

## Coolidge Kills Farm Aid Bill

President Says Measure Bureaucratic; Would Cause Surplus

(By United Press)  
WASHINGTON, May 23.—President Coolidge today vetoed for the second time within two years the McNary-Haugen farm relief bill designed to aid stabilization of the agricultural industry. No chance of passing the bill over the veto is seen now.

Action would have to come first in the senate since that body passed the bill first but the legislative jam would offer a justifiable excuse to lay the bill aside.

On passing originally the senate showed sufficient strength to pass the measure over a veto but the votes are lacking in the house according to the roll call there on the measure. The bill sets up a federal farm board appointed by the president which is to supervise surplus operations. For surplus operations a \$400,000,000 revolving fund is provided, half allocated to a loan fund, the other half to equalization fee operations.

In his veto message accompanying the bill to congress, the president pointed out the following as his objections to the measure:

Its attempted price fixing policy. The tax characteristics of the equalizing fee.

The widespread bureaucracy which it would set up.

Its encouragement to profiteering and wasteful distribution by middlemen.

Its stimulation of over production. Its aid to our foreign agriculture competitors.

In referring to farm products surpluses, the president said:

"The recurring problem of surpluses in farm products has long been a subject of deep concern to the entire nation, and any economically sound, workable solution of it would command not only the approval but the profound gratitude of our people. The present measure, however, falls far short of that most desirable objective; indeed, although it purports to provide farm relief by lessening the cares of our greatest industry, it not only fails to accomplish that purpose but actually heaps even higher its burdens of political control, of distribution costs, and of foreign competition."

## Frederick J. Libby To Speak at Luncheon

Frederick J. Libby, secretary of the National Council for the Prevention of War, will be the guest of honor at a luncheon given by the local branch of the council at the Osburn hotel Friday, June 1, at 12:15. Mr. Libby is making a tour of the country speaking on the peace movement and plans to go from Eugene to Albany and from there to Portland.

W. P. Maddox of the political science department rates Mr. Libby as one of the most prominent men engaged in the peace movement. He says, "Libby has gained the distinction of being placed on the famous D. A. R. blacklist which certainly entitles him to be heard."

Those interested, including faculty, students and townspeople, are requested to make reservations for the luncheon with either Mr. Maddox or the students, Christina Holt or Alson Bristol, before next Wednesday.

## Washington Graduate Is Author of 'Wings'

UNIVERSITY OF WASHINGTON, Seattle, May 23.—(P.L.P.)—John Monk Saunders, a graduate of the University of Washington in the class of 1919 and the author of the scenario of the motion picture, "Wings", appeared at the Metropolitan theatre at the showing of the picture, May 22. President Lyle M. Spencer introduced the author and the entire program was in charge of the alumni association.

## Last Women's League Tea Held; Florence McNerney New Head

The last Women's League tea of the year was given yesterday afternoon in the Woman's building. Musical numbers and dancing were furnished between the hours of 3 and 5.

Florence McNerney is to act as chairman of the teas for next year, and will take the place of Glenna Heacock who has made the plans for the ones of this year.

"We believe that the teas this year have come one step closer to the ideal of democracy which is one of Women's League ideals," said Glenna Heacock, chairman of the teas. "They have given girls a chance for a social time with those of other houses and with the independent women. It has promoted, we believe, a more democratic spirit for it is one of the few places where all girls feel free to go for a few minutes of sociality."

Members of Kwama and Thespian have served at these affairs, and because they are representative organizations they have helped girls make friends with each other.

## Washington Sponsors School Band Contest

UNIVERSITY OF WASHINGTON, Seattle, May 23.—(P.L.P.)—In response to a request of the National Bureau for the advancement of music, the University of Washington music department is sponsoring a band contest for preparatory school bands of Western Washington.

## Track

(Continued from page one)

however, that he will not run the low ones and in that case Bill Hammond will make his entry.

