

# Oregon-O.S.C. Teams Meet

## Cinderpath - Field Artists Clash at Corvallis Saturday

By OSCAR ARNBERG Sports Editor

Oregon State Daily Barometer OREGON STATE COLLEGE, Corvallis, May 24.—(Special to the Emerald).—When the University of Oregon cinderpath and field artists clash with the Oregon State tracksters on Bell field here Saturday afternoon, it will be the final athletic contest between the Webfoots and the Orangemen this year. Both teams will compete in the Pacific Coast conference meet June 1 at Missoula, Mont., but the coming meet will be the last one of a dual nature between them.

The Orangemen have won eight of the last ten dual meets with the Lemon-Yellow athletes, and have a slight edge in the dope this year. Some experts contend that the relay will decide the outcome, while again the unexpected may happen in some events with either team providing upsets to east well-laid predictions to the four-winds. The Washington meets have been used as comparisons. The Huskies defeated Oregon 94 1-2 to 36 1-2 at Eugene and won by an 81 to 50 margin at Seattle. Equality in the different departments promises to make the meet a real thriller, the teams battling from the time the starter's gun sends the century sprinters on their way until the relay men break the tape. Competition in sprints, middle distances, field events and long distances will be spread out more evenly this year than in the past. Ray Ogelsby, Oregon State sprinter, will not be in condition to compete due to a muscle strain received early this season.

The Orange entries announced by Paul J. Schissler, track coach, follow: 100 yard dash—Wendell Doty, Harlan Fleetwood, Harland Striff; mile run—Lee Hansen, Edgar Wolfe, Charles Webb; 220 yard dash—Bill Joos, Wendell Doty, Harlan Fleetwood; 120 yard high hurdles—Ralph Twitchell, and either Herb Disbrow or Ivan Martin; 440 yard run—Clyde Ritter, Bill Joos, Miller Nicholson; two mile run—Verne Gilmore, Charles Webb, and either Charles Binkhorn or Edgar Wolfe; 880 yard run—Lee Hansen, Paul Young, Captain Bayard Sisson; 220 yard low hurdles—Ralph Twitchell, James Guttridge, Ivan Martin; shot put—Roscoe Luce, Melvin Whitlock, Herb Disbrow; discus—Melvin Whitlock, Roscoe Luce, Ralph Twitchell; javelin—Melvin Whitlock, Charley Horton, Verne Eilers; broad jump—Harland Striff, John Scheychte, Wendell Doty; high jump—Logan Carter, Lawrence La Hue, Melvin Whitlock; pole vault—Neil Smith, Clifford McClean, Bob Hamilton; relay—Bill Wood, Clyde Ritter, Bill Joos, and Captain Bayard Sisson. Starting times include the pole vault, shot put and 100 yard dash at 2 o'clock; the mile run at 2:10; 220 yard dash at 2:25. The high jump, discus and high hurdles will be run off at 2:40 o'clock. The 440 yard run will start at 3 o'clock; the two mile at 3:10, with the javelin

and broad jump at 3:30 and low hurdles at 3:40. The relay at 4 o'clock will close the meet. Officials announced yesterday include: Director of meet—Bob Hager. Track manager—Don Giesy. Referee and starter—Del Ober-tuffor. Scorer—Barney Hafendorf. Announcer—Frank Patterson. Marshal—Amory T. Gill. Judges of finish—Arthur Morris, Walter Hamwell, Sam Dolan, Russ Perry, Jay Reynolds, Billy Reinhart. Clerk of course—George Scott. Timers—W. A. Kearns, Captain H. Lester Barrett.

## Former Students Win in Primary

## Eugene Voters Nominate Oregon Graduates

A survey of the ballots for Eugene for both republican and democratic parties in the recent primary election shows several University of Oregon graduates and former students among those nominated. Fred E. Kiddle, who was elected by the republicans as delegate from the state at large to the republican national convention, is an Oregon graduate, class of 1917.

Robert B. Kuykendall, of Klamath Falls, nominated on the republican ticket as a presidential elector, was graduated from the University in 1913. An ex-Oregon student, James W. Mott of Astoria, failed to win the republican nomination for congressman from the incumbent, W. C. Hawley.

Two of the three republican nominees for representative from Lane county in the state legislature were graduated from the University. E. O. Potter was a member of the class of 1887, while Lynn S. McCready, another candidate successful in the primary, is from the class of 1920. James K. King of Eugene, who was successful in winning the republican nomination for district attorney for this county, was graduated from the University law school in 1925. W. B. Dillard, renominated by the republicans for the office of county clerk, is an Oregon graduate, class of 1900.

Only two of the candidates chosen by the democrats have been students at the University. Walter B. Gleason, nominated for presidential elector, was graduated with the class of 1911. Charles V. Galloway, class of 1899, succeeded in having his name written in on the ballot enough times to win the nomination for state treasurer, where he will oppose Thos. B. Kay, republican incumbent, in the general election.

## Summer Laboratory Class Maximum Size

Enrollment in the Laboratory Technicians course has reached its maximum of 20, according to Dean Alford Powers of the Extension Division. No further enrollment is being received.

# Sig Eps Win Torrid Game

## First Tilt of Final Series Is Scheduled for Friday

Sigma Phi Epsilon came through yesterday afternoon for a victory over Sigma Pi Tau by an 8 to 5 score, thus winning the championship of league D and qualifying for the final series. The game was hard fought from the beginning and it was not until the fifth canto that the S. P. E.'s put the game on ice. Sigma Phi Epsilon started the tilt off with one man hitting the rubber in the initial canto. Sigma Pi Tau found Fries for a couple of hits and gathered in two scores in the last of the inning. During the next three cantos Sigma Phi Epsilon sent four men around the horn and Sigma Pi Tau three which tied the score at five all at the end of the fourth period.

