

### Donut Trackmen Compete Today

#### Trophy Offered Winner Of Annual Meet

The annual intra-mural track meet, to be run off on Hayward field today at 1:30, will be watched closely by Bill Hayward in order that no unknown possibilities might go undiscovered.

This is the last competitive meet before the Oregon-Aggie relay carnival here next Friday. The Web-foot team has suffered severely recently through the loss of men, and Hayward is attempting to uncover new material to bolster the squad. On the Saturday following the relay meet with the Beavers, the Oregonians will go to Seattle for the annual University of Washington relay races.

A silver trophy presented by Danks and Company, Portland jewelers, will go to the organization winning the meet tomorrow. All the teams entered are said to be strong, and Hayward anticipates one of the closest meets in donut history.

The following list of officials have been announced: referee, Hayward; starter, Oberteuffer; clerk of course, Nish Chapman; announcer, Warner; judges of finish, Standard, Wetzel, Hill, McGee and Herbert; timers, Morris, Widmer, Leslie and Herbert; field judges, Phillips, Warren, Dixon, Stager, Montgomery, DeMers, Sowell and Hall; scorer, Schade; marshalls, Harden, Wood, and Kerns; press, Pigney.

### Portland Judge Speaks Before Law Students

Judge H. M. Tomlinson of the Municipal court of Portland addressed members of the law school Thursday night on "Reminiscences of Experiences on the Legal Side of City Government."

Judge Tomlinson reviewed the growth and progress of municipal government in Portland during the twenty years he has been there. He explained the commission plan of city government, civil service, the

traffic problem, and the constitutional right of a city to regulate zoning of buildings. He also spoke highly of the city managing plan and pointed out that all the newer plans of government find their origin in the city rather than in the county or state governments. The judge related with praise how the University medical school had cooperated with the municipal authorities in the inspection of dairies.

Judge Tomlinson spoke informally and captivated his audience by his pleasing personality. He has been in Portland almost twenty-one years and has a vast store of experience accumulated during this period.

Orlando J. Hollis, president of the law school student body, was toastmaster. Dean Carpenter introduced the speaker.

### U. C. L. A. Fraternities To Enter Oratory Meet

Los Angeles, April 20—(P. I. P.)

Ten fraternities have already announced their intentions of entering the annual Pi Kappa Delta oratorical contest to be held April 24 at 7:30 o'clock in Millsbaugh auditorium. Preliminaries will be held the same day at 3:30 o'clock.

The contest is open to any organized fraternity on the campus, but no one will be allowed to enter who has participated in varsity debates for the University. Speeches are limited to ten minutes, and may be on any subject, provided that they are the original work of the speakers.

Dr. Mueller discusses idealism, naturalism, and the medieval philosophy of life.

### Leland Shaw Elected Craftsman President

Leland Shaw was elected president of the Craftsman club for next year at a meeting Thursday night at the chapter house. He has been a prominent member of the club for the past five years and has been active in degree work and on the executive council for the club.

Other officers elected at the same time were: Vice president, Professor Alfred Lomax; secretary, Ross Glass; corresponding secretary, Kenneth Shumaker; treasurer, William Hargreaves; executive committee, associate professor A. S. Kingsmill.

The degree team of the club is planning a trip to the Roseburg Masonic lodge on Saturday of this week. They will be accompanied by Masons from Eugene.

A trip is planned for the degree team next week. Portland will be the first stop on Thursday, April 26, and Forest Grove the second, on Friday.

### U. of W. to Sponsor Political Convention

UNIVERSITY OF WASHINGTON, Seattle, April 20—(P.I.P.)—Thrills and excitement of a national political convention will be experienced by the Washington campus next month when 600 University

students gather at Meany hall for a one-day mock convolve to duplicate the nomination of the president of the United States. The assembly is being organized by Pi Sigma Alpha, political science fraternity. Other assemblies of a like nature have been held in California schools, but this is the first attempt at Washington.

### Coolidge Sees Hope For Flood Control Bill

(By United Press)

WASHINGTON, April 20.—President Coolidge outlined to Republican house leaders tonight an amendment to the Jones-Reid Mississippi flood control bill which will make the controversial bill satisfactory to him and avert a veto.

The suggested amendment representing the limit of compromise by the president will be presented Saturday to the house flood control committee.

### Death Taken Calmly By Two Oregon Men

(By United Press)

STATE PRISON, SALEM, Ore., April 20.—Ellsworth Kelley, 32, and James Willos, 30, members of a convict band that shot its way to temporary freedom three years ago, were hanged here today.

Kelley went to his death at 8:31 a. m. and Willos followed his to the gallows at 8:52 a. m.

Facing death with courage, the condemned men mounted the fateful steps leading to their doom in a

calm and collected manner. Before leaving their cells they again declared they were innocent and denied that they had committed murder.

It marked the passing of a hold convict band that on August 12, 1925, stormed the warden's office, obtained revolvers and went over the prison walls, with their weapons spitting death.

**GENERAL ELECTRIC Refrigerator**

There isn't a bit of exposed machinery in the General Electric Refrigerator. It's all sealed inside one airtight steel casing—mounted on top of the cabinet. There isn't any mechanism under the box, inside it—or down in the basement.

To such remarkable simplicity have the engineers of General Electric brought the domestic refrigerator. For fifteen years they worked. They built thousands of refrigerators. Tested them in the laboratory and in homes. Changed them, improved them, perfected them... until this final example of simplicity and efficiency was evolved. It was primarily an electrical problem. And so it was solved, as one would expect, by the world's outstanding group of electrical engineers and scientists.

You are cordially invited to come in today and study the many models. Notice how quietly they operate. How roomy and strong the cabinets are. Remember, too, that they use very little current to make all the ice you need and keep the temperature always below the 50° danger point.

Sold on time, if you prefer. Send for an interesting descriptive booklet.