### Varsity Men Not Picked

The fact is that Hayward has not definitely picked a varsity team. "Bill" has ways and more ways of placing each man in the events which will bring in the points.

Entries for the freshman meet have been chosen, however, and here they are:

100—Lowry, Tuttle, Hill.  
220—Lowry, Tuttle, Hill.  
440—Anderson, Neal, Wilson.  
Mile—Hill, K. Neal.  
880—Makinen, Steel, Overstreet.  
Low hurdles—Seigmund, Maltby.  
High hurdles—Seigmund, Wood.  
Shot put—Hall, Christensen.  
Discus—Hall, Christensen.  
Javelin—Makinen, Lowry, Boone.  
High jump—Everts, Kitzmiller.  
Broad jump—Lowry, Seigmund, Heiberg.

Pole vault—Maltby, Boone.  
Relay—Anderson, Neal, Wilson, Runyan.

### Tentative Varsity Lineup

100—Prendergast, Kelly, Wetzel.  
220—Prendergast, McKennon, Pearson.  
440—Standard, Pearson, McKennon.  
Mile—Beal, Jensen.  
880—McKittrick, Overstreet, Ross.  
2 mile—Kuykendall, Winters.  
Low hurdles—Prendergast, Kelly, McGee, Hammond.  
High hurdles—Crawford, Kelly, McGee.  
Shot put—Dickson, Wetzel, Stager.  
Discus—Stager, Hildreth, Dickson.  
Javelin—Wetzel, Dickson.  
High jump—McCulloch, Crawford, Boyden.  
Broad jump—Bredthauer, Ord, McGee.  
Pole vault—Crowley, Sowell, Bracher.  
Relay—Ross, Standard, McKennon, Pearson.

## Geologists Get New Fossils

C. Dunbar Adds Collection Of Foraminifera to Lab Equipment

A collection of foraminifera from the Gulf Coast states, Europe, and various localities in the North Atlantic, has been added to the equipment of the paleontology laboratory of the department of geology by C. P. Dunbar, research assistant of Dr. E. T. Hodge. The fossil specimens, 700 in number, represent material from 28 different horizons, ranging in age from the Cretaceous to the recent, and is a collection of special importance to the training of petroleum geologists as well as having much scientific interest, according to E. L. Packard, professor of paleontology.

Foraminifera are small, usually microscopic, single-celled animals which are found floating at or near the surface of the sea, or crawling along the bottom of the sea where in certain sections they may be very abundant.

These small specimens, in order to be seen, must be mounted on slides. When examined under a microscope they show a wide range of form, each species having its own characteristics. The suggestions of technique in mounting and obtaining these specimens were acquired by the donor from association of students in laboratories and with the helpful assistance of Professors H. V. Howe and Ian Campbell of Louisiana State University, from where he was graduated.

In the past these shells accumulated in such large quantities as to form extensive chalk deposits which occur in various parts of the world. Foraminifera are of special interest from the standpoint of geology, says Dunbar, since they are used in the correlation of various geological formations, each horizon being characterized by a different association of species. Petroleum geologists are using them extensively to determine the geologic column of wells, as they are so tiny that they are carried up with the drill cutting and evidence the depth of the well and its contents.

## Will Your Car Be On The Highway This Summer?

## Dean Shirrell Elected To Secretarial Office

Elmer L. Shirrell, dean of men, was elected secretary of the deans of men of western colleges at their annual conference held at the University of Colorado, May 10, 11, 12, according to word received on the campus.

The deans met in joint sessions with the advisors of men, and President Earl J. Miller of the University of California presided. The delegates included: Fred L. Farley, College of the Pacific; Carl Morrow, Washington State College; Earl J. Miller, University of California at Los Angeles; U. G. Dubach, Oregon State College; C. B. Hershey, Colorado College; W. E. Nicholl, Pomona College; John D. Clark, University of New Mexico; J. M. Hamilton, Montana State College; and Karl T. Waugh, University of Southern California.

