Forget the Brotherhood Get Out and Vote

Several hundred registered voters on the Oregon campus will be faced with the problem of whether or not to exercise their right of franchise in the national and city elections today.

If the registered voters on the campus today play square with themselves and with future generations of students here they will make an honest effort to exercise their just right.

As far as can be discovered there is no law in Oregon making it legally wrong for students in Eugene to vote.

Now is as good a time as any for the issue to be settled, for henceforth some group will invariably attempt to stop student voting as soon as evidence appears that the students might not favor the policy of that group.

Not Even a Moral Victory, But Who Cares?

Oregon may not have won a victory, even a moral victory, over the California Bears last Saturday but nobody can deny our right to claim a glorious defeat.

Quoting from a post mortem of L. H. Gregory, Oregonian sports editor:

Oregon met in California the strongest defensive eleven in these United States. Exactly that. The verdict today is that Oregon showed astonishing form and rare promise for a young eleven, and that a year's more experience for the ends and the line and some backfield reinforcement should go pretty far in another season.

So we must again bow to a California team this year. But we do so with a triumphant gleam in our eyes for our thoughts are not concerned with the present but with the future.

And in the meantime we await optimistically the traditional battle with the Oregon Aggies to settle the old issue of state supremacy. W. H.

Get the Returns at 'Dog Watch'

All students and faculty members on the campus have been issued an invitation to sit in on an election "dog watch" in the journalism shack tonight.

Communications MORE DOUGH

To the Editor: And another few dollars are to be tacked onto the annual university bill which will stare our poor weak pocketbook in the face at the beginning of next school year.

This is supposed, by most of the people of the state, to be a state institution, and yet the regents are afraid to, or can't ask the state to give the money to support the school and build new buildings, and so the students have to get the bill in the neck.

How the smaller schools of the state must smile in glee when they hear of the raise in fees. "More students for us, more money in our pockets," they must think.

Let us stop a minute to figure what it will cost a young man or woman to be a student of the "state" university. The registration fees for the year will be \$78.75. Add to this the laboratory fees, of which the average student cannot get off any cheaper than \$10 a term, this will total \$108.75 per year.

Let us stop a minute to figure what it will cost a young man or woman to be a student of the "state" university. The registration fees for the year will be \$78.75. Add to this the laboratory fees, of which the average student cannot get off any cheaper than \$10 a term, this will total \$108.75 per year.

for registration for their students, and Willamette university, well known as one of the most expensive endowed schools in Oregon, charges only \$150 for all fees.

The Ambler

YESTERDAY WE SAW: IOK REYNOLDS, lanky basketballer, in golf knickers—HAZEL MILLER sporting a new blue hat—CHUCK WILLIAMS among the "writers" at the dispensary—DORIS WELLS with her finger in her mouth—BOB WARNER preening his senior mustachio—JEAN PATRICK camping on the library steps—LOWELL MOBLEY seated close to a plate of grub—GLENN POTTS wrestling with another boy—DOT WARD eating string beans—"COFFEE" TIM WOOD, publicity agent, contributing to a "bull session."

Election

(Continued from Page One)

after the person offering to vote shall have answered the questions put to him as aforesaid, the chairman of the said judges shall administer to him the following oath: "You do solemnly swear (or affirm) that you are a citizen of the United States; that you are of the age of 21 years; that you have been a resident of this state for six months next preceding this election; that you now reside in this precinct; that you have not yet voted at this election, and that your true name is as you represent it to be."

