

# Track Men Go To Pullman

### Meet Washington State On Friday; Varsity May Defeat Cougars

Sixteen varsity tracksters, Bill Hayward, coach, and Carol Williams, manager, leave for Pullman, Washington, today, where they meet the Washington State cinder artists in a dual meet Friday, May 18. Twelve events are to be on the program of the event, seven races and five field contests.

The Washington State track team has been going great in all meets entered so far. An 880 relay team placed first at the Seattle relays and the team has scored victories over Idaho, Gonzaga and Whitman. The Cougars are strongest in the middle distance races.

#### Arrive Thursday

The Oregon track team will arrive in Pullman Thursday morning, in time for a workout the day before the meet. The Oregon-W. S. C. meet is to be a part of an annual spring festival held at the northern school. On Saturday, the State College is sponsor to an interscholastic state high school track meet, for which the Oregon team will probably lay over.

So far this season, the Webfoot track aggregation has not won a meet, dropping contests to the Washington University Huskies and the O. S. C. Beavers. Chances for winning from the Washington State team are not particularly strong, but the Oregon varsity may be able to pile up enough points in the field events and sprints to annex the contest.

to be sure and look for the Alemite Sign

Practically all motor cars today are equipped with the Alemite High Pressure Lubricating System. This is the system which proved to the motor world that 80 per cent of repair bills can be eliminated by the proper kind of lubrication. But ever since Alemite established the importance of proper lubrication, thousands of greasing stations have sprung up and cheap greases have flooded the market.

ONE of the big hits from "A Night in Spain," the Broadway musical comedy. The Virginians have turned it into a dashing fox-trot, packed with the rich musical coloring that has made this dance-organization famous.
