

## W.A.A. Girls To Go To Arizona

### Pair to Attend Convention Of Western Section In Tucson

Dorothea Lenseh and Nellie Johns, president and last year's president of the Women's Athletic Association on the campus, will be delegates from Oregon to the convention of the Western Section of the Women's Athletic Association, which meets this year at the University of Arizona, Tucson, April 19, 20, 21.

Miss Lenseh and Miss Johns will take with them an exhibit of W. A. A. activities and women's athletics in general, and scenes of the campus, which will be shown in competition with those of other represented colleges and universities. A cup will be awarded for the best exhibit. Eleanor E. Johnson has charge of making a scrapbook which will include snapshots, programs, and other features of W. A. A. work. Kennell-Ellis is loaning 33 large photographs of women's athletic events and campus buildings for the convention.

#### Exhibits to Be Shown

Sweaters, blankets, gymnasium costumes, emblems of the various sports clubs, souvenir programs from past playdays, field days, athletic meets, dance dramas, etc., copies of "The Athletic Bulletin," W. A. A. campus publication, copies of record cards, reports, and budgets of W. A. A., and various posters and pictures will be shown in Oregon's exhibit.

The Oregon delegation will have charge of presenting a report on the following topics before the convention assembly:

- Limiting of the number of sports allowed each individual per season.
- Faculty and Alumnae games.
- Use of student coaches in intramural sports.
- Sports offered in intramural programs.
- Offering sports in intra-

mural programs which are not offered in class work.

#### Olympic Games Considered

Much of the important business of the convention will be disposed of in round table discussions. The question of W. A. A. participation in Olympic games will probably receive considerable attention, in view of the fact that the 1932 Olympic meet is to be in Los Angeles.

Delegates will be taken on a trip to Nogales, Sonora, Mexico, as the main event in a program of entertainment planned by the Tucson organization.

Any girls who know of material of interest to add to the exhibit are asked to leave it on the round table near the office in the Woman's Building.

### Recital to Be Given by Music Faculty Soloists

Next Wednesday night, April eleventh, Miss Miriam Harriet Little and Mrs. Aurora Potter Underwood, both of the school of music faculty of the University, are to give a joint recital in the school of music auditorium at 8:15 o'clock. This will be the first of the Wednesday evening faculty recitals this term. Mrs. Underwood is a pianist with whose ability and technique the campus is already familiar, but it will be the first opportunity of hearing Miss Little, an accomplished cellist, in a solo recital. One special feature of the program will be a sonata of Rachmaninoff for the piano and cello.

### No Courses Put On After Saturday Noon

Today and tomorrow are the last days for adding courses. Until noon Saturday courses may be added for one dollar per course but after that date none can be added, dollar or no dollar.

The petition to add must be signed and handed in by Saturday noon. Taking out a petition blank at five minutes to twelve Saturday does not get by, it is announced by the registrar's office.

## Miss Wilbur To Travel and Study In Europe With Select Group

Europe, theatres, plays, famous directors and ideal traveling accommodations! It sounds like some advertising pamphlets, but in this case it is the real thing. Miss Florence E. Wilbur, director of drama, will leave Eugene June 29 for New York where she will sail for Europe July 7.

A party of 24 directors of drama from all over the country is being formed under the leadership of Jack Crawford, a Yale professor. All arrangements will be made for the party in advance. This is the first time that a select group of dramatists has ever toured Europe under such favorable conditions.

The directors will study during the voyage across and coming back, so that the summer months will be full of sight seeing and study.

Special arrangements are being made for the National Drama League party to see the Shakespearean country, Birmingham theatre, Warwick and other places of interest in England.

Miss Wilbur mentioned the meeting, which is planned, with Max Rhinehart and Rudolph Kohned, famous directors. After the conference with Max Rhinehart, she will see "Midsummer Night's Dream" produced by the renowned director. Besides her stops in England and France, Miss Wilbur will visit Rome and Berlin devoting most of her time to the study and inspection of theatres. This trip will afford Miss Wilbur an opportunity to see all the back stage workings of the theatres, since members of the drama party will be at liberty to go and come as they please about the theatres.

In New York, Miss Wilbur will join her sister who is going to Paris for the summer to study French. It is quite probable that they will make the return voyage together.

Following the busiest drama year

His new Ryan monoplane here today.

As Lindbergh was taking down the field with B. F. Mahoney, builder of the plane, as passenger, a commercial plane swooped down in front of him to land.

Lindbergh gave his ship left rudder, swerving into rough ground, and was forced to return for a new take off.

"She flies fine," said the lone eagle when he landed after a 15 minute flight over San Diego, with

Mahoney. Lindbergh took his new ship off the ground for the first time at 10 a. m. with Don Hall, designer of the Spirit of St. Louis, as passenger. He was in the air for more than an hour.

Later he went up for a second flight.

#### King Kisses Beggars' Feet

MADRID, April 5.—(UP)—In the palace of Kings today, King Alfonso and Queen Elizabeth of Spain washed and kissed the feet of 12 poor men and 12 poor women as an act of humility—a 1,000 year old ceremony performed on every holy Thursday. The 24 men and women whose feet were washed by the Spanish sovereigns were selected a few days ago. Until today they submitted themselves to a scrupulous body cleaning. They wore the finest linens obtainable, were dressed in formal clothes and perfumed. The high galleries of the palace were crowded with persons.

MEXICO CITY, April 5.—Competing on foreign matches for the first time in 9 years the United States Davis cup team Friday afternoon begins its campaign to regain the historic tennis trophy from France.

Led by Wm. T. Tilden II, of

Philadelphia, the United States team will meet Mexico, in the opening matches in the America zone competition.

John Hennessey, young Indianapolis star, will swing the first racket in the long quest when he meets Ricardo Tapia, in the opening match. Immediately afterwards Tilden will oppose Robert Kinsey, the former California star, who is the captain of the Mexican team, in the other singles match.

SEWARD, ALASKA, April 5.—More than 48 hours had elapsed to night since word was lost received from Capt. George Wilkins, famous arctic explorer, believed to be at

Point Barrow, preparing for a flight across the north pole to Spitzbergen.

Tuesday night Capt. Wilkins messaged here that he was waiting for favorable weather before starting across the arctic wastes. He said he planned to take off today at 6 a. m.

Army radio operators here were of the opinion that he and his flying companion, Lieut. Ben Eilson, had dismantled their radio and were installing it in their Lockheed-Vega plane. They said if this were true the aviators probably would not be heard from until they were in the air, as the generator of the radio set is wind-driven.