Qualifications of Residence: The judges of election, in determining the residence and qualifications of persons offering to vote, shall be governed by the following rules, so far as the same may be applicable:

- 1. The place shall be considered and held to be the residence of a person in which his habitation is fixed, and to which, whenever he is absent, he has the intention of returning.
2. A person shall not be considered or held to have lost his residence who shall leave his home and go into another state or territory or county of this state for a temporary purpose only.
3. A person shall not be considered or held to have gained a residence in any county, city or town of this state into which he shall come for temporary purposes only, without the intention of making said county, city or town his home, but with the intention of leaving the same when he shall have accomplished the business that brought him into it.
4. If a person remove to another state, or to any of the territories, with the intention of making it his permanent home, he shall be considered and held to have lost his residence in this state.
5. The place where a married man's family resides shall be considered and held to be his residence.
6. The place where an unmarried man sleeps shall be considered and held to be his residence.
7. If a person shall go from this state into any other state or territory and there exercise the right of suffrage, he shall be considered and held to have lost his residence in this state.
8. All qualified electors shall vote in the election precinct in the county where they may reside for county, city or town officers, and in any county in the state for state officers, or in any county of a congressional district in which such electors may reside for members of congress.

In Campus History That Tell How The Collegians Used to Act.

Twenty-five Years Ago From the Oregon Weekly November 9, 1903

"The second game between the Washington Agricultural college (now W. S. C.) and Oregon was made a scoreless farce by unavoidable weather conditions. Kneaid field was a carp pond and the ball was as slippery as any fish."

Professor Howe addressed the assembly last week on the lack of firmness in American life.

At the close of the assembly hour Wednesday morning a meeting of the associated students will be held for the purpose of electing debaters to represent Oregon in the annual debate with Whitman.

Fifteen Years Ago From Oregon Emerald, November 6, 1913

A bill appropriating \$75,000 for repairs to university buildings, and \$100,000 for a modern, fireproof administration and classroom building, carried by a large majority in the election two days ago.

Coach Bezdek yesterday warned his team against the "air of confidence" they have assumed in regards to the coming football games. He pointed out as reasons for his gloomy attitude the fact that four of the best men are on the bench with injuries, and he says that in his opinion the team is playing raggedly.

"Bill Hayward is still optimistic though, and told the student body yesterday that Oregon has the greatest coach in the country."

At the second meeting, of the semester of the interfraternity council, U. C. L. A., a resolution was passed to the effect that all social fraternities on the campus would be required to post a bond of \$25 to cover any fines or levies with which they might be assessed during the ensuing year.

Mozelle Hair Speaks To Parent-Teachers At District Meeting

Miss Mozelle Hair, director of the extension division correspondence study, returned last week from Portland, after addressing the North Willamette district meeting of the Oregon Congress of Parents and Teachers on the subject of "Home Study Groups."

These groups are being formed under the direction of the national Parent Teachers organization to further home study of child training and welfare, Miss Hair said, and much interest is being shown already, although the movement is comparatively new. Several groups will probably be formed in Portland, she said.

Education of parents through the study groups has been made a major activity in the association, according to Miss Hair, who is in charge of the work in the northwest and on the coast.

On November 15, Miss Hair is to talk to the Eastern Oregon session of the Parents and Teachers in Pendleton, and on the night of the 16th she is scheduled to speak to a group of Portland Girl Reserves on the subject, "Opportunity for Development and Self-expression of the Modern Woman."

Room 30 Books Grow Legs and Disappear

Students using room 30 of the main library are asked by the librarians in charge to be careful not to take books from the room. Several important books have disappeared lately. The librarians are willing to make adjustments that will help students in the use of the books, but they also wish to have the books available for as many people as possible.

Room 30 is becoming increasingly popular as a place for special reserve books. At first, about eight professors had shelves in this room, and now the shelves number over 25. Sections devoted to journalism, Latin, psychology, English, French, philosophy, Spanish, and German are found in the room.

Grille Dance Campa Shoppe FRIDAY AND SATURDAY

Lights that Fill the Skies with Commerce

THE air map of America is now in the making—on the ground.

Ten years ago, there were 218 miles of air mail routes with two station stops; to-day, a network of sky roads bridges the country from the Atlantic to the Pacific and from Canada to the Gulf of Mexico.

Can you imagine this growth without electricity—without illuminated airports—without trunk lines studded with electric beacons?

Men of vision are building for increasing traffic of the air. Soon, the skies will be filled with commerce.

Just as electricity is helping to conquer the air, the land, and the sea to-day, so to-morrow it will lead to greater accomplishments in aviation and in every human activity.