In the first of the fifth Heisler got a pass to the initial sack and advanced to second when Wingard got to first on an error. Then Tetz connected for a nice clout into right field and covered all the bags, crossing the platter on an error, and gave the S. P. E.'s a three score lead. Fries, chucker for Sigma Phi Epsilon, held the Sigma Pi Tau club scoreless in the last of the canto and the game went to the S. P. E.'s 8 to 5.

Fries looked good in the box and allowed only three hits and sent ten men to the bench. Potts did the chucking for Sigma Pi Tau.

Winners of the leagues are now decided and the four clubs to play in the round-robin for the championship are Sigma Nu, Delta Tau Delta, Psi Kappa, and Sigma Phi Epsilon. The first tilt is scheduled for Friday afternoon at 2:30 between Sigma Nu and Delta Tau Delta. The second game is between Psi Kappa and Sigma Phi Epsilon Saturday morning at nine o'clock. The remaining games of the series will be played the first of next week.

Summary of yesterday's game:

	R	H	E
Sigma Phi Epsilon	8	7	6
Sigma Pi Tau	5	3	5

Batteries: Sigma Phi Epsilon—Fries and Bates; Sigma Pi Tau—Potts and Christensen.

## Dates for Women's Tennis Matches Slated

Monday, May 28, is the date set when the Sophomore and Junior first tennis teams meet in the Women's intramural tennis tourney. The Junior and Fresh leaders will clash on May 30, and the Sophs and Seniors are scheduled to close the season on June 1. All matches are to be played at five o'clock on the days scheduled.

according to Mabola Kurtz, head of Women's tennis. If it is impossible to meet these arrangements, she stated, Miss Troemel should be notified at least a day ahead of time so that referees may be secured.

## Fight Opens

(Continued from page one)

ture on the University of Oregon campus and at O. S. C., has begun legal action to have itself classified along with churches, colleges, lodges, and other non-profit and non-tax paying corporations.

"University of Oregon fraternities and sororities have been planning a move of this nature for several years. Many attorneys have interpreted the laws governing this matter on the Oregon statute books and have found that fraternities and sororities are lawfully exempt from taxation and should have been exempt before this," Benjamin said.

"Fraternities and sororities on the Oregon campus are paying an average of from \$500 to \$600 a year in taxes per house. That is, approximately \$20,000 per year is paid by campus fraternities and sororities to the state treasury.

## Dormitories Tax Exempt

"This is double taxation. For instance, a house with 40 members has a yearly tax bill of \$1,000. This amount, apportioned among them, is \$25 apiece. When it is considered that the members' parents pay taxes to support the University and then must pay an additional tax of this amount, it is readily seen that the fraternity tax is unfair.

"Inasmuch as the state does not provide enough dormitory facilities to take care of the students attending the University they must find other accommodations. Here at Oregon fraternities and sororities have solved this problem, caring for nearly half of the students on the campus. However," he continued, "students who live in the dormitories pay no taxes. This is where the only difference lies. Both fraternities and dormitories are performing the same service. Yet one is taxed and the other is not.

"In other states in the United States fraternities and sororities are not taxed," Benjamin concluded. Alumni representatives of the campus organizations who are in charge of the alumni participation in the fight are: Earl Bronaugh, Lamar Tooze, and Judge Cake.

Pioneering in old and new lines was the theme of the fifth annual Women's week-end program at Washington State College. The program consisted of receptions for the mothers, luncheons and banquets and a dance festival, in all of which the pioneer spirit was carried out.

# Constance Roth and Cecil Matson Enter New Drama Work Next Fall

"It's all over now"—is the fact with which Constance Roth and Cecil Matson will soon be faced. After three years of work in the drama department, the two most prominent Guild theatre players will close their university drama career with rather inauspicious parts in "Midsummer Night's Dream," the commencement play to be given on the mill race, June 8.

"I've tried about everything from stage craft and costuming to directing and acting, but I like the deep, rather heavy character parts best. Of all the roles, I enjoyed that of Ruth Atkins, the worn out wife of a farmer," Constance said.

Though her plans for the future are indefinite, it is probable that she will take work at California during the summer months. "Of two things I am certain," she said, one is that I am not going to teach, and the other is that I am going to continue in dramatic work."

On the other hand, Cecil Matson is determined in his plan to direct high school plays and drama classes. Though he has taken some difficult roles during his three years work and has portrayed them with skill, he says that there isn't the thrill in acting that there is in that of directing, of combining the work of others and smoothing out the important little points of a play that make it a finished production. The Eugene high school senior play, "So This Is London," and the

material set up and electrolyzed by the Lancaster Press, Incorporated. There are 441 diagrams, 640 problems, and over 267 mathematical equations in the book.

"I have tried to treat physics as a whole in this book," Dr. Caswell stated, "and have tried to get away from the water-tight sections commonly found in similar textbooks. I have placed the different parts where they were needed most and scattered the difficult parts so that the students can understand them more easily."

The first part of the book is given over to various types of phenomena and the second part contains matter to explain the phenomena. Thorough and what it is made of is the first subject considered in the book.

More than 300 students, representing 85 high schools, competed in the annual typing contest held recently at the University of Washington.

## Firm Plans Extension Courses for Workers

Plans are being made by the extension division of the University and the Montgomery Ward company for general reading and study courses to be held for the benefit of the employees of the latter. These will be non-credit courses and will be conducted by correspondence, according to Dr. Dan E. Clark, as assistant director of the extension division.

## Physics Text Book by A. E. Caswell at Co-op

Copies of "An Outline of Physics," a general physics textbook written by Dr. A. E. Caswell, have been received by Dr. Caswell and the Co-op store. The book was published by MacMillan and Company, who had the
