Grad Work in Portland Planned By Powers

Dean Alfred Powers, Extension Division, is now working on the courses for next year's Portland Center session. New courses are being added and the other courses are being arranged in a more efficient manner.

Dean Powers Expects Large Summer Group

Over 3200 written requests have come in regarding the summer session, according to Dean Alfred Powers, extension division, besides the hundreds of personal inquiries at the Portland extension center and the Portland library.

STATISTICS NOT WORTH KNOWING If the rest of us had no more to do than the Student Council, then the University would be practically forced to give us a twelve month vacation each year.

FRANKLY, WE HATE TO SEE TO-KO-LO GET KICKED OFF THE CAMPUS. Our roommate belonged to it, for one thing, and then there are so many other organizations so much more worthless—the Seven Seers, for instance.

As for the new green lid that was made official; well, we'll bet none of the Student Council members have ever seen one.

Artists Praise Student Exhibit

Visitors Observe Work of All Departments

The exhibit of student and faculty work of the school of architecture and allied arts, which was placed on display for Visitors' day, May 24, received a great deal of favorable comment from the visiting artists and architects, who criticized the work of the school.

Emil Jacques, instructor in art at Columbia University, Portland; Harlan Thomas, dean of the architecture department of the University of Washington; Armond Bean, supervising architect in charge of the construction of the new men's dormitory on the campus; Harold Doty, Portland architect; and Mrs. H. C. Wortman and Mr. Wade Pipes of Portland, are among those who visited the campus yesterday.

One of the most colorful problems in the exhibit of the interior design department was the plan of a Russian Peasant tea room, by Hope Crouch, senior in the arts school. The detail was richly and vividly carried out against a background in which blue-gray predominated.

In the same exhibit, a drawing of the staircase leading to Alumni hall in the Woman's building, was gracefully and clearly executed. Two studies of nooks in Alumni hall were very realistic. Among the more modern problems were two plans of a physician's reception room, one by Mildred Vaughan, and the other by Grace Coey, both senior art majors. Some interesting wall paper designs were also shown.

It could be seen that the design problems traced a general history from ancient to modern. Many of the original problems had been inspired by old designs, and showed the prevailing influence of the old over the new.

From the painting department were drawings and paintings of the life classes. "The death of the poet," a study in black and white, received favorable criticism from Emil Jacques.

The plan of a college campus, a co-educational college of the liberal arts and sciences for eight hundred students, appeared among the architectural drawings. It was done by Raymond Thompson, graduate student in architecture. One of the most elaborate in this section was the plan of the "DeLuxe Hostelry Extravaganza," designed especially for political business and social gatherings, by William A. Johnson, sophomore architecture major. "A museum for a Tapestry and Textile Plant" by Lau Fook Tai showed a decided oriental influence.

A full figure study in life by Mrs. E. T. Hodge, graduate student in sculpture, was included in the exhibition from that department.

Studies in costume design, woven scarfs and table runners, books bound in the book-binding class, vases and bowls made in the pottery classes, decorated boxes, purses, and lamp shades were some of the articles exhibited by the industrial arts department.

'Alice In Wonderland' To Be Given Saturday

'Alice In Wonderland,' a play by Lewis Carroll, will be given at a Freshman Gambol Saturday afternoon at Guild theater. Students of the first year drama class will take part in the vivid play which is popular with both children and adults.

Harriet Hawkins, advanced student of drama, has been directing the work of the beginning class, since Miss Wilbur has engaged in plans for the commencement play. The drama will be given more particularly for children, with some invitations extended by the students of the class.

This will be the second attempt of the freshman class, their first production being "Spoon River Anthology," by Edgar Lee Masters.

'Alice In Wonderland' is a group of stories told by Lewis Carroll to a little girl some forty or fifty years ago. Before Mr. Lewis died he collected the stories in a volume and gave it to the woman who recently sold it to an American millionaire for \$75,000.

"Vo-dodeo Dough-dough, Vodeo-dough." —SHAKESPEARE

WHEN all the bright young men and women have passed their final examinations, the fun really begins. Commencement! Solemn robes! Solemn speeches! Solemn parents!

But gaiety afterwards, you bet! Gather all your friends and relatives together. Get out the food! And get out the bottles of "Canada Dry"!

This fine old ginger ale has a joyous sparkle, a rare dry flavor which makes it the choice of college connoisseurs all over the U. S. A. Its subtle gingery taste recommends it to particular palates. Its pleasing carbonation makes it go down with a gurgle of goodness. Because "Canada Dry" is made from pure Jamaica ginger and does not contain capsicum (red pepper), it does not bite the tongue or leave an unpleasant after-effect. Pure, mild, mellow . . . drink "Canada Dry" and see how good a ginger ale can be! It blends well with other beverages.
