned For Spring Vacation

A hike to the summit of Mount Baldy from the Coburg bridge is one of the diversions being planned for students remaining in Eugene during the spring vacation. A committee of the organization for united Christian work on the campus, on which both the Y. M. C. A. and Y. W. C. A. are represented, is working on plans for transportation and entertainment.

Everyone on the campus is invited, and those wishing to go should get in touch with Mr. H. W. Davis, director of united Christian work on the campus, at the "Y" hut as soon as possible. Transportation will be provided to the Coburg bridge, and the remaining distance will be covered on foot. The date and all details can be secured from Mr. Davis.

original permission for organization having come from that body.  
A permanent resolution concerning class dances was accepted by the council, after complete investigation had been made. Hereafter it will be necessary for representatives from the class giving the dance to appear before the student council with plans and approximate costs, at least two weeks before the date scheduled for the dance. A maximum amount will be set to cover costs, after the plans have been approved, it being thought unwise to set an arbitrary amount, and requiring all dance committees to comply with it. The committee making the investigation was made up of Doc Robnett, chairman, Dean Elmer S. Shirrell, Donald McCook and Wendell Gray.  
A telegram of congratulation will be sent to the Round-the-World debaters by Donald Beclar. It was reported that they would return to the campus around April 20.