A nominating committee composed of Deans Culver, Nicholl, and Waugh recommended the election of U. G. Dubach as president of the association and Dean Elmer Shirrell of the University of Oregon as secretary. The committee also recommended that the invitation from Oregon State College to meet at Corvallis in 1929 be accepted. Both of these recommendations were unanimously accepted.

## Noted Actor To Direct Drama at Washington

UNIVERSITY OF WASHINGTON, Seattle, May 23.—(P.L.P.)—"Hobson's Choice," a comedy by Harold Brighouse, has been selected as the first all-University play of the summer quarter. Whitford Kane, noted professional actor, who will be a guest instructor in the dramatics department during the summer, will direct the production and take one of the leading parts.

## W.A.A. Archery Finals Slated for Today at 4

The class champions in the annual W. A. A. archery tournament will be determined this afternoon at 4 o'clock when four two-women teams will appear on Kincaid field and each individual will shoot 30 arrows on a fifty yard range.

The first round of the tourney was decided on the forty yard range Tuesday afternoon when the sophomore first team, composed of Marjorie Kelly and Ruth Jaynes, won from their nearest competitors, Mildred Johnson and Dorothy Dundore of the sophomore second team, by three hits and 17 points.

## Hikers To Climb Mountain Peak

Outdoor Club Sponsoring Trip Next Sunday

The Eugene Outdoor Club will climb Mary's Peak, the highest point in the Coast Range, next Sunday, according to Ed Thurston, who is leading the trip.

Private cars will take the members and friends to the base of the mountain. Guests of the club have been invited from Albany and Corvallis. Thurston believes it will be possible to drive within five miles of the summit. He adds that the panoramic view from there is worth hiking that distance many times, and that the Pacific Ocean may be seen if the weather is clear enough.

The party will leave the Chamber of Commerce at 7:00 a. m. Sunday, May 27, and will return that evening. Anyone interested, whether a member of the club or not, is invited to sign for the trip at the Co-op with Elmer Adams, or can notify Ed Thurston at 425-M.

Boots, preferably hob-nailed, will be necessary, as well as one lunch, cup and spoon apiece. A fee will provide for coffee furnished by the club. Each member of the party will be expected to share the expense of gas and oil for the trip if he does not take his own car.

A number of University students have gone on the Outdoor Club trips this season. Dr. John Bovard is president of the group, which was organized last fall, and is planning its first extensive outing during August. A two weeks camp will be established at the base of the Three Sisters, in the center of the country described by Dr. Edwin T. Hodge in his "Mount Multnomah." In fact, the camp site will be only a short distance from that of Dr. Hodge's group of geology students while making a survey of the site of the prehistoric mountain, of which the Sisters and several smaller peaks adjacent remain. All of them are snow-covered almost the year round.

## English A List Revised; 360 Fail To Take Work

Approximately 360 students who flunked the English A examination and are supposed to have taken the

course, have failed to do so, according to the revised list of names, made at the registrar's office. The list is posted upstairs at Villard.

According to Ernest Erkilla, who teaches one of the English A classes, some of the list are seniors, and they will not be allowed to graduate unless worked off.

Next year, owing to the increasing number of students enrolled in this course, a \$10 fee will be charged, to defray expenses of a teacher, said Dr. C. V. Boyer, head of the department. One hour credit will be given in the course.

## Board of Regents Meet Scheduled for June 9

The board of regents of the University of Oregon will meet on June 9, the Saturday before commencement. At this time they will pass on all candidates seeking degrees. They will also make appointments for the coming year.

# P.A. wins on every count

ANY way you figure it, P.A. is better tobacco. Take fragrance, for instance. Your well-known olfactory organ will tell you. And taste—who can describe that? And mildness—you couldn't ask for anything milder.

Yes, Sir, P.A. is cool and comfortable and mellow and mild. Long-burning, with a good clean ash. You never tire of P.A. It's always the same old friendly smoke. Get yourself a tidy red tin and check everything I'm telling you!
